Plan were reviewed and evaluated. Title of plan  
"Chinatown/International District Community  
Development Plan Phase II, Land Use  
Recommendation", June 30, 1993.

The Interbay P-Patch Community Garden will build 1759  
four permanent and two seasonal compost stations:  
one toolshed for storing community garden property;  
and one 200 foot fence along the east garden  
boundary.

Operated an after-school program for neighborhood 31006  
youth.

Installed a new playground structure. 20283

Four neighborhood identification signs will be 500  
designed by a neighborhood artist; the signs will be  
built by the Engineering department and installed at  
the following locations: Jackson & Rainier; 23rd &  
Yesler; MLKing Way & Irving; & 23rd & Judkins.

Painting & installation of 3-4 murals in Junction. 1) 29393  
Huling Bros.; 2) P.O. on Calif SW; 3) adjacent to  
Chamber of Commerce Welcome Sign.

A community school will be established at Graham 36850  
Hill Elementary School.

A community school will be established at Graham 36850

ongoing maintenance.

The Bryant Manor Housing Tenants Organization, in conjunction with the Pratt Fine Arts Center, will create a 1000 sq. ft. mural for a wall of the apartment complex which faces the park and has been vandalized with graffiti. 3000

A traffic circle will be designed and installed to slow traffic in a residential area. 3000

An existing street end will be redesigned so that it is not accessible to cars. Instead the street end will become more pedestrian friendly with the creation of a pathway leading to the adjacent waterfront park. 3000

3000

Researched, wrote and published the history of the Queen Anne community. 25000

The project included the recruitment and training community members for the Rainier Community Center Citizen's Advisory Council. The object was to make the Council more diverse and more representative of the neighborhood and community. 3000

With the purchase of a video projection system, the Rainier Vista Community Council will be able to organize and present "Family Video Night" for families of Rainier Vista. In addition to entertainment videos, the Council will show educational programs. 2501

A traffic circle was designed and built at the intersection of NE 68th and 31st Ave NE.	2740
Redeveloped a deteriorated two acre park adjacent to Ravenna- Eckstein Community Center, including 13 cherry trees; 43 shrubs; 6 park benches; 3 bollards.	42259
Renovated an existing facility to create a multi-service center serving refugee women and their families.	
Existing chicanes (traffic control devices) will be landscaped and street trees planted to improve the appearance of the street.	2994
Conducted a facility planning project for 2 parcels of land on either side of 8th S, north of dearborn.	49590
Reseal and paint exterior of the building. Project included replacement of a deteriorated exit door and installation of a security screen door.	3000
Residential streets in the South Atlantic neighborhood will be made "greener" with the planting of 80 street trees.	3000
The Coleman playground is underutilized, so basketball hoops will be purchased and installed on the grounds to encourage greater use by neighbors.	1877
Organize businesses in Rainier/Genesee, Columbia City, and Hillman City. Conduct regular clean-up of commercial areas along Rainier Ave.	22290
Elementary students from southeast Seattle schools will design and paint murals for five neighborhood bus	3000

Saturday's throughout the summer, will be started in the University District. If successful, the Chamber hopes to expand and operate the Market every summer.

Installed a volleyball, badminton and pickleball net system. 3639

The community planned, designed and installed an innovative playscape with major landscape improvements to an adjoining embankment. Two problems were solved: 1) replacement of an unsafe playscape; and 2) making safe an eroding and unsafe embankment that adjoins the play area. 59572

A triangular island, a natural "Gateway to Green Lake," was landscaped. 4753

100 street trees were planted in the 10 block area bounded by Aurora, N 85th, Fremont, and N 90th. 5000

The Greenwood Food Bank, a program of Volunteers of America, serving the poor of North and Northwest Seattle, will acquire a reliable truck to transport food to the food bank. 8000

planning report.

An outdoor, double-sided, illuminated readerboard to announce school and community events will be installed at Viewlands Elementary School. 4750

15 street trees will be planted along 46th and Wallingford, near the Food Giant grocery store, to improve the appearance of this particular area of Wallingford. 2202

This project will aim to compile a comprehensive study on homeowners' insurance in the Rainier Valley. ACORN will gather specific information on the insurance policies of area residents to determine the nature of insurance redlining and put in place community initiated solutions to the problem. Community members will be the key movers behind this project, but ACORN will actively involve others, such as the Insurance Commissioners' Office to ensure that the study will be well documented and real solutions come of the community's work. 6000

A weed infested and muddy section of the school's playground was transformed into an inviting outdoor space that can be used for quiet play or recreation. An exercise area, accessible to disabled children, was also created. 4598

The applicant proposes to hold an "economic summit" for the businesses and residents of the West Seattle 5000

students and neighborhood residents.

The Asian & Pacific Islander Leaders of Tomorrow group organized a youth conference for their peers on 9/22/95 at Seattle Center. The event convened over 150 Asian/ Pacific Islander youth from around the Greater Seattle area. The purpose of the conference was to promote a stronger sense of identity, leadership, and empowerment through youth-initiated community projects.

1000

Creation, distribution, and collection of a community involvement survey using a public process facilitator. Create conceptual sketches of the project and a marketing brochure for purposes of further involving the public and for fundraising.

5000

Installation of murals on both walls of the 46th Street underpass to discourage graffiti and provide an attractive visual passage for drivers and pedestrians, as well as provide an opportunity for neighborhood bonding.

1000

Project commissioned and installed a mural at Bergen Place Park commemorating the Scandinavian contribution to Ballard's history and recognizing the Seattle Bergen sister city relationship.

19768

An inventory and needs assessment of open space opportunities for the Ballard District, synthesized into a conceptual open space plan.

Gain information for planning community school and other programs to strengthen and improve the participating schools and their neighborhoods and contribute to improved school performance.	4993
The Black Dollar Days Task Force Youth League sponsored a dance at the Langston Hughes Cultural Arts Building. The purpose of the dance was to recruit youth to participate in the Youth League of the Task Force and to provide a safe, non-violent, and fun activity for young people. The event also featured a panel discussion with professionals from the community keeping a positive attitude and preparing for the future.	800
The B'Nai B'rith Youth Organization designed a project that offered five free monthly activities for young males that were on the Big Brothers of King County Program waiting list anticipating a match. The activities included art projects, swim parties, sport events, cultural activities and anti-violence information. The intent was to build the little brothers self esteem, provide a sense of community, and build a cadre of older youth who have time to share with the younger set.	970
A neighborhood survey will be developed and distributed, and the results analyzed so that the first step in the development of the Broadview Neighborhood Plan will be completed.	5000

The Garfield High School Cultural Relations Committee organized and conducted student facilitated forums on race, class, and culture in order to lessen racial tension and promote cultural awareness among the student body. The student facilitators received special training from a unique program - World of Difference: Hands Across The Campus.	1000
The Garfield High School Messenger produced a special edition on violence called the "Purple Flava". It was mostly created by 9th grade language arts students who were being taught the fundamentals of journalism. 2000 copies were published and distributed to the student body and the community.	670
the Girl PEACE organization sponsored a chaperoned sleepover for 40 middle school-aged girls from primarily low income neighborhoods. The purpose was to provide the invited girls with positive reinforcement to build their self-esteem and to allow them to interact with invited powerful female role models.	800
Conduct a feasibility study and develop an action plan to complete first phase of development of a Parking and Business Improvement Area (PBIA) and/or Local Improvement District (LID) in the University District.	5000

the Green Lake neighborhoods along four main arterials that bring people into the community.

This project was part of a larger effort to revitalize the Greenwood business district. To get more people familiar with the business district, an Art Walk was organized to bring neighbors into various businesses to view the work of local artists. Since it was so popular, Art Walk is an annual neighborhood event organized jointly by the Greenwood Chamber and the Greenwood Arts Council. A secondary outcome of the project was the creation of the Greenwood Artists Directory, a publication made available to residents and business operators which lists neighborhood artists and their specialty.

3450

Installed a new play structure, graphic art, landscaping and benches.

32000

To restore and improve a community playground on the grounds of the old Webster School.

49872

Hire a professional outdoor art designer to plan and oversee installation of artistic features at the Webster playground, which is scheduled for completion in the summer of 1996.

5000

The award was used to develop a community-based design, and construction drawings, for improvements to the Bobby Moris Park and Playfield.

installed a gateway arch over the sidewalk on University Street adjacent to the Alaskan Way viaduct. The arch welcomes people to the Seattle waterfront, provides directional signage and has become a landmark for the Seattle Waterfront neighborhood.

The Seattle Young People's Project organized and hosted a free, one-day training on community organizing for 60 youth called Tools for Change. The workshop focused on youth involvement, cross-cultural issues, developing community resources, and the structure of local schools and reform strategies.

1000

The Seattle Young People's Project Anti-Violence Initiative organized a community fair for youth as a way to celebrate peace and focus on non-violence in the community. The activities included a disc jockey, a dunk tank featuring SPD officers, 12 community information booths, entertainment, food, and a brief program.

1000

The Queer Youth Rights Initiative of Seattle Young People's Project wrote, published, and distributed one issue of their magazine: PRIDE. The publication was written by and for gay/lesbian/bisexual/questioning youth. It's purpose was to build a sense of community, a source of information/education, and an opportunity for self expression.

the middle school age students to gather during the school day. The students installed landscaping, wooden benches, and a picnic table.

The Summit K-12 Natural Helpers organized a project that involved all 700 students. They arranged for the students to each paint a small ceramic tile with a personal vision of peace. The completed tiles were installed throughout the common hallways for inspiration and as a reminder.

Members of the Loyal Heights community -- adults and children -- created artistic tiles that have been installed on a retaining wall that is part of the community center's new play area. The tiles and art wall reflect the theme of "Community Spirit".

The Committee will create and distribute wallet-size educational/informational cards to be attached to large, permanent posters about bias crime. This information will primarily be distributed in the Capitol Hill neighborhood. A public education campaign curriculum will be created and an effective coalition of volunteer individuals, organizations and businesses will be created around the issue of anti-gay bias crime.

To add a new water meter, expand water line and amend soil at Thistle P-Patch.

Install 3 picnic tables, bench and kiosk at Victory

Heights playfield.

A community effort to replace deteriorating play equipment at school/neighborhood playground with safe, special needs accessible structure incorporating art tiles in border. 45727

Planted 15 street trees and shrubs along Densmore and 48th Street. 4780

To install a ceramic tile wall of individualized tiles created by students and neighborhood residents to beautify the entrance to the school. 5000

Construct a traffic circle at the intersection of 30th Avenue NE & NE 88th Street to slow down traffic. 2250

To replace the old, unsightly cans with the new, sturdy, and visually appealing receptacles. 4867  
Specifically, the BIA will purchase 28 garbage receptacles, 6 ash urns and 4 matching planters. The BIA will go through the proper channels for obtaining permits from the engineering department for the placement of the planters and urns. The BIA will assume responsibility for maintenance and upkeep of the planters and ash urns.

To design banners for Spring, Summer and Autumn and to produce a summer design banner and install on light poles in the junction. 5000

Creation of an entryway seatwall with plantings at entrance to school. 1000

membership, awareness and participation in the 23rd & Jackson neighborhood planning process by involving an additional 75 individuals through the Neighborhood Planning alternatives Fair to be held on October 18th at Garfield Community Center. African, Latino/Hispanic and Asian Communities will be targeted.

Planting trees along 29th Ave W between 4200 & 4400 including adjacent W. Mansell & W. Jameson.

4957

A neglected waterfront park will be restored to become an educational resource for the neighborhood and the entire City. Seven elements are included in the renovation plan; only three elements will be done with this award. They include: the installation of carved tiles that will depict Puget Sound marine life, creation of a "mock tidepool" in the sidewalk adjacent to the park, and the installation of fourteen constellations (Avenue of the Stars) into the adjacent boulevard. These enhancements will be informative and educational.

39908

People who live or operate a business in the Alki neighborhood will be surveyed to determine issues that are important. After the data is collected and analyzed, the findings will be reported to members of the community and the Community Council will use the information to set its agenda for future neighborhood improvement projects and developing a

the Langston Huges Center, Pratt Fine Arts Center, Atlantic Street Center and the Senior Adult Programs

A perennial garden will be installed and an art bench commissioned and installed in or alongside the garden.

2500

Built a new play area with equipment as well as an adjoining pocket park bordered with landscaping.

34000

To commemorate the work of teacher and peace activist, Aki Kurose, a Peace Garden was installed in an area of the school grounds that was blighted and unused. Along with landscaping and art, new fencing was installed to minimize the impact of balls and other play items on this passive/quiet play area.

32807

The Leschi Community Council will produce a master plan for the natural area at 36th and E Terrace. The project will include the extraction of invasive plants and some planting, both as approved by the Department of Parks and Recreation. "Leschi's 36th and East Terrace Open Space Vegetation Management Plan" prepared.

4580

The playground at Loyal Heights Elementary School will be improved with the addition of a new playscape, ball walls, basketball court, planter beds, and other amenities.

49563

This project's goal is to increase community participation by involving an additional 50 individuals

through the Neighborhood Planning alternatives fair to be held on October 18 at Garfield Community Center. Their strategy includes a media campaign that will target seniors and African Americans.

Martin Luther King Jr School, which also functions as the neighborhood community center, will have improvements made to the grounds and building so that they are safe, more useful, and aesthetically pleasing. For example, lead-based paint will be removed from the building's windows and trim, then repainted w/recycled paint; a significant portion of the grounds will be renovated to include concrete curbs and walkways and a "stage area" for play acting and performances, as well as other distinct play areas.

54332

For 8 weeks during the summer, neighborhood young people -- 2nd through 12th grades -- will participate in Chess classes and games held at the MECCA Espresso cafe, a neighborhood business. 20 students and 10 adults will participate in casual and tournament play.

1000

This project will add additional design elements to the "new" Miller Park Community Center which is currently under construction. An aquatic playscape, in the form of a year round operating fountain, will be installed to replace a wading pool and landscaping and other site amenities will be added to complement improvements being made by the Park department.

improvements being made by the Park department.

Purchase and installation of portable soccer goal posts on the new athletic fields on the I-90 lid. 1080

Plant trees on planting strips in front of St. George's School and surrounding homes. 3000

To install four street lights. 1400

Parents of pre-school age children, residing in the City's public housing communities, will be recruited to participate in the HIPPY -- Home Instruction Program for Preschool Youngsters -- program. HIPPY, a program operating worldwide, is a home instruction program that parents can use with their preschool children. In addition to training, parents will receive curriculum materials and ongoing support from program staff. The program is designed to teach parents to develop their children's potential and become actively involved -- early on -- in their education. 65000

Using puppets, the Theatre will develop performances with a anti-drug/violence message. Performances will be for audiences of young people and adults, followed by a facilitated discussion period. The intergenerational discussions will hopefully lead to more conversations between young people and adults about drugs and other important topics. 1000

school. The students painted the mural and constructed the wooden panels they were attached to. The theme of the mural is to display ethnic and racial diversity among people of the world.

Neighbors along 4th Ave W will select and plant street trees to enhance the appearance of the block.

1470

An unusable section of the school's parking lot will be converted to a children's playspace that will include a shrub maze with wood chip paths.

4984

Landscape the elementary school campus with low maintenance greenery.

5000

A Neighborhood Computer Learning Center will be developed to provide job readiness and computer literacy training to low-income neighborhood residents. The Learning Center will include at least 10 computer stations and an educational and training program open to all neighborhood residents.

39686

To promote the Ballard neighborhood and Ballard Seafood Feast, a colorful, 25ft inflatable salmon will be fabricated and flown from a building in the business district. Smaller inflated salmons will be installed at street level. The decorated fish will enliven the community and perpetuate a common Ballard theme.

5000

To make tenant improvements for a 150 seat performing arts theater for live performances, a

drawings for the improvement of the East Union, between 20th and 22nd Avenues. The project a phase of improving the appearance, vitality and pedestrian safety of East Union.

Establish a P-Patch on the NE corner of 18th Ave. & E. Columbia Street.

4911

Community volunteers will provide an opportunity for youth, ages 6-17, to express themselves through drama. The highlight of this project is to fund three productions in May in which youth will be involved in all areas: acting, costumes, props, sets, programs, stage work, and lighting. Older youth will have an opportunity to help direct the plays.

1000

The Family Center Web Project will train Family Center coordinators and parents from Family Centers in how to use the internet and how to incorporate internet use into existing programs. Parent trainers will lead their own trainings at Family Centers extending the benefits of the initial trainings to low-income parents throughout Seattle.

3835

The goal of this project is to implement the second phase of developing a community computer center. The objectives include developing and implementing a strategic plan to recruit, organize and train volunteers who will become the primary group responsible for the long-term operation of the

underdeveloped church property.

The purpose of this project is to increase family support at Meany and to have some additional information fro teenagers on hygiene and ediquette. To promote this idea the PTA is planning a two day event in May to have students bring their parent(s) or guardians to school. One day will be reserved for girls and the other day for boys. Youth will receive a free hair appointment, facila, or manicure. In addition, volunteers will be available to promote health, hygiene, and ediquette. Parents will receive information on communicating with their children, health, and volunteer opportunities in school activities.

9400

Recruit Vietnamese Community volunteers to assist newcomers to adjust to life in the United States.

9400

To remodel the main floor of Hiawatha Community Center which contains the rooms for School-Age Child Before & After School Preschool, Teen Programs, and the staff offices and lobby.

42725

This award will be used to send two representatives from the Highpoint Community Gardens to the American Community Gardening Associaiton Conference, September 17-20, 1998.

350

This award will be used to send a representative of the Hillman City P-Patch to the American Community Gardening Association Conference, September 17-

neighborhood events. The slide show is an enhancement to a book project that also chronicle's Pioneer Square's history.

The outcome will be a redefined role for the Pioneer Square Business Improvement Area, or a new organization, to ensure a healthy business community.

14999

The organization will develop and maintain a database-directory of all businesses in Pioneer Square. A printed version of the directory will be distributed, at no cost, to all Pioneer Square businesses as a way to encourage local businesses to do business with each other. In addition, the database will be posted on the existing Pioneer Square web site.

7425

This project calls for the purchase of computer software that will be used to help the organization monitor street and alley clean-up services, as well as observed incidents of un-civil behavior. The organization intends to use the data to identify the type/amount of services needed to keep Pioneer Square "clean and safe".

7795

The 1998 Pioneer Square Neighborhood Plan will be revised and approved by City Council. Once approved, 1500 copies of the plan will be made and distributed in the Pioneer Square neighborhood.

where necessary, replacement of trees that have come down over the years. This is for Phase II of the project: fertilization, aeration and monitoring.

Construct a traffic circle at the corner of 41st Ave E and E Galer Street to slow traffic at that intersection. 4745

In collaboration with The Tribes Project 1999 at Garfield High School, the 911 Media Arts Center will partner with Garfield High School and the Langston Hughes Advisory Council to offer a video production program to high school students. They will produce videos about issues of race relations in our county as perceived by young people. 48500

Twenty nine trees were planted on District property and the school and residential community were educated about trees and tree stewardship. These trees are now protected with fencing, and an automatic irrigation system to significantly improve survival rates. This has created a more park-like green space for the neighborhood and school community. 9590

A playground climber for students and neighborhood children was installed at Alternative School #1. 10000

To bring the Fremont Topiary Dinosaurs back to a healthy condition including a landscaping plan that includes a ground covering as a protective hedge. 10000

ArtsFEAST '99 includes the development, 10000

coordination and production of a unique, community arts festival. The event brings together artists, residents, business persons, and industrialists in the celebration of a broad range of art forms.

The Art Committee of the Ballard High School Foundation, working with the high school, has a comprehensive plan for art for the new building. Key component is a 6' x 12' mural, "Scenes from Golden Gardens," by Joe Reno, Ballard alumnus and outstanding professional artist.

5150

To enhance the west entrance to Baker Park on Crown Hill, an authentic totem pole featuring raven and bear will be carved from the stump remaining from the removal of the dying monkey puzzle tree.

6100

This project will study development potential and options for the Beacon Hill business district. The study will identify a mixed-use model and provide related financial and feasibility data. The study will guide the Beacon Hill Chamber of Commerce in its efforts to strengthen existing businesses and attracting new ones.

5000

Develop a neighborhood asset by installing a play structure, amphitheater, and retaining wall decorated with art tiles, benches, and a stepping stone path, thereby, creating an inviting park-like setting for students and families of the greater Broadview

community.

Develop a neighborhood asset by installing a play structure, amphitheater, and retaining wall decorated with art tiles, benches, and a stepping stone path, thereby, creating an inviting park-like setting for students and families of the greater Broadview community.

85000

In an effort to beautify Broadway's streetscape and increase the public's perception of safety, the utility poles will be re-painted and flower baskets will be hung.

10000

The Block Watch community will host a Shake Rattle and Roll party to assist neighbors in preparing for earthquakes and other disasters. Participants will receive advice on how to prepare an earthquake kit and what steps to take during the first 72 hours of a disaster. Residents with specific skills such as doctors, nurses or paramedics will be identified. Neighbors who require special care will also be identified.

200

This project is a collaboration with the Bryant PTSA and Elementary School community to and Jack Straw Productions to implement an oral history/radio drama program for 5th grade students in honor of the school's 80th birthday. Following a series of oral history interviews with Bryant neighborhood

the 520 exit on the west side with shrubs, constructing a traffic circle (bulbout) at the intersection of Harvard-Eastlake, and landscaping the traffic bulbout and traffic diverter.

A Sculpture Garden is being finished off and secluded by an award winning architectural ironwork fence of 17 panels with gates. Powder coating and weatherproof painting will preserve this work.

4500

The International District will place five game tables in Hing Hay Park, which will help activate the park, discourage illicit activities from occurring, and help promote the International District as a place of interest.

10000

Interlm wishes to implement a composting system in the community by using effective micro-organisms (EM). EM will quicken the composting process and eliminate odors associated with night soils and fertilizers. The system will additionally reduce organic waste from going into landfills, increase soil fertility, and build an ecologically sustainable community.

6818

A series of neighborhood walks, bicycle rides or roller skating adventures will be organized. During these outings participants will identify neighborhood treasures such as unusual plants, landmarks, or interesting people. This information will be used to create a neighborhood "treasure map."

250

This project consists of repairing, restoring, and

painting the interior of the oldest community club building in the City of Seattle.

This project consists of repairing, restoring, and painting the interior of the oldest community club building in the City of Seattle.

10000

The Lao Highland Association will establish a five-station computer center to provide access and culturally appropriate assistance to the Southeast Asian refugee communities of Lao Hill Tribes - Hmong, Kmhmu, and Mien, as well as the general public. Classes and assistance in basic computer skills and special topics will be developed to meet the needs of low-income, limited English speaking youth and adults.

10000

To expand the Leschi Natural Area by purchasing an adjacent vacant lot and restoring the habitat on the site with northwest native plants.

25000

This project will continue the work of the steering committee and other neighbors over the past seven years. The committee has reached a point where it needs a qualified arborist and a tree care service, in order to continue to effectively implement the Plant Management Plan for the Leschi Natural Area. This solution is concurred by Parks and Recreation staff.

9350

This project would enhance emergency preparedness to better serve the school and neighborhood by

American War Memorial Garden. This entails planting over 3,000 annuals and perennials in late May and weeding the beds throughout the summer.

The neighborhood group will landscape and maintain a newly installed curb bulb at 21st & 22nd Ave SW.

470

Construct two traffic circles, one at 34th Ave. S and S. College and one at 34th Ave. S and S Lander Street.

7950

To provide an illustrative history, pictures with written narration of the International District through a publication of an easy-to-read book and four-part series published in the International Examiner.

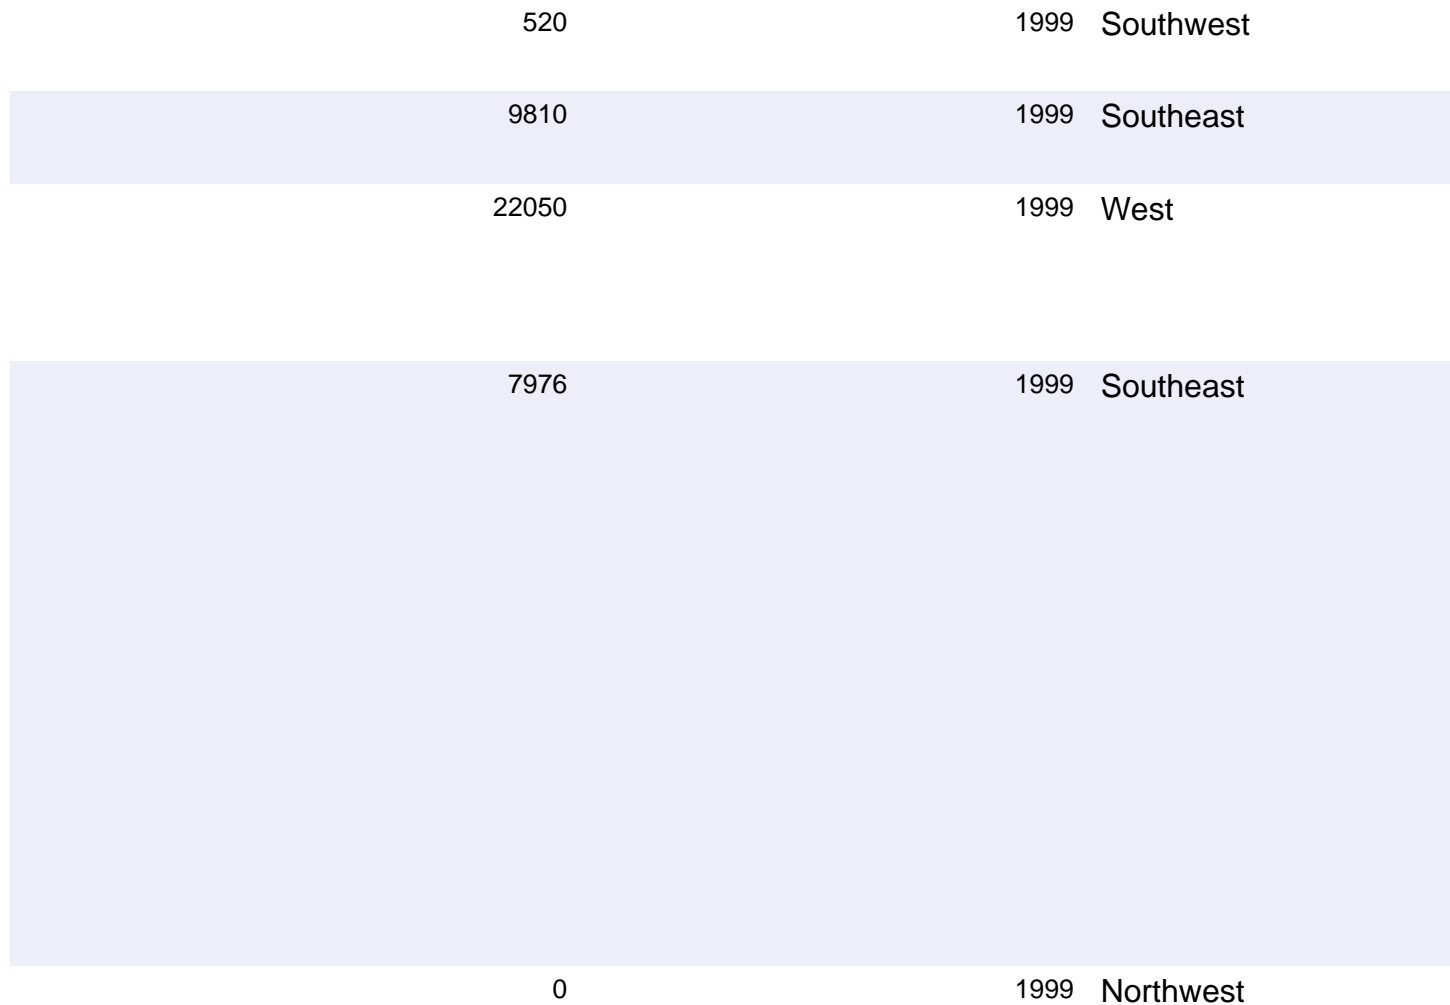

This project would improve the existing play area and other areas surrounding Orca Elementary, including improvements to the play areas to provide a safe and functional area for children to play and landscaping to make the site more visually appealing to the neighborhood. The primary focus will be to redesign the play area on the west side of the school into a functional play area that the greater community can access outside of school hours. It would also provide funds to hire a landscape architect to develop a master plan and play/park plan for the entire site. Once the master plan is complete, we will be able to apply for future awards to implement the improvements.

community nonprofit corporation and its mission is to create affordable senior housing at The Brighton. The Brighton Renovation is a project to upgrade a 124-unit apartment building owned by the Senior Foundation. We have a two-year schedule of renovation projects to bring the building up to the quality envisioned by the Foundation and community for premier senior housing. Many items have already been completed such as renovation of the entry foyer, painting of hallways and stairwells, installation of new carpeting in common areas, and installation of a security system. This request is for funds to pay for pressure washing the exterior of the building and for building a railing on the deck of the activity room.

The Squire Park Community Council in cooperation with other community councils in the Central District will launch a membership drive at the Central Area Festival July 23-25, 1999. The award will be used to purchase a banner displaying the names of all of the community councils and a color map and that highlights the boundaries of each community council. Each organization will have a representative at the fair along with information on activities and membership.

Building improvements to a two-story building devoted to community club meetings, concerts, lectures, private social parties, and especially activities of

610

The Wallingford Community council, in partnership with the Senior Center and the Chamber of Commerce, is launching a community-wide membership drive with a targeted mailing to the 8,500 households in the Wallingford planning area. Residents who choose to join more than one organization will receive a significant reduction in membership dues. Active participation in these organizations has declined in recent years and it is hoped that this combined effort will stimulate new interest and involvement.

The Wallingford Community Council Design Guidelines Team is developing design guidelines for new multifamily and commercial projects in the neighborhood, as proposed in the 1998 Wallingford Neighborhood Plan, to give developers direction about how to address local concerns and design issues in the Wallingford neighborhood. These guidelines may modify, expand upon, eliminate, or even replace certain citywide guidelines.

4370

Develop a site plan for the design of a neighborhood park. A professional landscape architect would be retained to design a park that would adequately suit several local neighborhood needs. Community input and feedback will be solicited from the public.

Develop a site plan for the design of a neighborhood park. A professional landscape architect would be retained to design a park that would adequately suit several local neighborhood needs. Community input and feedback will be solicited from the public. 10000

"Young Citizens Project" is a hands-on art experience and monumental exhibit involving 1,000 youth. Students from Washington Middle School, led by artist Ken Parker of Belfast, create and exhibit 3-dimensional self-portraits. The project is a feature of the Central Area Community Festival at the Garfield Community Center in July, 1999. 10000

The West Seattle Girls Softball Association (WSGS) will work with the Seattle Parks and Recreation Department to renovate the Lincoln Park baseball field located in West Seattle. Renovation includes removal and rebuilding of backstops, fences and dugouts. 4200

The West Seattle Girls Softball Association (WSGS) will work with the Seattle Parks and Recreation Department to renovate the Fairmont Park baseball field located in West Seattle. Renovation includes removal and rebuilding of backstops, fences and dugouts. 4200

will work with the Seattle Parks and Recreation Department to renovate the EC Huges Park baseball field located in West Seattle. Renovation includes removal and rebuilding of backstops, fences and dugouts.

The Marketing Support Project provides tangible support to special public events held in the Junction. The project includes purchase of a generator, banners and outdoor furniture which can be used for several special events including the new Farmers Market, the annual Street Festival as well as parades and community sing along activities.

8110

The Junction seeks to strengthen its image as a community center focusing on small town qualities as a family-oriented, patriotic and festive gathering place. Tables, chairs, plants and planter boxes and flags will be purchased with this award and with the communities match. The tables and chairs will be set out at community gatherings, planter boxes and plants will visually enhance the environment and flags will decorate the streets on appropriate holidays.

2447

"We Can" will hire a landscape architect to work with the community to produce a schematic plan and cost estimate for the redesign of Westcrest Park. The long-range goal is to attract a larger and more diverse group of users to this underused park.

Plan and prioritize improvements to streetscape, pedestrian safety, and flow of foot traffic along E Madison St, 12th Ave, and E Union St to link Pike-Pine and Central Area neighborhoods, and create pedestrian corridors to First Hill light rail station.	10000
Replace and add neighborhood watch signs which will increase neighborhood safety by raising awareness that neighbors are active and watching.	111
Install a standard 16-foot diameter traffic circle at the intersection of 27th Avenue E and E Denny.	4487
This project would add compost and ground cover plants around 10 street trees planted last fall; amend the soil and add shrubs, ground covers, and perennials in the traffic circle at NW 75th and 16th Ave NW; and add compost and ground cover plants to the traffic circle at NW 75th and 17th Ave NW.	975
A rock-climbing wall will be installed in the gymnasium that is shared by the Alki Community Center and Alki Elementary School. The neighborhood and community will have access to the resource through the Community Center.	2357
To improve the strip between sidewalk and curb where school buses unload students in front of Alki Elementary, grass and dirt will be replaced with pavers and shade trees.	8865
This project continued the renovation of the AS#1	25000

playgrounds, which two years ago consisted almost entirely of asphalt and had no play equipment. A grass ballfield, running track, circuit training course, improved basketball standards, and a primary grade level play structure and green space were added.

Design, production, and installation of semi-permanent informational displays within the community kiosk recently installed in Bergen Place.

3000

Preparation of a 100 to 150-page illustrative and narrative history of Seattle's International District that will contain illustrations, photos, and written accounts that captures the evolution of this Asian American neighborhood from its beginning in the 1800's to the present. The public will be asked to participate in the development of this document, which will be used to help preserve the historical character of the area and to market the International District.

9995

This project is to purchase and install seasonal holiday lights on utility poles on NW Market St and Ballard Ave NW for holiday season display.

10000

Improve existing Ballard P-Patch by erecting an entrance arbor/arch; enhance path from arch to arbor, construct additional compost bins and raised beds, and erect a kiosk for posting notices.

construct additional compost bins and raised beds, and erect a kiosk for posting notices.

This project would complete detailed plans for neighborhood gateways at the south and north ends of 15th Ave NW. It would coordinate involvement of community and government departments, and would identify major plan elements and budget/means for completion.

7050

The project will convert a barren waterfront lot owned by the City into a public waterfront park with an accessible sandy driftwood beach. The deteriorated rock bulkhead will be rebuilt. The beach and parkgrounds will be restored to incorporate the latest in bioengineering for the preservation of nearshore habitat. The design includes a pocket beach cove, an ADA pathway, landscaping with native, salt tolerant, and drought tolerant plants, and scenic look-outs with benches.

234271

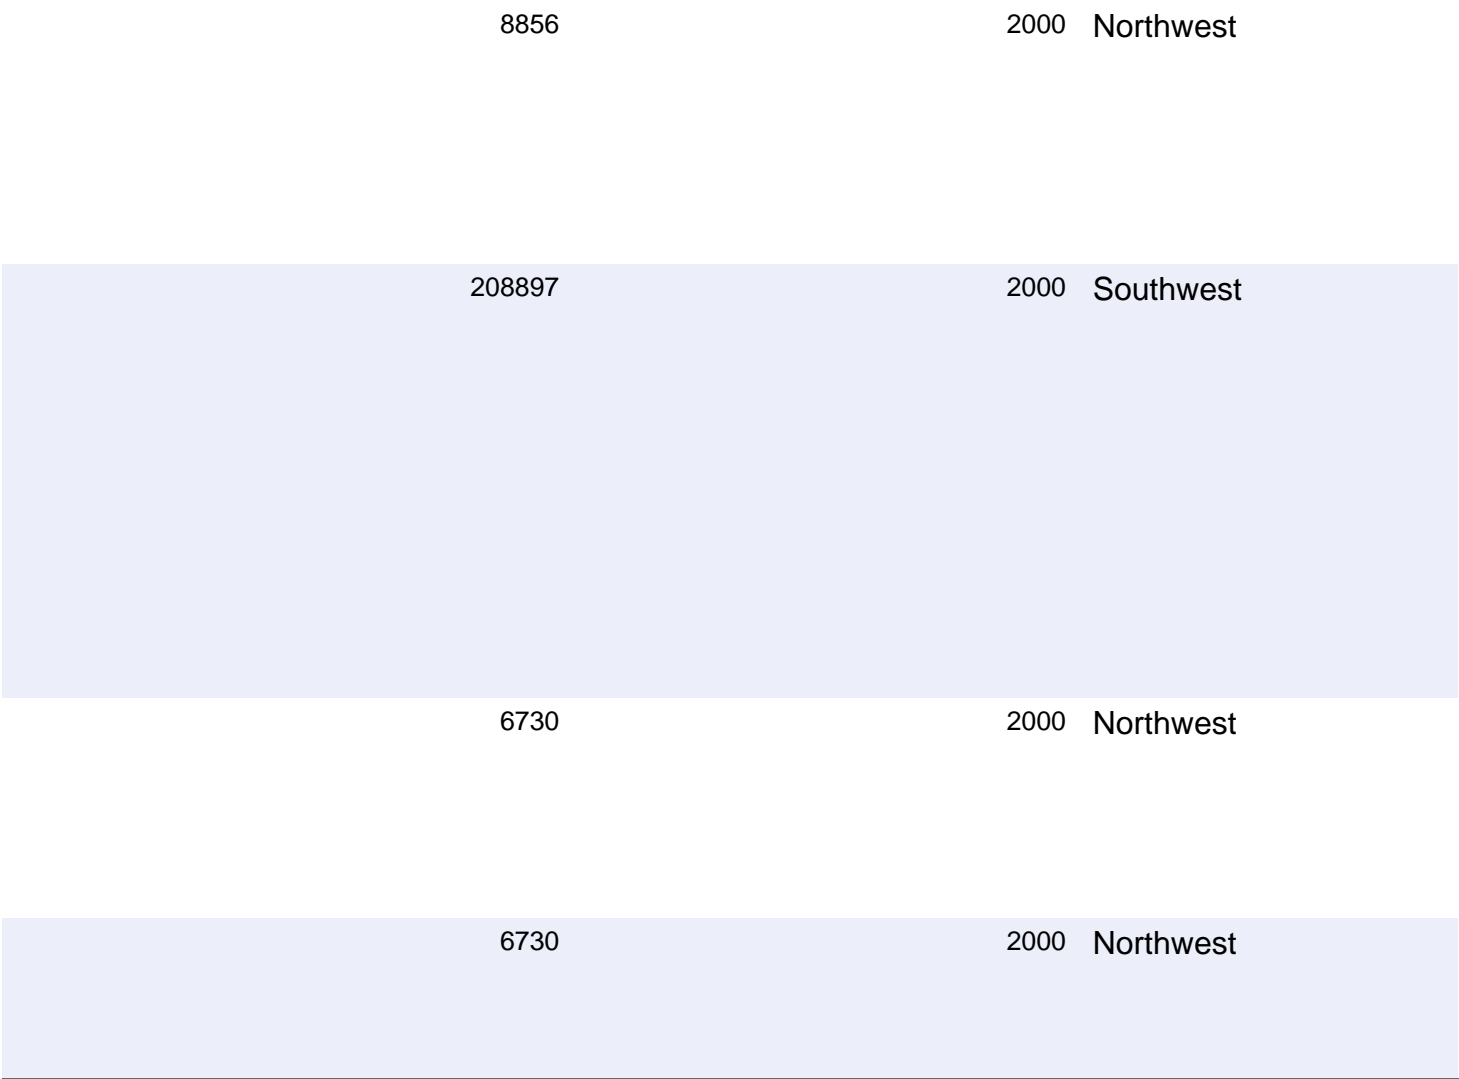

This project will provide funds for the Steering Committee to hire a consultant to prepare a site plan for Carkeek Park trails, working with Seattle Department of Parks and Recreation, Seattle Public Utilities, and the community.

effort to create and install a major work of public art that expresses the historical roots, cultural richness, and vision for the Central Area's future.

A selected artist will create an artpiece with a historical theme and that specifically celebrates African and women's culture. Installation will be in an open community plaza at the corner of 23rd and Jackson.

10000

The Central Neighborhood Association proposes to improve the right-of-way along E Union, the major east-west corridor. The overall goal is to improve the safety and appearance of the street, to slow traffic, encourage pedestrian use, improve the lighting and cross-walk safety, add landscaping, artwork and a bike lane to the five-block project area, and finally to enhance the sense of community in the neighborhood.

100000

The Dragon Pole project is a physical enhancement and a signage improvement within the neighborhood in accordance with Station Area Planning. Eleven dragon poles will be installed on the outskirts of the International District. A metal dragon, spiraling its body around the aluminum light pole, depicts the physical description of a dragon pole. The project will provide the community with an improved way finding system, alternative 'gateways' and a display of public artwork. The dragons are also a source of

artwork. The dragons are also a source of neighborhood identification for employees, local businesses, property owners, residents, visitors and patrons of the neighborhood.

Purchase and install audio system and renovate an existing storage room to be used by the Senior Activity Program and other cultural activities at the Chong Wa Benovolent Association Building. 2500

Provide funds for COHO/NOMS to create a site plan for Seattle School District's James Monroe property. 10000

This project involves construction of 14 tree pits on the east and west sides of Courtland Place between Charlestown Ave S and Spokane St. Improvements include excavating sites, installing supportive edging, amending the soil, planting trees, and installing concrete wheel stops. 9809

Volunteers will remove ivy and other invasive plant species and debris. Native plant species will be planted and maintained. Paths, a decorative arbor, gate, fence, amphitheater seating, observation deck, and signage will also be installed. A bid process will be held to select subcontractors. An artist will be hired to work with the elementary school students to develop signage. 10000

Neighborhood volunteers will clear a large area to build a tool shed, and create a common gathering 1456

area, including seating space, at the Delridge P-Patch. The awarded Matching Funds will be used for the tool shed and to purchase a mulching lawn mower.

Landscaped traffic circle at the intersection of Dibble Avenue NW and 83rd Street. 3990

The Garfield Community will host a trash can painting contest. The newly painted cans will replace the existing trash containers on the Garfield High School campus, which are covered with graffiti. The contest will be held at the Garfield Community Center. 194

This project would remove the current asphalt from the traffic circle and replace with plantings. 423

The Eritream community will construct a 4860 square-foot community center, parking area, and landscaping that will be a gathering point for the Eritream community, other East African groups and the neighborhood. The Eritrean Association has raised money from its membership, received grants from private funders, obtained CDBG funding from Seattle's Human Services Department, and secured a bank loan. Project management services will be partially donated by a SE Seattle non-profit housing developer. Volunteers will paint interiors, prep landscaping areas, amend soil, and install landscaping plants. Completion will be celebrated 75777

garden parcels.

In a partnership between the Delridge Neighborhood Development Association and the Homestead Community Land Trust, a vacant three bedroom home located at the future site of the new Delridge Branch Library will be relocated to a nearby vacant lot. The lot will be purchased, in part, with this award. The home will be renovated and sold, below market rate, to a low-income family. The low-income family will own the home, while the lot will remain in ownership of the Land Trust.

10000

Develop a technology-based educational resource center located in Southeast Seattle to provide East African refugees and immigrants with a safe, culturally sensitive environment where they can access a computer lab and learn about computers with the assistance of bi-lingual staff and volunteers.

I'M A PAL will develop a stewardship plan and a stewardship manual, and train eight volunteer stewards for stream restoration and monitoring activities at four Duwamish River estuary sites within the Seattle City limits.	5000
The International District wishes to produce an ongoing series of events in Hing Hay Park to activate the park, deter illegal activities, and promote the park as a place of interest for residents and visitors.	9000
Interbay P-Patch wishes to improve its parking lot drainage and install a drip irrigation system for the berm, community flower beds, and foodback gardens.	4670
The youth involved in the Jackson Park Youth Tutoring Program will organize a talent show and potluck dinner at the Jackson Park Community Center. Members of the community will judge the talent show, there will be raffle prizes, and awards for the best potluck dishes.	250
This project will create a healthy grassy expanse for year-round use by renovating the existing playground, by improving soil condition and irrigation systems, resodding, and replacing damaged concrete walkways.	14945
John Rogers Elementary School, utilizing both school and public input, developed a site plan for the school property located at 4030 NE 109th Street.	10000

equipment in a newly-created playground area.

10000

The organization will develop a community-based site-design for the construction and maintenance of a contemplative public art space in the small, unmarked and under-used Cesar Chavez Park. The park property is owned by King County and managed by the organization under terms of a Stewardship Permit. The award will be used for design consultation and a broad multi-generational community participation process.

Create and carry out a neighborhood clean-up project/event in the Judkin's Park Neighborhood. The Trash Dash will be a competition in which people will pre-register in teams. Teams will compete for prizes depending on how many bags of garbage they collected, time completed the clean-up, and other pre-determined categories. A neighborhood party/barbecue will culminate this clean-up competition.

250

Mercer Middle School, in collaboration with local community organizations and residents, will implement an on-site project that will involve the creation of a mosaic sundial within a garden sanctuary.

5040

Install two 12-foot high pedestals in the Hillman City business district at the Rainier and Orcas intersection.

These are companion pieces to two Gateway Artworks to be created and installed at the north and south entrances to Hillman City.

Concrete benches covered with ceramic tile mosaic mounted on a mosaic treated concrete slab. The mosaic consists of children's faces, baseball, and soccer imagery. The proposed artwork for Lakewood Park would be located on the west side of the playfield inside the fence along Wilson Avenue.

Improve existing baseball field #1, enlarge infields, modify sprinkler system, soil conditioner system, install new chain link gate for service entrance, lengthen wing fences or life safety, install new pitching mound, and base inserts.

The project has two parts: The gathering and publishing of 30 oral histories and the creation of "memory books" by about 80 West Seattle "elders." The stories will be used to teach school children and to document history.

efforts of community volunteers and business operators.

The Seattle Chinese Garden Society is undertaking the construction of a six-acre, authentic classical Chinese garden and cultural center on the campus of South Seattle Community College in West Seattle. This award will be used to complete detailed design work, including construction drawings, for Phase I of the project.

100000

This project adds amenities such as street lighting, plantings, decorative tiles, and art work to a new streetscape made possible as sidewalks are replaced on both sides of California Avenue SW--between SW Edmunds and SW Oregon--in a joint venture between the City of Seattle (SeaTran) and property owners in the affected area.

80000

The West Seattle Junction Association will undertake a comprehensive marketing campaign to encourage shoppers to patronize the Junction district during the weeks when major reconstruction of the district's sidewalks might otherwise disrupt business.

8250

This project will provide funding for water taps, banner brackets for pedestrian lights, and art tiles to decorate the new sidewalks being installed as part of the California Avenue SW sidewalk construction and beautification project.

Improve traffic circle by amending eroded soil, and replacing overgrown and damaged plants.	150
A neighborhood art celebration, WOW Waves, will be held at Woodland Park on Saturday, September 15 from 3 to 5 p.m. At this event, neighborhood children will have the opportunity to create artwork using paints, crayons, paper, and beads. They will share their art creation with each other. The project organizer will display artwork. People who come to this event will be entertained by the Bubbleman.	250
The "500 area" is a 9.5 acre military site in Discovery Park currently owned by the US Army Reserve which contains about 20 buildings and extensive paved surfaces. Demolition and removal of all pavement and buildings is scheduled to be completed October 2001 by the US Army Reserve, with title of the property turned over to the Seattle Department of Parks and Recreation at that time. The Discovery Park Advisory Council is seeking funds to plan for the restoration and re-vegetation of this parcel.	10000
This study will inventory retail, office, residential, and off-street parking and survey rental rates and will test 3-5 representative sites on Broadway. The information will be a platform for a larger neighborhood planning study to be conducted in 2004.	10000

This physical improvement project at 14043 - 32nd Avenue NE seeks to restore a habitat area in the west end of the park site. The main feature of the project is the creation of a small 800 sq.ft. benched wetland. A walking trail through the new habitat area, fence replacement, and areas of native plants will also be included in the project.

18675

Develop a cohesive neighborhood transportation master plan to be used to define and implement improvements necessary to keep local Laurelhurst streets safe and pleasant for pedestrians and cyclists and accessible to emergency vehicles.

10000

Saturday, August 4, from 2-5 p.m. local artists will display works of art (paintings, drawings, photography) within the Ballard P-Patch garden. People who come to this event will also be able to participate in creating art. This will include a garden poetry reading and sketching and painting materials available for people interested in drawing and painting.

150

During "Night Out" the community will gather to play games, socialize, eat and dance. The event will feature games, a variety of foods, and music for all generations. The activities are for all ages but a special effort will be made to involve youth and those

new to the neighborhood. T-shirts and caps with the name of the Holly Park Block Watch will be given in recognition of those who have done positive things in the community. Those who attend will be given information about the block watch and other projects of interest in the community. Block watch members will follow up with interested parties after the event.

Leschi neighbors will organize and carry out a picnic at the Madrona Park Picnic Shelter that includes sharing ethnic foods, local music and creative movement plus face painting and games for the children.

250

Hire landscape architect to work with community to produce schematic plan and cost estimate to enhance safety, maintenance, and design features.

10000

Plan, research, and perform conceptual design for preservation of Pilling's Pond, located in the Aurora-Licton residential urban village, and included as an important environmental, educational, and historical community resource.

10000

Provide funds for the Loyal Heights PTA to create a unique, welcoming community green space for neighborhood enjoyment. Funds will be used to hire a contractor to construct the new field and play area. Elements include a green field, walking/running path, native gardens, and art displays.

Magnolia Village Plan

# Neighborhood Matching Funds

The Madrona neighborhood is home to people of many ethnic and economic backgrounds. The Community Council is planning a summer event that will include ethnic food, games for all ages, a membership table and a basketball tournament. Participants will be asked to help design a banner that will be used to advertise future community council meetings and events. The idea is to produce an event that will be fun to attend and at the same time encourage membership and participation in the Madrona Community Council.

0

The Magnolia Chamber of Commerce is embarking on a project to put in place a plan for Magnolia Village. This plan will address such issues as parking, streetscape designs, design guidelines, art and economic development in the business district. This award will be used to defray the cost of recruiting people to serve on both a steering committee and an advisory committee for the project. Approximately 22 people are needed.

750

Continue replacing wooden planters at Magnolia Village with durable concrete ones, replace metal city trash barrels with ones to match benches, and install five additional benches.

10000

Devise a plan for Magnolia Village by working with an urban planner/design consultant and the community to develop a vision for the business district's future

to develop a vision for the business district's future and address streetscape, parking analysis, and public art in the community.

The Magnolia Historical Society is sponsoring "Last Taps," a membership recruitment event at Discovery Park. The event will feature a slide show of the building of Fort Lawton using the Ambrose Kiehl collection containing images that are one hundred years old. The event is to attract new members interested in participating in projects that will help to preserve Discovery Park as an important historical asset to the Magnolia community.

750

The award will be used to create signage that will educate and inform the neighborhood about the community garden project currently underway. The signs will include design drawings, descriptions of projects planned for the garden and information about how others may participate and become involved. This award cannot be used for A-board type signs.

community volunteers will be removing impervious concrete parking strip sections along Admiral Way SW and planting native, drought-resistant trees, shrubs and other plantings in areas defined by the Admiral Neighborhood Streetscape Plan. This will further define the pedestrian walkways and beautify the neighborhood as defined in the Admiral Residential Urban Village Design Guidelines.

The Adopt-A-Park Project at Leschi Natural Area proposes to enhance the site at 36th Avenue and East Terrace by creating more flat space viewpoint, adding crushed rock and six seating boulders, low plantings, the removal of invasive growths, hillside preparation, and extensive plantings. The NMF will pay for supplies and materials and installation services.

9950

African Community Network (ACN) is a grassroots community membership-based nonprofit organization with a goal for unity among the various African immigrant/refugee communities. The United African Day is a one-day big event of ACN to help build strong community relationships and to encourage mutual cooperation, to achieve better social and economic equity. This fourth year of the event is for unity and community outreach, celebrating the rich and diverse African cultures and helping disseminate relevant information by various service providers.

exhibit to be showcased in two public presentations in the Delridge community.

Project organizers will interview and photograph two elders who live in Denny Terrace and place their stories and photographs on a permanent bulletin board in the building and in notebooks. Five notebooks will be created which includes the history of Denny Terrace and the stories of elders who live there. Residents will use a variety of art materials at several workshops to depict their answer to the statement, "An elder I know said \_\_\_\_". These creations will also be displayed on the community bulletin board. On October 31 an event will be held at Denny Terrace to present the stories and photographs of the two elders, unveil the community bulletin board, present a discussion entitled "Safety and Security for Seniors at Denny Terrace," and provide lunch.

125

This project will bring together Vietnamese seniors in the High Point Community. The emphasis will be on having fun and building relationships both with each other and the larger community. The event will be held at the High Point Community center and will include, games, story telling and great food.

250

elicit community ideas and participation; and (3) hiring a landscape architect to participate in the meetings and create a preliminary park design(s).

During the last three years, Friends of Frink Park has partnered with an array of community groups to revegetate the southwestern part of the park. This project will complete this effort, re-establishing a sustainable native habitat. Construction of an entry trail will improve neighborhood access to the park.

1980

This project would continue neighborhood involvement in revitalizing the historic Grand Army of the Republic Cemetery Park. The purpose would include: develop a Master Plan to formulate priorities; prepare a budget and timeline; hire an arborist to analyze existing trees; and work with the Parks Department to install an informational kiosk.

10000

Phase I is the renovation of Parks Department green space. Volunteers will work cooperatively with the Parks Department, conduct outreach to recruit additional participants, and develop plans to build new partnerships and secure additional funding for future phases. Volunteer work parties will remove invasives and create stewardship trails for access to carry out maintenance activities. Friends of Hitts Hill will contract with EarthCorps to provide technical and supervisory support, assist with Core Review, and develop an invasive plant management plan.

traditional French variety show put on for families in the Capitol/First Hill Community, and is open to the entire Seattle community. Cabaret 2003 continues Le Centre Francais tradition, featuring multi-cultural showcases and introducing emerging local artists (i.e. vocalists, musicians, dancers, actors).

The project is a major renovation, including sculptures, informational commemoration of Flo Ware, play structures, seating, and landscaping of a small central neighborhood park. Neighborhood meetings have revealed an urgent need for an outdoor gathering area and first-class play field in which users can feel both welcome and safe.

107800

The Dream Catcher is a new sculpture that will be dedicated to the memory of Bernie Whitebear and Luana Reyes, local Native American leaders, and will celebrate Native American contributions to our community. The Dream Catcher Committee has been working with neighborhood residents and the Seattle Department of Transportation (the property owner) on this project.

construction drawings, removing asphalt, grading, installing an irrigation system, creating paths and walls, building garden beds, and amending the soil.

The purpose of this project is to create a master plan to design the surface, drainage and landscaping of a six-acre field within the off-leash area. Last spring, this field was incorporated into the nine-acre Magnuson off-leash area. However, unlike most other sections of the off-leash area, there has not been a master design plan for this area. Part of this project is the actual implementation of this master plan in a small section of the field area, which will be funded through the Pro Parks Levy. The Magnuson off-leash area is the most heavily used component of the Sand Point/Magnuson Park.

set forth in section 103) ("Center") in accordance with the landscaping plan attached to this Agreement as Exhibit B.

Through the Community Garden project, the Friends of Maple Leaf Community Garden seek to engage a diverse group of representatives from the single-family areas, the multi-family areas, the senior housing areas and the business communities in a project where they can develop or enhance a common interest. The award will be used to print copies of the community newsletter, special events supplies and for outreach to the business and residential communities.

Hire a landscape architect to work with the community to produce a schematic plan and cost estimate. The Powell Barnett Park has high potential with its key location amidst homes, apartments, churches, business and two schools within walking distance. The goal is to attract larger and more diverse groups of users to this underused park through enhancement of safety, maintenance and design.

The Neighborhood Organization will renovate the south end of Soudview Terrace Park and install new playground equipment.

Renovation of Soundview Terrace including drainage, plantings, site furnishings, and a compass circle at the

Point festival on July 13th. This project will increase the attendance of East Africans at this festival and will encourage Hlgh Point residents to learn more about the cultural heritage and performing arts of East Africa.

This project begins Phase One of the beautification of a hastily erected street end that has become a neighborhood eyesore. The community will accomplish this by organizing clean up crews, brainstorming events, landscaping, and by utilizing the services of an SDOT Traffic Engineer to develop a design for a permananet planted street end to be constructed in Phase Two.

2994

This project will build a multi-use neighborhood pocket park on nearly one-quarter acre, including natural play elements, sitting areas, open lawn space, walking path, and raised community "stage." The park is designed to accommodate the diverse ages and cultural interests of our residents in the Whittier/Lower Phinney/Greenwood neighborhood.

90000

The project will involve more youth in local organizing efforts, strengthen and affirm the cultural identities of Native youth, and build a stronger, more cohesive Native community by connecting youth with elders. The award will pay for youth interns stipends and supplies.

The Neighborhood Organization will hire a consultant to assist with conducting a survey. This survey will identify historically and architecturally significant buildings and sites in the Cascade Neighborhood that predate 1963. Volunteers and consultant will research, photograph, and survey a minimum of 100 properties with inventory forms prepared for 45 properties which will form part of a comprehensive city-wide survey of historic properties.

13675

The goal of this project is to install up to 16 speed humps along 37th Avenue NE and 39th Avenue NE between NE 125th and NE 145th Streets.

15000

To generate greater awareness of the Cherry Street Association's role in the community they plan to launch a membership campaign that would add 20 new members and 3 block watch captains. The campaign includes outreach to commercial property owners, retail business owners from Martin Luther King Way along Cherry Street to 23rd Avenue, school officials, Garfield Community Council representatives and relevant nonprofit organizations. The strategy includes co-sponsorship of the Central Area International Market & Bazaar, design and production, of a new banner, a new Cherry Street Association brochure, and production of the First Annual "A Bite of Cherry and Bar-B-Q Cook-Off."

Citizens for 56th Street will plant a streetscape improvement project along N/NE 56th St. Plants will be purchased and installed in traffic circles. The project elements include purchasing plants, safety, and maintenance materials. 1682

Nuevos Destinos is a grassroots-organizing project developed by Latino families in South Delridge. The main objective of this organizing project is to bring Latino families together to identify and act on common issues, build and sustain a Latino organization in Delridge, and to create a sense of community and social connections among Latino families and the larger community in south Delridge. Specific goals include: 1) explore ways to improve the organizational structure and leadership; 2) identify and include Latino families to the organizing effort; 3) participate in events and projects identified by the group; 4) measure and document the value of this organizing project to its members and to the community. 34400

This project seeks to continue the Spanish speaking community project to organize Latino families, hold monthly club meetings, and give feedback to 10000

monthly club meetings, and give feedback to neighborhood coalitions such as the Highland Park Action Committee and the Community Alliance for Youth. The project will result in the development of two neighborhood projects and the establishment of a Latino Organizing Committee.

The project involves 20 Latino youth between 12-18 years old who are participants in a drug and alcohol counseling program at Consejo Counseling and Referral Services. They will work with EarthCorps outreach apprentices for 3 weeks on forest stewardship in Seward Park and Cheasty Boulevard including removal of invasive plants, planting native plants, and building a section of trail.

10950

Students, parents, and teachers at Dunlap Elementary School, along with the surrounding community, will create a tile mural to beautify the school. In addition, the mural creation process will be incorporated into a how-to guide for other community groups wishing to enhance their community with public art projects.

2630

Duwamish Tribal Services will conduct a competitive bid process to hire a contractor to build the Duwamish Longhouse and Cultural Center. Volunteers will complete the capital fundraising campaign and continue to have oversight of all aspects of construction. Members of the Duwamish Tribal

construction. Members of the Duwamish Tribal Services and the West Seattle community will participate in volunteer work parties to install and finish the cedar floor, paint interior walls, construct and install an outdoor rainwater creek feature, plant landscaping, and plan and implement a grand opening event. Duwamish Tribal Services has other funding to simultaneously develop a business plan and build a sustainable annual operating budget.

Entre Hermanos and Las Sinverguenzas will produce a Lesbian, Gay, Bisexual, Transgender (LGBT) Cultural Week for Latinas in October of 2003. The week uses art, culture, media, and workshops to bring people together in a safe, supportive environment.

15000

Organizers will host a night of singing and dancing, sharing all their gifts, talents and interests. Tables will be provided for people to display their arts and crafts. People will also share their talents by bringing various dishes and recipes. By renting a Karaoke machine, they plan to teach simple dances to each other.

250

The goal of this project is for the Filipino Community to establish a 7-station computer and technology lab. The lab will be used for training residents, business owners/employees and community organization and association staff members in MS Office software including Project Management. The lab will be interconnected and designed for use as a project

interconnected and designed for use as a project planning center. The Lab will be available for public use a number of hours each day.

The Friends and Neighbors of Sandel Park have completed the Sandel Park Safety and Activity Upgrade Plan. With this award the community will hire a consultant to develop construction documents and facilitate detailed playground design while we continue to get and keep neighbors involved and raise funds for construction.

15000

The project at this site has two parts - the creation of a P-Patch garden and a sitting park alongside the P-Patch garden. It's envisioned that completion of these will require two phases of work. In this first phase, work elements will include:

15000

- site survey to establish the bounds of the right-of-way and property to be used for the project;

- site preparation;

- installation of water and irrigation;

- putting in the raised beds and establishing paths;

- installation of the good neighbor fence;

- installation of tool shed and compost bins;

- installation of bollards to help visually separate the sitting area from the street;

- if funds remain to begin Phase Two work, peripheral fence is first priority.

# Neighborhood Matching Funds

The project is a renovation of the Meadowbrook Play Area, to provide a new playground for children of all ages. The plan includes playground design and installation of new play equipment, circulation paths, seating areas, and landscaping.

86000

The Neighborhood Organization will install a 4-ft high steel picket fence with iron finials along Vine St. and alley borders of the Belltown P-Patch. Climbing rose bushes and clematis vines will be purchased and planted to regreen and soften the fence. Flowers, shrubs, and artichokes will be salvaged and transplanted before/after fence installation.

7574

The Benefit Park Improvement Project will include the renovation or existing elements at the park and the addition of new park elements as follows: 1) Improve and renovate the existing baseball amphitheater including resurfacing, sloping and re-installation of the basketball equipment; 2) Development of a park loop walks and improvements on the edge of the park to serve multiple functions and improve surveillance of the southwest corner of the park including landscaping, lighting benches, table and a plaza and kiosk; 3) Re-development and improvement of the existing Children's Play areas and 4) Improvements to lighting and landscaping at the Shelter and Picnic Area. All improvements will be completed in general accordance with the schematic plans previously

The Friends of the Ravine in Madrona Habitat Restoration Phase II Project will advance the successful work of Phase I (2002) with a focus on the restoration of the 2-acre wooded open space in the Madrona neighborhood. While Phase I concentrated on planning and preliminary invasive plant control, Phase II will limit the intrusion of invasives in cleared areas, expand this work throughout the ravine and replant the area with native plants with a strong emphasis on open space views and wildlife habitat restoration. This work will be based upon the Vegetative Management Plan completed in Phase I.

groups to develop an information kit including hate free home pledge and information on community immigrant and refugee neighbors. Volunteers will distribute the information packet door-to-door in their neighborhoods. Study circles will be developed and held in qualifying neighborhoods. An award event will be held.

Heron Habitat Helpers will organize the Kiwanis Ravine neighborhood in order to preserve Kawanis Ravine, a 10 acre greenspace in Magnolia. They plan is to double their membership with an education effort capitalizing on neighborhood interest in the history of their organization and the desire to preserve the ravine, an urban wildlife habitat that is home to the largest nesting colony of Great Blue Heron in the city. Recruitment activities include telephone and door to door solicitation, distribution of posters, and flyers and the annual membership meeting.

750

This project will:

Selectively remove "worst" patches of invasive plants, including laurel, holly, ivy, knotweed, blackberry, etc., in Kiwanis Ravine and where necessary replace with native plant species.

Selectively provide slope stabilization and creek restoration in "worst" areas of unstable soils and sedimentation near Kiwanis' Wolfe Creek, and where invasive removal is done, if necessary.

perennials; improve pathways and stairs throughout the garden; prune overgrown fruit trees; and install informational signage.

This project is a one-day educational event, based on the African Brazilian art form of Capoeira Angola (CA) that provides opportunity for the entire community.

6260

The main purpose is to introduce the participants, from early ages to adults, to the movements, music, and instrumentation of CA.

The goal of this project is to produce an audio walking tour and web site of Wallingford utilizing Jack Straw Productions and Hamilton International Middle School eighth-graders.

15000

The Jefferson Park Alliance, a volunteer stewardship group for Jefferson Park on Beacon Hill, plans to print approximately 150 copies of the publication "Jefferson Park Reconstructed: A 100-Year History". This is necessary in order to implement an outreach strategy that is designed to solicit 30 new members. Alliance currently maintains an e-mail list but its membership has dwindled to about 6-8 active members. There are a number of scheduled activities such as the monthly maintenance party for the park and the semi-annual clean up that would benefit from additional participants. In addition there are several other priority issues that were identified in the North Beacon Hill Neighborhood Plan where broader

# Neighborhood Matching Funds

Beacon Hill Neighborhood Plan where broader community participation is essential. By reprinting Jefferson Park Reconstructed: A 100-Year History, the neighborhood organization hopes to educate the residents about the significance of the Park and thereby bring more people to the site. Once they have an opportunity to truly appreciate the Park they are more inclined to become involved in the Jefferson Park Alliance, and participate in regular maintenance parties, plantings and other events. The booklet will be distributed at the Olmstead Tour of Jefferson Park, at the Beeacon Hill Festival in June, and at the Columbia City Farmers Market outreach table, from May to mid October. It will be selectively distributed to those who show a true interest in joining the Alliance. The outreach strategy also includes updating the e-mail list, face to face and telephone solicitation and increased participation of the business community.

This project entails community volunteers writing and publishing a history of Beacon Hill, emphasizing historical photos of families, businesses, architecture, celebrations, and events. Thirty free copies will be provided to local schools and archives.

8560

Twenty elder parents of individuals with disabilities will assemble in small groups to share and write memories about family life. Volunteers will be

competent and culturally relevant school environment for all children with a Native American focus; to better meet the educational needs of Native American students and children of color; and to increase the connections between and involvement of families of color at the school and in the community. These goals will be accomplished by providing tutoring and mentoring in the classroom, hosting cultural events including cultural nights, powwows, a potlatch and utilizing an artist and historian-in-residence, and organizing a Pathfinder Race Relations/Native Focus Advisory Group.

The goal of this project is to remove existing play structures in a children's playground and remodel this area to be a safe, challenging, and developmentally appropriate area for children. This playground is used extensively by Phiney Ridge Kids!, a school-age enrichment program, the Phinney Neighborhood Preschool Cooperative and other community organizations and neighbors.

15000

The project will install two bocce courts and two chess tables in Occidental Park and two chess tables in Pioneer Square Park in an effort to create positive activity and build community.

10000

Two parallel strands, one parent mobilization and the other community advocacy, will be continuously woven together to yield two efforts: one to build

woven together to yield two efforts: one to build volunteer parent/grandparent/guardian skills and involvement in their local school and its issues and the second to influence, and hopefully, improve, selected policies at the District and perhaps state level. The 2002-2003 school year will initiate this effort, building a foundation for a sustainable multi-year project.

The project will undertake a detailed needs assessment and planning effort to: 1) identify appropriate organizational structures and form a nonprofit board and organization; 2) identify various opportunities for improved community/school partnerships to foster better communications, community student support, and coordinated community-wide fundraising efforts; and 3) organize community kick-off events and begin board operations.

15000

The goal of this project is to develop a site and structural plan for transforming the south end of Colman Playground into an interactive playgarden to meet the special needs of children with physical and mental impairments. Play and learning would take place in a natural garden setting, supported by activities in a remodeled field house.

14999

Americans who saw our homeland attacked, they also felt the great pain of being subjected to a misguided backlash of violence, hate and discrimination. The project involves the screening of a documentary where a white American journalist discovers the Sikh Americans, their beliefs and traditions. The screening will be followed by an open discussion on how we can develop better understanding of different communities and cultures in Seattle.

This project will expand, beautify, and improve the security, accessibility and management of the Thistle P-Patch community garden by plowing an expanded area, replacing and expanding the garden's water system, and creating a permanent infrastructure of paths.

13611

This project will provide improvements to Thyme Park P-Patch including a toolshed, a three-part compost bin, and ADA accessible beds for two gardeners. It will also provide a signpost and plant labels to inform park visitors about the plants in the Master Gardeners demonstration garden, and will complete art tiles and the anti-graffiti coating on the north retaining wall.

2680

This project will create a new performance/forum space at Town Hall, a community cultural center on First Hill, along with making upgrades to the building exterior. By offering another venue option, and improving the visibility of the center, Town Hall will

of a 3' X 5' illuminated reader board sign at Whitman Middle School. Construction will include, the sign, a 2-foot high brick pedestal on a concrete pad as base, and all required electrical conduit and wiring.

135000

Preserving Legacies Phase 1 entails acquisition and programming conceptualization of the East Kong Yick Building, a new venue for the Wing Luke Asian Museum. Rehabilitation of the facility will create a cultural center; preserve Asian Pacific American legacies; spur economic revitalization; and augment Museum outreach through community-based program development.

13000

Through a series of potlucks, participants will identify current issues affecting communities of color throughout the City. These topics will be the basis for a community-wide Call for Artists for a juried exhibition. Applicants will be selected based on artistic merit, thematic clarity, ethnic diversity, and neighborhood representation. The exhibition will be displayed at the Wing Luke Asian Museum and will then travel to other sites in the city. During the exhibit the steering committee will plan ongoing public panels to complement the exhibition and encourage coalition building across the city.

will provide each site copies of the video, the facilitators' guide, facilitator training, resource materials, and access to health care providers. The project will focus in the Central District, Rainier Valley, and West Seattle. The award will pay for an HIV Trainer, nine community facilitators, and printing/copying.

The Call To Action Healing Project will convene disenfranchised young black men to help create and implement a creative curriculum to begin a personal and collective process to challenge negative thinking and the behaviors that often follow. The Akoben Brotherhood will organize small groups of young men with the assistance of three youth interns. The participants will come from a variety of experiences including incarceration, detention, school, or Seattle streets. The project will provide exposure to positive cultural identity and heritage, gender identity and new ways to interact with their families. The intended outcomes include having each participant exhibiting more self-determination and positive self-image and view of the world around them. The curriculum process will be documented, printed and made available for public use with appropriate consultation. The project will conclude with an affirmation activity that will recognize the beginning of a life-changing transformation. The award will pay for intern

stipends, supplies and materials, book design services, and printing.

This project is an endeavor by the Equity Committee at Alternative School #1 to address issues of institutional racism. It includes outreach to the school community and surrounding neighborhood to raise consciousness, and the establishment of an anti-racism library at the school. There will be an opportunity for 20 parents and community members to receive Undoing Institutional Racism training.

8000

Three educational events are planned and a community action plan will be developed to identify, analyze and address any issues of racism at the school. A comprehensive outreach campaign has been designed that includes fliers, newsletter articles, face-to-face communication and the use of the school's website.

A community night on earthquake preparedness will be organized by the Early Learning and Development Center on August 18, 2004. Various interactive learning tables will be set up with activities for both children and adults to demonstrate how to be prepared for earthquakes. This will include emergency locations, planning ahead, reminders of often forgotten supplies, first aid tips, shelters, etc. Participants will receive stamps after they visit each table and a milk shake at the end of the event.

table and a milk shake at the end of the event.

To honor traditional Filipino holiday arts and crafts, seniors from the Asia Pacific Senior Alliance will construct Parols (paper lanterns), and teach the crafting techniques to others including families and children. They will exhibit their Parol stars at the Seattle Center. Parols will be donated to families in need during the holiday season.

250

The goal of this project is to make the playground and field much more useful, safe, and attractive for the students and the surrounding community by updating existing features and adding others. The creation of a site plan is necessary for the successful future renovation of the playground.

10650

The goal of this project is a comprehensive needs assessment executed by the Ballard Family Center in conjunction with a broad range of community organizations and human service providers to gather data and indicate where gaps in service are in the Ballard community.

15000

The goal of this project is to complete the construction of a multi-age playground at Beer Sheva Park. Drainage, structures, pathways and most playground equipment will be completely installed by November 2004. The Committee seeks funds to purchase and install the remaining play equipment in footings

# Neighborhood Matching Funds

A group of residents of Lock Vista Apartments wishes to invite other tenants, homeowners and the local business community to an outdoor musical event/resource fair that acquaints everyone with their neighbors and the organizations in the area.	250
Organizers will develop a photography project for low-income members of their community. This project will introduce participants to a new form of creative expression, allowing them to explore various themes. They plan to display their work and assemble a community scrapbook documenting the views/artwork and lives of those who are low-income urban tenants.	250
The goal of this project is to conduct outreach to Cambodian Americans, other ethnic groups, youth and business owners to strengthen and diversify our community partnerships, engage more White Center, Delridge, and Highland Park residents, and build our support base as we prepare to launch new programs in 2005.	15000
This second annual Celebrate Cambodia event is part of Seattle Center's Festival Series. Activities will support the theme of Cambodian silk. Performance artist consultants will train youth in traditional Cambodian music and dance. Youth will receive training in runway performance to display traditional and modern silk garments. The trained youth will give 4 dance performances, 2 musical performances, and	9000

downtown retail core in partnership with the Seattle Parks Department in contracting the Project for Public Spaces.

The African American Community Advisory Council of the Seattle Police Department proposes to organize a joint community and public safety program with an emphasis on improving relationships with many segments of that population group within the city limits. It will feature an expanded Ride-Along Project that began in 1993. Members of the clergy will be encouraged to become involved. They will also set-up a street law project in the Central Area and coordinate monthly forums for youth in the Community Centers. They will also use this project to increase Community Advisory visibility and participation. The award will pay for forum coordinators, workshop facilitators, stipends, forum and workshop supplies and materials.

4440

The goal of this project is to create a 30 to 50+ plot P-Patch and landscaped sitting park for this culturally diverse, low-to-moderate-income community. Work includes perimeter fence, gates, bulk storage area, paths, gathering and children's play areas, arbors, benches, landscape and community plantings and garden signage.

15000

The goal of this project is to improve Bayview-Kinnear Park and playground. Community meetings will be

Park and playground. Community meetings will be held to develop a neighborhood vision for the park/playground and a landscape architect will be hired to create a master site plan.

The goal of this project is to implement the final phase of this neighborhood park and playground that serves a culturally diverse, low-to-moderate income community in the South Beacon Hill neighborhood. The final phase involves the purchase and installation of age-appropriate play equipment by a dedicated neighborhood volunteer group.

15000

The Friends of Black Law Enforcement Association of Washington (BLEAW) will host the first conference in Seattle organized by the black law enforcement community and supporters of police partnerships within the community. The conference intends to build and enhance a more positive relationship between black law enforcement personnel and the residents of Seattle. It will employ an educational focus to inform civilians about law enforcement issues, tactics, culture and the role of police. The event will also include an open forum with key law enforcement and community leaders on how to create a better relationship with police, communities of color and youth. The award will pay for an event coordinator, keynote speaker, facilitators, conference supplies and materials and a conference

conference supplies and materials and a conference site.

The goal of this project is to construct a new park on the site of the old City Light Substation at the intersection of Dakota and California in West Seattle. This award will fund the Design and Construction Document phase of the project.

15000

The goal of this project is to transform the large expanse of weed-filled asphalt known as Blaine Playground into a community asset. This playground lies in the middle of the Magnolia recreation core and is utilized by Magnolia residents and visitors. We will create accessibility for those who are differently-abled.

15000

The goal of this project is to plant native plants in areas of Colman Park where they have removed non-native invasive plants. The native plants would increase habitat and discourage the return of invasives.

3415

The goal of this project is to hire a landscape architect to develop a cooperative, community driven site plan to meet varied recreation interests for Dahl Playfield that honors the needs of a diverse community of users and works within the Seattle Parks and Recreation's long-term maintenance capabilities. The site design will be limited to the the area around the

play equipment and comfort station.

The goal of this project is to place two speed humps along Fairmount Ave SW approximately 75 ft north of SW Belvedere and 200 ft south of Belvedere. 2008

The goal of this project is to hire a landscape architect to advance the existing Schematic Design for Fremont Peak Park through Completed Design Development. This will include collaboration with an artist hired with Matching Funds, who will suggest artistic themes and elements consistent with the existing Schematic Design. 15000

The goal of this project is to create and implement a plan to identify, collect, preserve, exhibit and publish unique aspects of the history of Georgetown. It would also establish a system that would allow for the orderly and appropriate continued preservation of the photographs, documents, stories, and artifacts unique to Georgetown 14977

The goal of this project is to build a new park at 3100 S Bradford St. on land donated to the City through the Seattle Parks Foundation by Monte and Diane Powell. Improve- ments include a vegetation plan, removal of hazardous trees and pruning, removal of invasives, site and soil preparation, erosion control, installation of irrigation system and lawn and fence construction. This project will enhance the neighborhood by 50000

providing an underserved section of the city a park where families and neighbors can come together to build stronger community bonds and relationships.

The goal of this project is to transform an 11,625-sq ft former City Light Substation into a people's green space, public garden and wildlife refuge by organizing and engaging neighborhood participation.

15000

The Greenwood Senior Center seeks to expand their membership> Their numbers have decreased severely over the past several years because of death and relocation of many seniors to assisted living facilities and nursing homes. Others have simply moved out of the area. They have an outreach strategy that includes a special membership event and hope to draw on the emerging multi-ethnic community adjacent to the Center, who may not know the benefits that it offers. There are a number of community projects they are interested in accomplishing; additional members will ensure success.

750

The goal of this project is to build a park incorporating interactive elements that not only provide opportunities for neighbors to connect, but also reflect upon the unique aspects of Dr. Harris's life, values and accomplishments.

50000

The goal of this project is to implement a school and

community- based educational project for Rainier Beach youth. Students who have academic and behavioral challenges will be our focus. The project emphasizes training in life skills, academic success, mentorship, and family and community involvement.

The Friends of Ravenna Playground Committee is seeking new members in order to increase community awareness of their project to redevelop the children's play area in the southeast Ravenna Park. The ultimate goal of the committee is to design and create a safe, fun, community-gathering place for the neighborhood. Their outreach strategy includes the following: design, production and mailing of brochures; creation and expansion of an e-mail list; staffing a booth at the University Street Fair and the University District Farmer's Market; telephone and door-to-door solicitation. New members are needed as they proceed with the master plan/design process for the park.

750

The goal of this project is to redesign the playground and create a safe, fun community gathering place that will be an asset to both the historic park and the surrounding neighborhoods. This project will result in a master plan design and schematic drawings for the play area only..

10962

The goal of this project is to begin implementation of Phase One of the Forest Management Plan for

Phase One of the Forest Management Plan for Ravenna Woods. This project was previously approved by Seattle Department of Parks and Recreation. Phase One includes: site preparation, weed control, planting and maintenance of 500 native plants.

The goal of this project is to refurbish this historic Civil War Cemetery and its entrance. Specifically, this grant will install community approved design elements for the entrance of the cemetery and add previously designed irrigation.

15000

City dollars will be used for a kitchen renovation project at the Greenwood Senior Center to make the space safer, more functional, and accessible for seniors who participate at the Center and to a variety of groups within the community. The project includes a reconfigured kitchen, new appliances, new sinks, cabinets, and counters.

52500

The goal of this project is to continue the work of a previous grant which transformed a vacant lot into a pleasant green space. In Phase 2, volunteers will build a shed, work area, composting bins, gateway, sign, and an improved path surface to facilitate cooperative maintenance of the fruit trees and grounds. Volunteers will also learn how to prune and care for the fruit trees and install minor landscaping.

and 3) work with Heron Habitat Helpers, People for Puget Sound, representatives of BINMIC, public and private property owners, residential and other neighborhood stakeholders, to provide formal oversight and review, identify issues, opportunities and stakeholders in the entire area, guide any possible expansion of the conceptual plan for greater Salmon Bay and to involve the community in restoration and planning for Salmon Bay.

The goal of this project is for neighbors, parents, volunteer professionals, teachers and staff, and other community members to work together in further improving the front and western sides of the school. The landscaping will include replacing all gravel paths with nice paver stones and extending planting beds around the western wall of the building.

11785

Helping Link will hire a project coordinator to work with volunteer teachers, volunteer technology specialists, and computer students to pilot bilingual computer classes and develop a model bilingual Vietnamese-English computer education curriculum for an existing 10-station computer lab. The outcome will be a bilingual computer skills handbook. Two hundred (200) copies will be printed for use by future students.

regenerate Wolfe Creek shoreline, and stabilize steep slopes in Kiwanis Ravine's great blue heron rookery. Dumped material and invasive plants will be removed. The guiding "Kiwanis Ravine Management and Monitoring Plan" retains existing native trees and provides a template for forest restoration.

The Highland Park Improvement Club, which has served the community since 1919, hopes to enroll 60 new members in the West Seattle area. The goal is to attract younger members and to connect with the new families in the community who are interested in carrying on the strong legacy of community service. The Riverview and Highland Park neighborhoods could use the Club for intergenerational activities, as a central meeting place for neighborhood events and as a resource to learn more about the history of the neighborhood. The outreach campaign will include improved signage, new promotional materials, face-to-face and telephone solicitation and an appeal to local businesses.

500

educational event designed to bring everyone together with the aim of supporting cultural heritage to promote healthy community. It is based on some ancient African Brazilian art forms, such as Capoeira Angola, African Dance, Samba and Percussion. The award will pay for artist fees, facility rental, festival supplies, and special services.

The goal of this project is to provide leadership, storytelling and public speaking training to immigrant and refugee students enrolled in Cleveland High School's Global Academy. The project will also include a group summit and an evening community event. All English Language learner students (ELL) in the global Studies Program will be invited to participate in the Refugee Voices project.

12309

Funds will be used to hire an organizer to work on the International Women's Day event at the Seattle Center in March and to organize a women's conference in Seattle in the fall of 2005. This conference will reflect on the United National International Women's Conference held in Beijing, China in 1995. The goal is to expand outreach and to engage women of color, immigrant women, lesbian women, poor women and youth in planning and organizing the conference and in developing a Seattle Platform of Action that will describe the condition of women in Seattle and a plan to overcome these

women in Seattle and a plan to overcome these conditions.

The Iraqi Community Center will update their brochures that describe their services, and develop a logo, letterhead, and business cards for staff and board members. They will also obtain consultation on how best to create customer, volunteer, and donor databases.

750

A Juneteenth Celebration will be organized by residents of Jefferson Terrace and held on June 18th in the Elder Heath Community Room. This event will include entertainment, food, and discussion about the meaning of Juneteenth. The community surrounding Jefferson Terrace will be invited to this event. Entertainment will include the dance group, the Electric Sliders and a small jazz combo.

250

On July 10, 2004, concurrent with the opening of the new Beacon Hill Library, the project organizers would like to invite the entire neighborhood to celebrate and showcase the Beacon Hill community with a BBQ, music and resource tables.

250

A Family Literacy Night will be held at Thurgood Marshall Elementary School this spring to promote literacy in the neighborhood and involve more people in the school's tutoring program. This event will include performances by local artists in a dinner

theater format to engage people in the importance of literacy.

This project involves production of the "Back to Its Roots" hip hop festival at Langston Hughes Performing Arts Center in October 2005. It includes two evening performances and two days of hip hop, rap and social justice workshops.

The 3 ethnic tribes of Lao Highland Association will convene a steering committee to organize, publicize, and implement 10 workshops on topics that are community priorities such as citizens' legal rights, sponsoring new immigrants, access to public services, and public safety.

The goal of this project is to bring together Seattle area parents, students, educators, service agencies and community leaders for a two-day conference at Chief Sealth High School in March 2005 in order to discuss the issues affecting the education of Seattle's more than 5,000 Latino students.

The goal of this project is to design and implement an outreach and communications strategy to inform the members of the Latino community about their rights and responsibilities in their interactions with SPD.

The goal of this project is to make pedestrian safety improvements for ingress/egress at the corner of Sand Point Way NE, 50th Ave NE and Ivanhoe Pl NE.

This is listed as a priority in the Laurelhurst North Neighborhood Transportation Management Plan, adopted on June 28, 2002.

The goal of this project is to establish and expand a youth soccer club that will serve kids ages 6-14 from all ethnic backgrounds in the Rainier Beach area, with special effort to reach out to Latino youth who have not been served by current athletic programs in Southeast Seattle.

15000

Residents of New Holly will create batik banners together with a visiting artist. Banners will say "Welcome" in up to 18 languages.

250

This project will provide four 11-week quarters of English Language classes. Experienced instructors supported by 2 or 3 volunteer tutors from the community will lead the classes. The focus will be on effective communication and problem solving, emphasizing skills and situations in daily living. This project will empower citizens to take a more active role in community life.

11500

The goal of this effort is to create a pilot project aimed at youth and their parents which will address issues of conflict resolution, anger management, respect and racial harmony at four Low-Income Housing Institute housing developments. The project will include anti-bullying workshops, self-expression poetry workshops

for youth, and staff training on understanding the impact of homelessness on children and youth.

The goal of this project is to replace old, outdated and worn playground equipment with newer and more disability friendly play structures and to create an inviting gathering place for families and children of the community.

50000

Funds will be used to hire organizers to increase participation and input from Spanish speaking community members from South Park on issues related to Marra Farms. The goal is to create an active, neighborhood-led advisory board for Marra Farms.

11091

A block party will be held in memory of Bert Benton, a 55-year resident, who held a neighborhood BBQ for the last 12 years. This block party will include a potluck, activities for the children and the whole family, entertainment including a band and gospel group. This block event will include new people who have moved into the neighborhood, community elders, and families.

250

The goal of this project is for neighborhood participants and students to work with artist Chris Conklin-Ray to create tiles telling stories by chapter from a chosen book. The tiles will be installed in a 4' x 20' mosaic on the front of the school.

community activities, such as, senior gatherings, community council meetings and ethnic celebrations.

The goal of this project is to complete the rockery, add erosion control mat, and slope protection plantings started in 2001 with a focus on community-building design and implementation.

8160

This project will install three traffic circles at the intersection of N 36th with the following streets: Linden, Aurora Avenue, and Woodland Park to mitigate the impact of two traffic signals to be installed at the end of this residential street.

40000

The goal of this project is to produce a free outdoor all-ages music and arts festival in Volunteer Park to take place July 31, 2004.

5170

This project will bring together different elements of the North Beach community including the school, neighbors, and businesses to begin Phase I of a multi-year North Beach Elementary playground and open space improvement project. This effort will remove outdated and unstable play elements and replace them with an ADA accessible play structure, and visually improve the playground with landscaping, drainage, and a significant student-created art feature.

70000

The North District Neighborhoods Stewardship Committee (NDNSC) is staging the Lake

City/Northeast Seattle Outreach and diversity event on Saturday, September 18 at Olympic Hills Elementary School. The goal of this event is to engage residents and business owners to become more active in their community and to raise awareness of who is actually in the community. Lake City and Northeast Seattle are becoming increasingly more diverse, many new languages and cultures are now represented.

The Northgate Chamber of Commerce will conduct a membership drive that includes updating their website, contacting prospective members by telephone and face to face solicitation. The website will be a value to business owners and the community by serving as a facilitator and communication tool. They will contact over 800 businesses within the area and have the membership drive completed by October 2004. The long term goal is for the Northgate Chamber of Commerce to be seen as the "heart and soul" of the Northgate community, through a collaborative and focused effort to support the community and enhance the general economic welfare of the Northgate area.

750

The goal of this project is to increase literacy and civic engagement for students and families of Northgate Elementary School. This will be accomplished by providing them with specific tools and resources to

providing them with specific tools and resources to enhance their quality of life. The Lifetime of Literacy project has four components; an after school arts project, an English Language Learner Mentoring project; tutorial software for Reading Math and English; and a community book drive.

The goal of this project is to hold a forum to serve as a networking and educational meeting to raise awareness about issues that affect immigrant and refugee communities.

11000

The World Art Magnet project will encourage artists from NOVA High School, and the community to express their vision and core values of neighborhood life through painting, sculpturing, jewelry making, photography, clay, and language arts. The project will bring together multi-cultural and multi-racial youth and adults to express contemporary culture through the arts. Some of the community partners include the Central Area Arts Commission, Islamic School of Seattle, Emberglow, aRoofComb Studios, African Youth United and the Garfield Teen Life Center. A series of art workshops, studios and lectures with visiting artists are planned that will connect people, places and visual cultural practices. Participants will paint two murals, create sculputres for the Nova garden and grounds, and create artistic pieces for a holiday gallery showing and a community art event.

holiday gallery showing and a community art event.

The Rainbow Bookfest will be a book fair which features and promotes books written by local authors of color and also showcases publishers specializing in books with multi-ethnic and multi-cultural topics.

10250

The goal of this project is to install a monument-style reader board at the corner of NE 95th St and 5th Ave NE. The illuminated double-faced sign will greatly enhance the sharing of information for both school and neighborhood activities, thereby increasing participation and fostering a greater sense of community.

7500

The goal of this project is to produce the Rainier Beach Performance Showcase, a semi-annual event that will involve performances by talented students and community members. Among the featured performers will be musicians, ethnic dancers and selected works from the Rainier Beach drama ensemble. A special effort will be made to reach out to the Asian Pacific Islander community to involve Islander vocal and/or dance groups. This project will build the capacity of the Paul Robeson Performing Arts Center and create a sustainable community performing arts program that will provide opportunities to showcase the talents of the diverse communities within Southeast Seattle

# Neighborhood Matching Funds

<p>The Pine Olive Way Harvard Area Triangle Neighborhood Association (POWHat) would like to promote their neighborhood organization and increase community involvement and residential interaction. While Capitol Hill is one of the most densely populated and diverse communities in Seattle there is a lack of meaningful community connections among the residents. The goal is to bring the neighborhood together around issues of mutual concern.</p>	750
<p>The POWHat (Pine/Olive Way Harvard area triangle) neighborhood is planning a neighborhood celebration to raise community awareness and increase residential interaction. The event includes a potluck, music, and some time for informal discussion about community issues. Those who attend will be provided with small pots, soil and plants to make their own window garden.</p>	250
<p>The goal of this project is to create a pedestrian-oriented pocket park in the Pinehurst neighborhood. This lot is unique and attractive due to existing trees and natural vegetation. The park would become a place for neighbors and visitors to meet and catch up on neighborhood news via a community bulletin board. A landscape architect will be hired to work with the neighborhood to produce a design. Volunteers will also help clean up the site.</p>	10000

Volunteers will also help clean up the site.

The goal of this project is to complete design development plans for the Powell Barnett Legacy Park.

12000

Powerful Voices Strength Through All Girl Education & Support (STAGES) program serves girls in and out of King County Juvenile Detention. The Living Diary project will produce a book of writings and artwork by 10 girls who will be training in creative writing, art, and graphic design, and public speaking. With staff and consultant support, the girls will launch the book and conduct workshops for small groups of community youth.

11480

The goal of this project is to transform the south end of Colman Playground into an interactive PlayGarden to meet the special needs of children with physical and mental impairments. This effort includes continued design development and the production of constuction documents for Phase 2 of the project.

15000

The goal of this project is to produce a back-to-school event that celebrates education and highlights family and community participation in the educational process. Southeast Seattle has identified education as one of its highest priorities and a community-wide effort it needed to increase student WASL scores, discourage drop-outs and help students identify their

unique talents and abilities. Community resources, social services, health, and information booths will be showcased. Entertainment will be provided by youth from local schools. Parents and community members will be recruited to join their local PTSAs and school mentoring programs. This will be a family friendly event that recognizes community participation as a key ingredient in a quality public education.

The Reel Grrls “Inside/Out: Youth, Media, & Race” Project will curate past work to create a 15 minute “best-of” video of student work about racial identity. The film will be used to create a positive environment for youth to explore their pre-conceptions about race and to foster dialogue for understanding different experiences and points of view. The completed production will be accompanied by a comprehensive outreach and education campaign. The project will also develop a video discussion guide, train youth as presenters and discussion leaders. They will partner with the Seattle Girls School, The Douglass-Truth Library, and Meany Middle School to organize six screenings and discussion forums. The video will be duplicated and distributed to 19 Seattle Public Schools, 30 Seattle Public Libraries and 10 City of Seattle elected officials. The award will pay for a project director, adult facilitator, videotapes and duplication, printing, postage/mailing, transportation, a

video editor and curriculum writer.

In response to the issues raised by refugee elders at the Elder Refugee Conference in August 2004, the Refugee Federation Service Center will partner with six Mutual Assistance Agencies to increase public awareness about the unique needs of elderly refugees and to advocate on their behalf. The project will include the production, printing and distribution of four quarterly newsletters during 2005.

13000

The Residents of Magnuson Park (ROMP) will create a neighborhood directory, which will include a brief profile page and photograph of each resident and their family. Residents will contribute to this directory at a community "Night Out" event organized by ROMP. This event will also include a BBQ and art for children. The directory will be distributed to 100 households in Magnuson Park.

250

Neighbors want to create a vision plan for a new Delmar Drive with improved pedestrian amenities and beautification. To develop this vision, they plan to hold a creative charrette with residents, students, dog walkers, bicyclists, urban planners and more. Following the charrette, they will create a brochure with the plan to develop a larger project in the future.

250

Ten Mien youth will be trained in leadership skills, public speaking, and general race and social justice

results of their assessment questionnaire; create a guide to assist in the process of realigning policies and procedures; organizing a two-hour training to explain how racism is manifested in human service delivery systems; introduce the IDIR Folio; provide training for organizations member coalition meetings; and refine the use of IDIR Tool via feedback. The award will pay for an organizer and administrative assistance.

The Seattle Peace Chorus will assist the Chilean Embassy in the special production of Canto General – The Song of the People. The performance tells the story of the Latino struggle for social justice through the poetry of the great Chilean Nobel Prize winner, Pablo Neruda and the music of Greek composer. The concert will honor the 100th anniversary of Sr. Neruda's birth. Mikis Theodorakis. Special outreach will be made to local communities of color to attend the performance at a reduced rate. The award will pay for the practice and performance time of the 14-member orchestra.

4000

The Seattle Young People's Project (SYPP) will create and implement a "Summer Youth Organizing Institute" for youth of color, LGBTQ youth, and immigrant youth to develop new projects and new leaders in their schools and communities. The focus of the institute will be organizing skills and leadership

of the institute will be organizing skills and leadership development. It will use popular education tools, oppression analysis, political education and the history of organizing with a focus on people of color. The award will pay for project coordination, stipends for interns and participants, supplies, study materials, and facility rental.

The goal of this project is to create a Latina support group for women in South Park.

6513

The goal of this project is to bring together neighborhood organizations and schools, along with current and past residents of South Park, to create a historical, living history documentary on the South Park community. The project includes a 30-minute video, interactive cd, multi-media presentation, photographic and historical exhibit showcased in two public presentations in South Park.

15000

SouthEast Seattle Arts Council will partner with several ethnic communities to plan and implement six special events for the 2005 Cultural Celebration Series including the Arts Gumbo Program showcasing the African American, Jewish, Pacific Islander, and Native American communities, a classical music and workshop by the Young Eight, an African American string ensemble from The Julliard School, and a summer theater production by Rainier Valley Youth Theatre written by a Pacific Islander playwright.

Theatre written by a Pacific Islander playwright.

This award will be used to help the Squire Park Community Council participate in several community events this summer. A freedom Festival and Parade in June and the Black Dollar Day Task Force Business Walk and Jazz Festival in August will attract people from the diverse ethnic and racial groups that the community council is trying to reach. There is a growing number of Hispanic families as well as many African Americans that currently do not participate in council activities. Information will be available on current neighborhood issues. People will be invited to indicate their priorities and goals for the neighborhood. Council members will follow up with those who indicate an interest.

750

The goal of this project is to increase the public awareness and understanding of diverse families' perspectives on parenting a child with a disability through telling family stories and developing cultural displays. The organizers will interview eight families of children with developmental disabilities from diverse communities about their cultural background and beliefs, especially in relationship to their cultural values and beliefs about disability. In addition to the interviews, they will work with an artistic consultant to assist the families in developing a visual cultural display as a means to educate and inform others

distributed along two bus routes in Magnolia. Our goal is to create welcoming and comfortable "greeting places" for bus riders, an attractive streetscape for pedestrians, drivers and the neighborhood, and increased natural habitat in our urban surroundings.

Tenants Union staff will conduct outreach and train 20 community members to facilitate 2 informational workshops and conduct outreach to their neighbors. Upon project conclusion, Tenants Union will have recruited 20 new members and will have provided housing and tenant-related information to 100 SE Seattle tenants.

10000

The Union Street Business Group will sponsor the "Unity on Union" event this summer. It will capitalize on the annual residents' Garden Tour and the potential customers it brings to the neighborhood. This is one part of an outreach strategy that also includes targeted outreach to specific businesses, and increased networking opportunities. The event will be an opportunity to promote local entrepreneurs; demonstrate the interest of local business in the community and expand the membership of the Union Street Business Group. Immigrant Cambodian P-Patch gardeners have been invited to market their fresh produce and flowers. Local artists who have recently moved into the Union Street Corridor will demonstrate their skills. The Union Street Business

Learning to show how to use the 3D modeling and sound editing software.

Production of a classic Spanish language play by students at Chief Sealth High School. Funds will be used to hire Latino youth to recruit, engage, and mentor Latino students to take part in this out-of-school language/theater arts training program.

3000

Through this project, Youth Speaks will design and implement an 8-10 week instructional curriculum which uses creative writing and poetry as a tool for examining and breaking down oppression. Three creative writing workshops are planned, two will be public school based and held during the first semester of the 2005-2006 school year. The goal is to attract at least 30 students to each event. The workshops will be developed and led by young poets under the tutelage of experienced educators and mentors. Selected works from these events will be published and distributed to local schools and community groups. A public performance is also planned for early 2006.

8450

This project will install a traffic circle at the corner of 2nd Avenue NE and NE 91st Street, to slow speeding traffic that is being rerouted from a signal light at 5th Ave NE and NE 92nd St.

4725

This project will build a traffic circle at the corner of

39th Ave SW and SW Lander to minimize speeding and for pedestrian safety.

This project seeks to install five speed humps to Improve pedestrian, car, and bicycle safety on 61st Ave SW.

6965

This project will produce a TV documentary in Spanish with English subtitles about Latinos in South Park. Through interviews with residents, business owners, city officials, leaders and community groups, the production will explore the life and culture of Latinos in this area, addressing issues that affect them and their neighbors, in hope of finding solutions to common challenges faced by the neighborhood.

15000

Eight teenagers from the community of South Park will participate in approximately twenty filming sessions, helping to setup lights, cameras and sound system for the interviews. The youth will also help with the transcriptions of the recorded interviews and will have the option to be at the editing sessions.

D During the screening of the documentary to the South Park community, the teenagers will be recognized

F for their participation in the video production process and each of them will receive \$200.00 dollars.

the influx of levy dollars, the presence of Sound Transit and the improvements to major public facilities. It is the perfect time for residents and businesses to come together to identify and prioritize issues of mutual concern. This event will be an opportunity to attract new members, create a platform for business owners to contribute ideas, develop volunteer opportunities, and give the Chamber important feedback on how to enhance their partnership with the community. The outreach strategy includes personal solicitation and a targeted mailing to all community residents. A special effort is being made to reach the large number of home-based businesses on Beacon. These individuals have a strong stake in the neighborhood's development.

Bel Tower Apts. is celebrating its 35th Anniversary this July. The project will be a celebration event with Bell Tower tenants and neighbors in the community. 250

The goal of this project is to create a community managed planning study of Third and Fourth Avenue corridors in Belltown. 15000

The goal of this project is to make improvements to the Belltown P-Patch to increase safety, improve functionality, beautify the neighborhood and provide a site to post community announcements. 1060

This project will be a comprehensive renovation of the 100000

The conference will offer workshops with a cultural evening celebration on a Saturday night. The conference content will be organized by a local volunteer steering committee, representing different community organizations and hosted and facilitated by Casa Latina. The conference expects to draw at least 125 Latino immigrant women. Topics will include immigration initiatives and laws, parent and youth communication and domestic violence. This project will strengthen the local community leaders by providing them with opportunities to learn, take on leadership roles and build long-term relationships with other groups working on similar social issues and population.

The Central Area African American Veterans Association is launching an outreach campaign in order to expand its membership base and to increase public knowledge of their organization. Thirty-five additional members are needed. The campaign includes new flyers and brochures, presentations at community meetings such as the Central Area District Council and the Stewardship Committee, telephone and personal solicitation and special events. The goal is to make sure that issues that affect veterans and their families are identified and addressed. To accomplish this, veterans will have to come to the table and participate in the more established

new residents in Denny Terrace and near neighbors. They will create welcome packages with supplies for those starting out. Included in those packages will be information about their apartment building and their neighborhood and strategies to be involved. Welcoming messages in different languages will be included in this welcoming gesture.

The Colman Neighborhood Association of Judkins Park, with the assistance of the Social Work Program at Seattle University, is planning to canvass the community this fall with the goal of creating a Skills and Resource Directory for the 400 plus households in the Colman Neighborhood. The purpose of this directory is to help neighbors make connections by identifying and sharing resources. For example, connecting gardeners with plants, the elderly with support or youth with after-school and summer job opportunities. It will also facilitate relationship building through the exchange of services and resources. Using this unique approach will help increase the membership and diversity of the organization.

750

The Colman Neighbor's Block Watch group is seeking support for a Strategic Retreat. The purpose is to create a forum, outside of the regular Block Watch meetings, where they can focus on the interests and hopes for the neighborhood rather than on crime statistics and problems. Their goal is to expand the

statistics and problems. Their goal is to expand the neighborhood membership to include more households, especially African American families; encourage teens to plan and execute projects, develop goals and objectives for 2005 that represent the interests of all the neighbors, and identify new leadership.

The Community Coalition for Environmental Justice Community Outreach Project will increase the participation of South Park and Southeast Seattle residents through its 2007 Community-Based Solutions for Environmental Health & Justice Conference. The conference theme is "Race, Power & Environment: Liberating our communities from toxins." This project proposes to raise community awareness, coordinate and plan the conference, create a community outreach team, reduce the barrier of language by offering interpretation resources and create leadership for potential solutions. The award will pay for conference coordinator, community outreach coordinators, and translation equipment.

10020

Students from three schools in the Madrona neighborhood will be involved in the restoration of Madrona Woods. Along with adult volunteers, they will clear invasive plants, replacing them with natives. Participating in this project will help the students to learn about and appreciate this local resource.

Park/Playground in the Queen Anne neighborhood.

This phase will continue with the community input process and complete design and planning for the playground construction project.

The goal of this project is to construct a new park on the site of the old City Light Substation at the intersection of Dakota and California in West Seattle.

The outcomes:

The park will provide over 11,000 square feet of open space for the community.

The park will include an open grass area, patio area adjacent to the building and an accessible ramp from the street to the west side of the building.

Planting of native draught tolerant plants and overall design that is water-wise and provides opportunities for environmental education at the park.

Two days of work parties.

Installation of art elements to the park.

This award will be used to finalize the construction documents and implement improvements to Dahl Playfield. This includes enhancements to the children's play area, basketball court, wetlands landscaping, walking trail designs, and green space preservation. In addition, funds will pay for site preparation for the art installation.

The goal of this project is to produce construction documents based upon the community-driven design

documents based upon the community-driven design concept for the Dahl Playfield Planning Project.

This project is to construct park improvements, remove invasive plant species and plant native species utilizing the recently created improvement plan and involving neighbors in planning meetings and work parties.

15000

This project will construct Peak Park, a neighborhood park in the upper Fremont neighborhood.

100000

The goal of this project is to expand the scope of the current Friends of Georgetown History project by preserving the extensive research files of the late community historian Tim O'Brian. Also, by extending the oral history mini-class into next fall's Cleveland High School curriculum and by developing a participation plan for celebrating the historical components of upcoming Georgetown community events.

14940

This project will complete the rehabilitation of a former industrial site into a healthy woodland forest/community park.

50000

The Friends of Llandover Woods have requested funds to 1) develop a vegetation management plan with restoration priorities; 2) develop resource maps of the property; 3) provide educational materials to the community; and 4) acquire gardening tools needed to

and construction planning will be undertaken for new playground equipment, paths, picnic and game tables, artwork, and landscaping in the concept plan.

The goal of this project is to develop a master site plan for the improvement of the Sealth/Longfellow Creek Courtyard. Community meetings will be held to develop a neighborhood vision for the site and a landscape architect will be hired to create a master site plan.

This project will construct a traffic circle at Sunnyside Avenue N and N 43rd Street to minimize speeding and for pedestrian safety.

The goal of this project is to bring more people together to continue restoring open space in the Madrona neighborhood. This phase will complete removal of major invasive plants, replanting area with natives; integrate open space views with wildlife habitat; and install a plaque that commemorates community contributions to the project. The award will pay for plants and supplies, slope stabilization, erosion and weed control, invasive removal, and project design.

This project seeks to build a united strategy for outreach and education on current and upcoming anti-immigrant attacks in Washington State.

The Montlake Summer Music Festival is a one-day

event that will feature live music, dance, spoken word performances, youth art displays, food and information booths. The goal is to provide an intergenerational, multicultural and fun event for families and residents of the greater Montlake neighborhood. Community members are involved in all phases of planning and implementation of the event, from the selection of the performers to promotion and outreach. Youth have taken a significant leadership role in the festival planning and this event will further foster and promote their connection to the larger community. Post event evaluations and assessments will be conducted so that with the identification and assistance of community partners this event can be self-sustaining in future years.

This project will build the social and economic vitality of the Greenwood-Phinney neighborhood, and encourage place-based personal connections, by developing a replicable plan that facilitates creation of artful, environmentally sensitive, and celebratory gathering places in existing routes and paths of public travel.

10500

developing a replicable plan that facilitates creation of artful, environmentally sensitive, and celebratory gathering places in existing routes and paths of public travel.

This project will build well-designed and quality tree wells to complement the eleven Trident Maple Trees given by the Tree Fund. 2060

Organizers plan to provide Halloween activities for the children and youth of Yesler Terrace, Broadview Shelter, First Baptist Church and the Hilltop House Residents. Information on emergency preparedness will be disseminated in Halloween bags. 200

The goal of this project is to rehabilitate a staircase pathway that connects the High Point community with the Longfellow Creek Legacy Trail. The project will result in a safe and friendly walkway that will encourage pedestrian activity and connection to adjacent neighborhoods and resources. 12000

The Diaries of Lake Union brings together neighborhood organizations and schools, along with current and past residents, to create a historical, living history documentary on the Lake Union Community. The project includes a video, interactive cd, multi-media presentation, photographic and historical exhibits all showcased in two public presentations. 15000

The goal of this project is to create a self-sustaining 15000

This project will train a select number of East African parents to learn about the US public school system in order to become parent advocates and act as intermediaries between public schools and other East African parents.

54295

The project is to replace a fixed letter sign with a comparable sign utilizing electronic letters controlled by a computer to allow for greater flexibility in messages for local schools and neighborhood organizations.

15000

This project will combine a Spring Festival, Interactive Forum Theater and Capoeira Angola workshops in the Spring and Fall. The International Capoeira Angola Foundation, ICAF Seattle and The TREE Institute will combine their expertise and resources to conduct the project. The purpose of these activities will be to guide the Rainier Beach community through a transformative process based on elements of Brazilian culture. The focus of the project will be to increase mutual understanding and respect among many members of the diverse neighborhoods. The NMF funds will pay for artists fees, community coordinators, marketing and printing supplies, graphic design services and media ads.

appropriate City agencies for review.

This project will build a small multipurpose tool shed at Marra Farm. Built into this creatively designed structure will be secure storage for farm tools, a teaching wall, harvesting station and gathering place. This project will facilitate community building as well as increased farm functionality.

5260

This project will create a 5 x 20 mosaic tile mural to be mounted on the brick wall at the front entrance to Meany Middle School and the Miller Community Center gymnasium.

10284

Approximately a dozen people, using disposable cameras will be asked to capture their impressions of life on Capitol Hill. Once the photographs are taken, a gathering will be organized where there will be a discussion and storytelling of the photos and images. Some of the best works might be displayed in a gallery at a future date. A special effort will be made to reach out to people whose voices are often overlooked in community life, such as retirees, those on a fixed income, immigrant or refugees or artists.

250

This project will construct two standard 14-ft diameter traffic circles at the intersections of 22nd Ave E and E Thomas St. and 22nd Ave E and E Republican St to minimize speeding and cut-through traffic.

10751

membership drive that includes the development of a community newsletter, door to door solicitation of residents and businesses, and an old fashioned “town hall meeting”. Approximately 200 copies of the newsletter will be hand delivered, the remainder will be mailed to a broader area of the community. The meeting will be an opportunity to highlight opportunities for neighborhood participation and identify and prioritize issues of mutual concern, such as public safety. This project is in association with the Othello Safety Association, Friends of Othello Park, The Mt. Baker Development Association and the community Block Clubs at New Holly. This coalition of Othello corridor organizations is working to strengthen community identity and neighborhood involvement.

This project will strengthen intergenerational ties by examining the perception gap between the community and students of color. Community members and high school youth will write and produce a play that deals with how dress, styles of communication and social interaction help shape community perception of youth of color. They will also facilitate a community discussion on the topic immediately after the play.

14800

This project will hire a landscape architect to design a comprehensive plan to improve the quality, use, and public enjoyment of the waterfront area of the

public enjoyment of the waterfront area of the Montlake Community Center.

100000

A pocket park on Mt. Baker Ridge will be constructed in this final phase. The community group will hold a major donor fundraising event and an outreach event for local businesses. Community-raised funds in the amount of \$191,500 including the \$100,000 NMF award will be transferred to the Parks Department for administration. Volunteers will participate in the bid and selection process for a construction contractor. The project steering committee will coordinate with the Parks Department and architect to have continued oversight of the construction phase. Volunteers will plan and implement a grand opening celebration. The completed park will have a panoramic view and an educational mini-program on astronomy. It will serve as a new outdoor "townhall" for the surrounding community.

The Neighborhood Organization shall attend all meetings with the Department of Parks and Recreation and architect to provide construction oversight and make a good-faith effort to ensure that the resultant work product meets the goals of the community and the intent of the Project as described herein.

Talk Story with Pacific Islander and  
Asian Sisters

# Neighborhood Matching Funds

The primary construction elements are a viewing platform constructed of steel grating supported by posts over a pin piling foundation. Features of the Project include an ADA entry; entrance structure, cobblestones and paving; inlaid artwork of sunset rays; basalt stone marking equinox and solstice; amphitheater; viewing pier; and furnishings. Other construction elements include site preparation, concrete form work, structural steelwork, metal fabrication, sub-surface drainage, guardrail, signage, public sidewalk repairs, landscaping, plumbing, and irrigation system.

The goal of this project is to construct a viewpoint park on a steeply-sloped vacant lot. The design features a platform that extends from the sidewalk at grade, to create a gathering space and identity for the neighborhood, and to make accessible the terrific panoramic view westward. This application is for construction documents.

15000

Asian Pacific American Women's Forum will conduct outreach and organize four Talk Story events to bridge gaps in the API women's community: Pacific Islander and Asian American sisters; intergenerational mentoring to build new leadership; immigrant, refugee, and American-born diversity; and young leaders in high school and college. The project will culminate in a mass gathering for participants of all

This project is twofold: One, to organize a workshop on the American Legal System and laws pertaining to immigrants, and Second, it is a project to organize the community on comprehensive immigration reform.

10330

This project seeks to increase family participation at the New School and build partnerships with other South East Seattle neighbors by celebrating the rich cultural diversity of the community through nine events: Lunar New Year, Black History Month, St. Patrick's Day/Irish Immigration History Performance, Cinco de Mayo, Asian and Pacific Islander Heritage Month "Luau", Juneteenth, July Pow-Wow, Oktoberfest, and All Hallow's Eve/Dia de los Muertos. Community partners include Rainier Beach Community Center, the Atlantic Street Center, Rainier Beach Family Center and the Kids Co Childcare Center.

10100

This outreach campaign and literacy summit will inform the community on the issues related to adult literacy. Another goal is to increase the number of community partners in the People's Learning Center. These new partnerships are essential to stimulate interest, recruit volunteers and continue the outreach efforts in the community.

1962

The Beacon Hill community group will plant a variety of plants in the upper tier of the Beacon Bluff P-Patch.

end of each median.

This project seeks to expand membership in the Professional Women of Color Network by extending further into SE Seattle by introducing "Celebrate, Commemorate & Educate", a community gathering in celebration and remembrance of women of color (and their families) who've been affected by breast cancer. This event will provide a forum for frank discussions, an exchange of the most up to date information. Through this event and the follow up gatherings that are planned, a strong community network of support will be established.

3150

This project will sponsor three holiday activities that will unify the top of Queen Anne and the bottom of Queen Anne Hill in a celebration of the holidays, thus, strengthening our community.

7366

This project will ensure the sustainability of the RBCCE by expanding its membership through recruitment, formalizing its operations under 501(c)3 and building the capacity of community members to lead community enhancing efforts.

15000

This project seeks support for our 2006 SummerARTS project. We are a multi-cultural, community-based theatre that builds bridges between Seattle residents through community performances, increases dialogue and awareness among youth and

will also follow-up to assure that new members connect with the organization and are plugged into activities that match their skills, interests and abilities. The current membership is 58 and the goal is to double that number. New members will be “groomed” to take on the responsibilities of community leadership. An expanded membership base will also allow for the creation of new standing committees and the ability to take on new initiatives. Increased membership will provide the officers with a broader base of input when advocating for neighborhood issues and priorities. Since April, an average of 12 to 15 people have attended each planning meeting. Roosevelt does not have an active Chamber of Commerce, however, this event has motivated 20 to 30 business to participate, drawing merchants and residents closer together. A successful collaboration on this project might give birth to a new and vibrant business association.

The project will build on the success of the existing Neighborhood Plan by updating it to reflect conditions, issues, information and implementation priorities which have changed since the plan was originally written.

15000

A Youth Council will be formed to organize community dinners, workshops and a large community event. We will organize two community dinners with cultural

will organize two community dinners with cultural performances as well as a series of hip hop workshops focusing on writing, emceeing, dancing, and mural/graffiti art. Youth will organize the first Southwest Seattle Hip Hop Showcase where students will demonstrate the skills they acquired in the workshops.

250

A neighborhood party will be organized where residents will learn how to make and operate puppets. Puppet Masters will lead the session and work with youth and adult residents to direct a puppet show performance that illustrates the different ethnic groups and cultures of the neighborhood.

This project will construct a grass field at Schmitz Park Elementary School. Funds are for supplies and materials. Contractor services are being donated.

15000

This project seeks to partner with nonprofits and grassroots organizations that work for social change to build a more powerful voice for anti-oppression.

13500

This project will expand space and activities at the Senior Center in West Seattle to accommodate more seniors and provide a more accessible facility including installation of new flooring, windows and casework in the existing dayroom.

95000

The goal of this project is to reorganize this once burgeoning organization and expand its membership.

SODO Hall of Fame

# Neighborhood Matching Funds

The goal of this project is to organize and promote a cultural event that showcases the ethnic diversity of the Lake City Neighborhood. The event, planned for late July, will highlight the cultures of India, Nepal, Ethiopia, Pakistan, Bhutan, Somalia and the United States through food, entertainment and art. A special effort will be made to include youth and elders. Representatives from each culture will work together to produce a "how to manual" for the celebration so that the event can occur from year-to-year. They will also develop strategies that will help connect these ethnic communities with other organizations and activities in the Lake City community.

15000

The project will involve a major community outreach and review process to develop a community management structure and initial plans for the "SODO Hall of Fame. This effort will include: 1) establishment of a community management and oversight team, accounting systems and other staff activities necessary to support the development of this project; 2) identification of a site and gaining site control; 3) development of a formal fundraising plan, and 4) selection of a project artist and design team(s). The "SODO Hall of Fame" will be a park-like setting in the SODO that will include artwork and exhibitions depicting and celebrating the importance of SODO to our region and key contributions to the success of

building and maintaining this key economic and historical Seattle District. The total budget for development of the park will be over \$1,000,000.

Somali Community Services staff will organize 4 Somali focus groups for youth age 7-12, youth age 13-17, women, and seniors to discuss their experiences of oppression, discrimination, racism, and negligence. Participants will learn how to advocate for themselves. Eight natural leaders will be selected through the focus groups and trained in leadership skills. A bilingual resource and referral book will be printed and provided to the natural leaders and users of the SCS center.

8024

The goal of this project is to collaborate with Coyote's "Hit the Streets" in mounting a youth-driven public art project for Southeast Seattle. The youth will design, build and install artwork on the site of the Rainier Valley Cultural Center to enhance this corridor's identity as a unified and cared-for community. The twenty-four youth-artists are from diverse racial, ethnic and cultural communities in Southeast, Central, and Southwest communities. The award will pay for supplies and materials, youth stipends, instructional assistance and fabrication and installation costs.

10000

This project will plant a floating barge with the native plants of the Duwamish River area, to create a temporary public art piece combining neighborhood

temporary public art piece combining neighborhood art events and landscape restoration. While on display in April 2006, the Living Barge will bring visibility to the area, serve as an anchor for other events, and create a dialogue about the Duwamish's history and future.

The project will bring Latino residents of South Park together to share their perspectives on community priorities, concerns, assets, civic engagement and violence in South Park through 3 focus groups and a photo-voice project with teens.

With permission from participants, the project will be used to share information with other South Park residents, stakeholders, and decision makers through English-and Spanish language press releases and radio.

The photo voice project will be exhibit to decision makers and South Park Violence Project collaborators to guide their current and future interventions, and encourage continued financial support for teen programs by drawing positive attention to the South Park Community Center.

The project will produce a traveling photo-voice exhibit in South Park and throughout Seattle.

This project will provide outreach to Squire Park residents and stakeholders to identify residential neighborhood traffic and pedestrian safety priorities.

sometimes felt by immigrant communities.

This project will expose Central Area youth to the world of information technology in an environment where they can build basic skills in reading, math, writing, problem solving, critical thinking, and communication . They will have the opportunity to demonstrate these skills in their own neighborhood and will engage other youth in the development and installation of a web page for the community.

9000

Organizers will start up a book exchange program in their neighborhood using a rolling cart to go house to house.

250

African American communities and Latino/Spanish speaking communities will join together to work on pressing social issues. Using music, theater and racial/cultural dialogue focused on taboo subjects they will build bridges across ethnic groups, and more effectively address a pressing major health care issue among communities of color, HIV/AIDS.

7250

The Market Street Singers is a new choral ensemble for Ballard, formed to bring the art of vocal music to Ballard and surrounding neighborhoods. This project funds the ensemble's second season of performances for residents of the northwest part of Seattle, culminating in a concert of music from the Pacific Rim.

Neighbors will organize an early evening garden concert at Bradner Gardens Park in Mount Baker. They hope to establish support for the creation of an annual event. 250

This project will create a series of six, three-hour storytelling/theatre workshops and a final public performance by and for homeless teens in the University District to give them a sense of self-awareness and confidence. This will ultimately contribute to their ability to get off the streets and become active and productive members of our community. Extended programs will be developed as a direct result of the pilot workshop series. 4085

The U-District ArtWalk is a monthly event to showcase the works of local artists throughout the University and Roosevelt Districts. Participating businesses will provide space for live art demonstrations and musical performances. Working with neighborhood residents, they will identify local artists and performers and help to promote the event. It is free and open to the public. This project will foster a sense of community among the residents and business people of the University and Roosevelt Districts. This will be an opportunity to promote these business areas as family-friendly community partners. 14820

The Urban League of Metropolitan Seattle will create and implement a 2006 Summer Children's Summer 8070

and implement a 2006 Summer Children's Summer University, which will serve 15 – 55 children between the ages of 12-18 from diverse cultural and socio-economic backgrounds. Curriculum includes skills in self-expression, race and social justice issues, leadership and community building. The project will focus on the art of story-telling related to cultural heritage, writing from a woman's perspective and leadership development as a tool to overcome obstacles. The Neighborhood Matching Fund will pay for workshop development and facilitation, a field trip, curriculum development, stipends for teachers and guest speakers and teaching materials. The project outcomes include: A written curriculum designed for young multi-cultural learners; improved academic performance for the participating learners; and twenty three instructional sessions that enhance the cultural understanding, leadership skills and academic competence of the participants.

Through both creative workshops and facilitated dialogue at Washington Middle School, students from Seattle and from the Amy Biehl Foundation from townships surrounding Cape Town, South Africa will participate in interactive forums and explore together what it takes to build vibrant thriving communities. Students with geographical and cultural differences will develop collaborative skills and team-building

approaches to problem solving in their communities and personal confidence in their abilities to make positive changes. Faculty and students from the University of Washington's Comparative History of Ideas Department, along with Roosevelt High School students and faculty from Hands for a Bridge will collaborate with the faculty from Washington Middle School and the artists from Book-It Repertory Theatre to create a dynamic curriculum.

This project will re-landscape the existing playground at Wedgwood Elementary School to create a beautiful and functional multi-dimensional play area and community gathering spot. Phase I of this project includes upgrading the young children's play area, establishing a green discovery trail, and creating an inviting entryway.

85804

The goal of this is bronzing the statue, fundraising, planning and implementing and providing ideas for the statue.

15000

The Westside Symphonette will increase low-income and minority youth participation in this West Seattle community classical music organization. Members will conduct an outreach campaign, organize three music workshops, and produce three concerts free to the public. Funds will be used to hire an administrative coordinator, music clinicians to conduct the workshops, graphic designers, and outreach an

the workshops, graphic designers, and outreach and music materials. Two volunteer music conductors and a volunteer steering committee will conduct outreach in the community and local schools.

Success will be measured in an evaluation and by numbers of new youth members.

This project will upgrade the current court, including repairing the asphalt, which is in serious disrepair. The court is used by community members, as well as students, on nights and weekends.

8000

Education for racial and social justice requires a space for the sharing of stories, traditions and music across generations and between races and ethnic groups. Third and fourth grade students from Wing Luke Elementary School will work with a team of historians, teachers, artists and volunteers on a first hand investigation of the people, music, culture, and politics of South Jackson Street: past, present and future.

2950

This project consists of a series classes, workshops, and professionally guided rehearsals offered both to students and members of the community that will build a Latino community-based performance training program. The goal is to build the foundation for a permanent program that provides Latino youth the opportunity to study, interpret, and perform the rich heritage of theatrical writings in Spanish.

heritage of theatrical writings in Spanish.

This project seeks to make the St. James community garden a safer area by trimming overgrown bushes and adding lighting, in order to create an open and visible community gathering space. 6000

This project will design and install a reader board and base with student-generated art near the front of the school to strengthen community awareness and involvement by promoting school and neighborhood activities and events. 15000

This project will produce and install five unique artistic and educational elements planned for Ravenna Park's playground: inlaid bronze native leaves; wading pool stepping stones; fossil mosaics; a native bronze animal sculpture; and a decorative stone and bronze gateway welcoming visitors to the park and play area. 15000

The Jackson Place Community Council and Artspace propose to design and develop a sculpture park on accessible private property. The first phase of the park is to design a public space with landscaping, public art, seating, information kiosk and ecology demonstration elements. The Matching Fund will pay for supplies and materials, outreach services, landscaping, commissioned art and kiosk, and educational demonstration projects. 87607

Center (TFA) as Fremont's only nonprofit, multi-disciplinary community arts center. Prior to a full programmatic launch in the winter of 2007, TFA will survey the Fremont community and then design, conduct and evaluate a series of community arts programs for all ages, in partnership with the Fremont Arts Council and the greater Fremont community.

Community Building Elements: Innovative "barn raising" to simultaneously involve community in arts programming survey, test events, and programs will build stronger community through work groups.

Outcomes: Survey summary, arts events, and programs.

Historical markers will be placed on 25 notable buildings in the Ballard Avenue Landmark District. Each marker will display a historical image of the building along with the year the building was constructed and a description of the building's history. A self-guided map of the markers will be distributed to the community. The project highlights Ballard's history and brings attention to the historical architecture in the area.

5570

This project will develop a comprehensive conceptual construction and design plan to improve the safety, pedestrian access and attractiveness of the four SDOT stairways in North Beacon Hill. The project will

SDOT stairways in North Beacon Hill. The project will engage the surrounding community groups through scheduled work parties to clean-up and establish networks for sustaining the project's missions and the long-term goals of applying for funding to improve the staircases.

This project proposes to renovate the streetscape on the west side of the 2100 block of Third Ave, between Lenora and Blanchard and the south side of Blanchard, west of Third Ave to the alley. The project includes new sidewalk, new Allee Elm trees, tree pits and landscaping.

92600

Cottage Grove residents and friends will collect fruit (apples, pears, plums, etc.) in the neighborhood and gather at a community event to press the fruit into cider. It will be a time for neighbors to get to know each other in a relaxed and fun environment. At the same time information will be available about the newly formed Cottage Grove Community Council. Residents will also have an opportunity to learn more about SNAP (Seattle Neighborhoods Actively Prepare), an Emergency Preparedness pilot program that will be introduced in late October. Neighborhood leaders will follow up with participants to ensure that they have an opportunity to be involved in the important activities and planning for Cottage Grove. Participants will be asked to sign a disclaimer to hold

Participants will be asked to sign a disclaimer to hold the City of Seattle harmless (not liable) for any cider produced at this event.

The Broadway Business Improvement Area will supply brooms and dustpans to all street level merchants along the Broadway corridor. A kick-off event will be held with businesses on Capitol Hill performing a Sunday clean-up of sidewalks, light poles, etc., ending at a celebration at the Sunday Farmer's Market.

8500

Community Building Elements: The Broadway BIA will build relationships with the more than 100 business owners on Broadway Avenue and will create direct and frequent community collaboration among the BIA members by working together with the assistance of the team captain program.

Outcomes: A kick-off event with businesses and Capitol Hill residents performing a Sunday clean-up of sidewalks, light poles, etc. There will be eight small clean-up events on Sundays in March and May. The closing event will coincide with the season ending of the Sunday Farmers Market in May 2007.

The once grassy area of the Bryant Elementary playground, which is used year round by area residents, as well as students, has become severely degraded. With the help of a previous NMF award of

degraded. With the help of a previous NMF award of \$7,500, John Barker Landscape Architects has worked with the community to develop a Master Plan. This award will continue with the Design Development and Construction Document Phase of the project and will produce construction documents suitable for bidding.

Community Building Elements: A survey (157 respondents) and public process was held in Phase One to develop a schematic design that included youth participation. There will be 2 community meetings in this phase to refine details for final design and construction documents. Outcomes: Completed design with play structure, basketball, seating, shade trees and landscaping elements and construction documents ready to send out for bids.

The Bryant Manor Computer Learning Center will implement the Central Area Youth Advisory Council as noted in the Central Area Neighborhood Plan. The Advisory Council will assist in giving youth a greater voice in issues related to the Central Area. They will advise the Central Area Stewardship group and District Council on youth issues, assist in maintaining the District Council's website and create a new youth page.

The Capitol Hill Chamber of Commerce (CHCC) will create a website for Capitol Hill through a neighborhood-outreach campaign. The CHCC will drive the campaign, but the site will be for the community as a whole. The CHCC includes business and property owners, developers, nonprofits, arts groups, neighborhood associations, community colleges and residents.

Community Building Elements: Direct contact with businesses for survey and educational campaign, website to share information. Outcomes: survey, website portal, better marketing of Capitol Hill businesses and services.

With help from Seattle University nursing students, residents of the Seattle Housing Authority building Cedarvale House will host a health and nutrition fair for their community. The fair will encourage interaction among older residents who live in Cedarvale's high-rise unit and parents and children who live in Cedarvale's family units, as well as with the nursing students. The fair will offer prizes, teaching material, and nutritious recipes each related to promoting health in the community.

work of updating and amending the neighborhood plan. Approximately a dozen new people are needed to chair the various committees; additional assistance will be needed for outreach and planning. There are a number of key decisions to be made and the broadest possible neighborhood representation and participation is necessary in order to make changes that truly reflect the character and intent of the community.

This project builds on a continuing streetscape improvement and traffic calming project along N/NE 55th/56th St. This phase of the project will construct a curb bulb adjacent to the Tangletown Pub.

12605

The newly formed Columbia City Neighbors Association is planning a fall kick-off event. This family-friendly Harvest Party will serve a dual purpose. It will provide an opportunity for the diverse community to come together in a relaxed environment to socialize and bond. There will also be time for residents to learn more about the community association and what it offers. The goal of the Columbia city Neighbors Association is to support the neighborhood's social fabric through fun and entertainment, distribute more and better information about neighborhood changes, provide a forum for neighbors to discuss those changes and inform neighbors about how to act on issues they care about.

neighbors about how to act on issues they care about. The kick off event will have activities for all ages. A special effort will be made to reach out to non-English speakers. Some of the outreach materials will be translated into Spanish, Korean, Vietnamese, Amharic and or Somali. The goal is to have at least 100 people sign up for the neighborhood mailing list and e-mail list.

This project will hold a conference for 500 people at the end of March at West Seattle High School. Designed for bilingual migrant families of south Seattle, we will provide speakers that will motivate the attending students and their families to finish high school, as well as first-hand information about existing alternatives to pursue a higher education. We will also provide translation to English during the workshops.

14540

Community Building Elements: Comite Latino will build relationships with Seattle Central Community College, Latino Advisory Committee (filmmakers), El Centro de la Raza, and Campana Quetzal by working together on the conference. Outcomes: A bilingual conference attended by 500 people to motivate them to consider higher education and provide "how to" information.

This project will provide three bi-monthly bilingual

This project will provide three bi-monthly bilingual newsletters in the South Park area to inform and connect residents and community of the area about community events, calendar of events, programs, services and resources about the different services being provided by organizations and businesses in the area. A directory of resources and information will be developed as well. A web page will also be created to bring information and resources electronically to community groups and residents.

Community Building: Starting up this project will create stronger relationships among volunteers. The newsletters, website and directory will provide a sense of belonging and importance to South Park residents. Outcomes: Three newsletters, community calendar, resource guide of programs, services, and providers, website for youth to express themselves through media and art.

A celebration of African culture at the Seattle Mennonite Church will be followed by a series of conversations over several months to promote networking and civic engagement. 250

# Neighborhood Matching Funds

Community Building: The project will bring residents and employees together for afterwork events throughout the length of the project to install planter boxes, conduct street cleanups and park maintenance. These activities will provide opportunities to establish new connections and collaborations.

Outcomes: A working group will be established, 3 working parties will clean up the intersection of E. Marginal Way and 8th Ave, as well as along the street. Planter boxes and wheel stops will be installed along 8th Ave to provide a buffer between the sidewalk and the heavily-trafficked roadway.

This project will revitalize an adopt-a-park on the south side of the Cascade People's Center into a vibrant demonstration garden providing hands-on learning opportunities and an enhanced gathering space.

11000

This project will recruit and train a core of 12 community volunteers to operate the Center, carry out useful community-building programs, and expand the network of relationships with service providers and other agencies with whom the Center can collaborate. Volunteers will participate in organizing a Resource Fair, a volunteer recognition event and develop a training manual.

training manual.

Elena Poniatowsaka, Mexican writer, will be interviewed by the Entre Hermanos organization to discuss HIV/STD risk in the Latino Community. The interview will be performed at the Entre Hermanos Center with participation from the public and membership subsequently the completed interview will be aired in Seattle's area Spanish radio station. "La Jefa" 1540 AM (Sunday program).

250

Our Block of Neighbors will clear debris and overgrown blackberries from the alley. Children will help with smaller items and adults the larger, to create a space for a community gathering. We will celebrate in the cleared area with a Barbeque, plant bulbs, spread mulch and paint an adjacent fence with contributors' hand prints and names.

250

The Eritrean Association Board of Directors is seeking funds to engage in a programming and concept design process to explore a new construction/expansion of the building that would make possible: new inter-generational tutoring and mentoring programming, Elder peer support groups, other programming that requires dedicated, quiet space for gathering, working, and classes.

15000

CMTY BLDG: Eritrean and other community members will participate together in design and

members will participate together in design and programming process for new building, building stronger relationships and better understanding. OUTCOMES: Conceptual drawings and final report.

A 3,000 sq. foot plaza in the street right-of-way at N. 36th and Evanston Ave. N. has been designed to include inlaid colored and textured glass to reflect a galaxy. The area will include colorful curved mosaic benches and planting strips around the plaza. A large central courtyard and sidewalk will be open for pedestrians. Sculptural pedestrian lights acting as luminous planets and other lighting displays will change with visitors' movements, giving a sense of fun and bringing the space to life day and night will be installed.

33815

The Friends of 17th Ave NW & 63rd St. NW Pocket Park plan to develop a new park in their neighborhood. A new park will better serve the growing population of families with children, seniors with limited mobility, and renters. It will provide a greater opportunity to enjoy open green space and recreation. The award will pay for final design development and construction documents.

15000

This project will design the common space of an intersection with a local flair to slow traffic, connect and create a more environmentally sustainable, safer and more people-oriented neighborhood.

safer and more people-oriented neighborhood.

The final phase of this project will complete a 30 to 50+ plot P-Patch and landscaped sitting park for this culturally diverse, low-to-moderate-income community.

15000

This project will support the fabrication of artwork by professional artist John Hoge to be located at Dahl Playfield. The artist worked closely with the community in completing the design and developed a maintenance plan with the Parks Department.

15000

This award will fund the final fabrication and installation required to complete the John Hoge public art installation at Dahl Field. The community and the applicant have worked out a maintenance agreement with the Parks Department. This final phase marks the end of a great community building effort to build a stronger neighborhood by creating visual and sensory memories. The most important outcome of this project was providing a distinctive sense of identity and creating a sense of ownership for the community.

15000

The Friends of Denny Park plan to revitalize the historical Denny Park and make it an integral part of the South Lake Union and Denny Triangle neighborhoods. The goal is to create a space that can be used by families, churches and schools. A landscape architect will be hired to develop schematic

drawings for this new play area.

This project will replace outdated equipment with age appropriate equipment, making the playground a safer and more inviting meeting place for the community.

15000

Friends of Hazel Heights P-Patch will develop a vibrant community garden with 17 organic plots as well as a neighborhood gathering place, which will be open to entire community. The project will include various community work parties, development of final design plans and the construction of the garden.

100000

This project seeks to amend the park's existing Vegetation Management Plan and set priorities for ongoing restoration and to expand community outreach by producing an informational flyer and an issue of the community newsletter devoted to the park. Outcomes include: Producing an issue of the Licton Springs Community Council Newsletter with information about the park. Train volunteers in plant identification and monitoring techniques. Reach out to the local community, build awareness of the history and value of the park and foster partnerships.

6986

The Friends of Living and Loving in Black Seattle will host a series of activities that engages the community in issues related to sexism and many of its negative consequences. They will sponsor a three-day event

that will feature a dynamic film, workshops, small group discussion and alternatives for change.

The Friends of Madison Park propose to rebuild the Madison Park Play area so it is safer, more accessible and more beautiful. The most important goal is to create spaces to serve the varied needs of the community in this public park. The Park will continue to serve those who want to interact socially, play or relax in the midst of this urban oasis.

100000

Meridian Playground requires a limited renovation to address broadly recognized design issues. A unique water feature needs to be reworked, there needs to be a play structure for older children, and safety issues need to be addressed.

14950

CMTY BLDG: Volunteers work together to conduct fundraiser, install new play structure with supervision, move and install woodchips. OUTCOME: Play structure for older children, safety enhancements, benches for parents to socialize while children play, entry sculptures.

This project will purchase and put in landscaping material in the planting strips and a traffic circle along the North side of NE 105th St, between 32nd Ave NE and Ravenna Ave NE. After the work is finished, a celebration and picnic will be held for the volunteers.

# Neighborhood Matching Funds

The Friends of Slamon Bay Park propose to renovate the nearly 1-acre playground located directly north of the Salmon Bay School by installing new play equipment, picnic tables, repaving worn and damaged asphalt and walking paths. The intended results is to encourage more community interaction by families and individuals living nearby the site.

100000

During the Pike Place Market Centennial year, Friends of the Market will promote and present three free lectures by notable local historians, Paul Dorpat, Alice Shorett, and Roger Sale, telling the story of the establishment, history, and cultural contribution of the Pike Place Market to Seattle.

4000

CMTY BLDG: Encourage new members to Friends of the Market, provide historical information to broader community to widen public understanding.

OUTCOMES: Three free lectures by experts to mark the 100th year of the Market, new members.

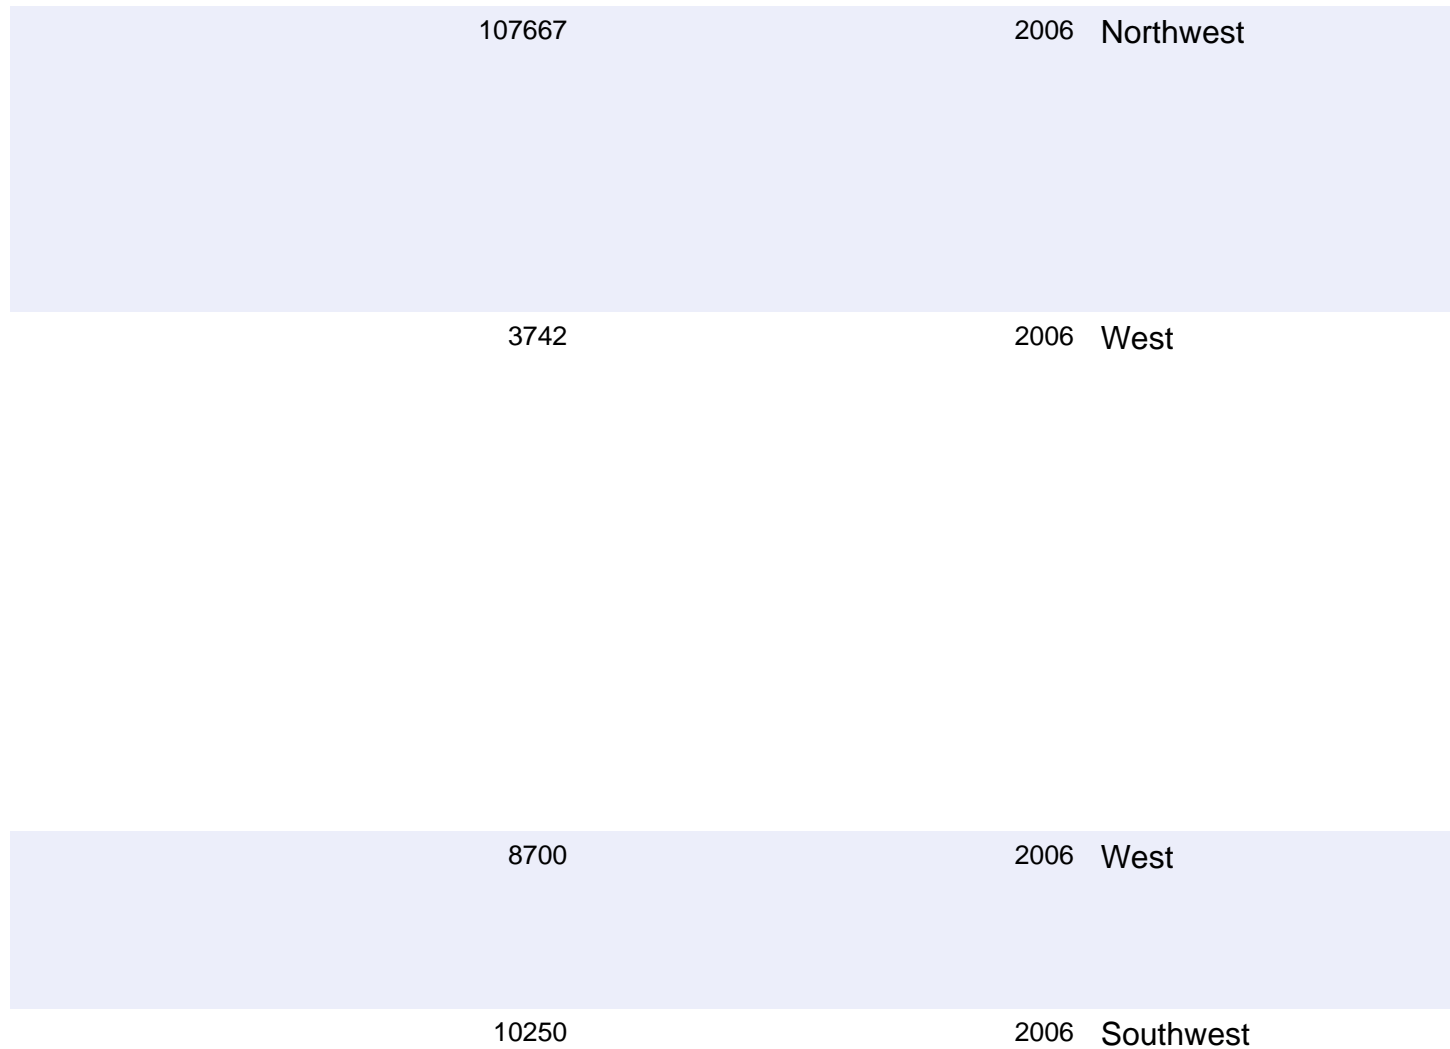

This project proposes to create a schematic design for the viewpoint/park in order to create an environment whereby it can become a fully developed park.

15000

Neighbors, school staff, students, families and a design consultant will work together to develop a conceptual site plan for the Gatewood Elementary School Playground. In addition, safety upgrades and

School Playground. In addition, safety upgrades and improvements will be made to the existing playground equipment. This will allow the current structure to both meet safety standards and prolong its use until the project's implementation/construction phase. Overall, this project is the first step in transforming this play area into a neighborhood destination where people of all ages meet, play and exercise.

The project is a visioning exercise concerning a half-mile stretch of Airport Way South. We will conduct planning charettes that would actively engage participants in the development of this roadway. This project would bring major stakeholders together to work and identify common concerns and create a vision of Airport Way.

15000

Community Building: This Phase One will galvanize the 60 business members of this new organization to work together towards a shared goal through two public workshops, a work party, and development of a plan for Airport Way. Relationships will be built with residents and with neighboring communities.

Outcomes: A plan for civic betterment of Airport Way, a work party to do a clean-up, and a walking tour.

Neighborhood kids in the Admiral District will decorate bikes, floats, wagons, strollers and themselves and

business and property owners in Hillman City. Their goal is to work together to reinvigorate the business district, making it a safer and more attractive environment for existing and potential business patrons and visitors. They will engage a broad range of participants including diverse nonprofits and ethnic groups. A data base to document the business and property owners in the district will be created, as well as a business directory for distribution. A welcome packet for potential HCBA members will also be developed. In February the association will host a small scale town hall gathering to provide an opportunity for business and property owners to come together and discuss areas of concern and interest. In March of 2007 a follow up mailer will be sent to participants and other interested parties indicating the ideas and potential projects generated at the town hall meeting and providing opportunities for people to get involved.

This project proposes to build two traditional Chinese gates within the Chinatown/International District Neighborhood.

Community members working together with a landscape architect, will create an overall conceptual plan for renovation of all school playgrounds and a detailed plan for the south playground. The existing playgrounds have unsafe, deteriorating surfaces and outdated, inadequate play equipment. The goal is to create a safe play area and an attractive community gathering space.	15000
The Leschi Community Council and the Powell Barnett Legacy Project propose to expand and embellish the area near the Northwest Entry Plaza of Powell Barnett Park. The new entry way will welcome visitors to the more contemplative portion of the park with trees and more passive uses plus reflection on the park's namesake legacy. The new elements will also include new park contours, perimeter fencing, retaining wall seating, barbeque pits and tables, benches and trash receptacles. The project outcome will be a renovated community park that features play areas for children and teens, recreational/non-play areas for adults and a dose of community history.	100000
Elders from Leschi House and United Indians of All Tribes Lunch Program will hold story circles with a cultural sharing, document the stories, and take a trip to the Wing Luke Museum's "Home Grown Asian Pacific Wing" to focus on the topic of New Year Celebrations in different cultures.	250

included for youth and families to express their outlook on the situations in their neighborhoods.

This project will organize and hold a two-day conference at the University of Washington, which primarily focuses on Latina/o high school students in the Seattle area. Our objective is to foster the desire to pursue a higher education amongst Latina/o students and create an understanding of race relations and social justice issues.

14850

The Metropolitan Improvement District will sponsor fifteen high school-aged minority youth to serve as Summer Youth Ambassadors for our not-for-profit organization. They would primarily serve as concierge for the downtown area when travel and tourism season is at its peak in Seattle.

15000

Organizers will produce a small outdoor concert series at the History House in Fremont over 14 weeks of the summer of 2006.

250

This project will construct a traffic circle at the intersection of 1st NW and NW 82nd Street with the aim of reducing traffic speed and fostering driver caution.

5000

CMTY BLDG: Neighbors have already successfully circulated a petition for a traffic circle. Volunteers will work together to raise cash match and make art tiles.

OUTCOMES: Traffic circle with curb, soil, plantings, art tiles and a landscape maintenance plan.

This project will design and implement 4-6 community forums and dialogues in communities of color in Seattle to identify the impacts of racism on those communities and suggest possible public policy solutions to address them. This work will inform the Nonprofit Assistance Center's racial justice framework and public policy agenda.

15000

CMTY BLDG: Involving people of color from Native American, Latino, Asian, and Pacific Islander, and African and African American communities in focused dialogues to develop shared analysis will build stronger relationships across racial lines.

OUTCOMES: 4-6 community forums and dialogues on impacts of racism on communities of color, summary of forum outcomes and possible public policy solutions, present summary to NAC board and start planning to prepare list of public policy options to distribute for community feedback.

Northwest SHARE will organize a three-day, free to the public Festival of India, showcasing the diversity of traditional Indian Arts & Culture, food, music, dance, yoga, fashion, stage performances and a parade. The festival will take place during Labor Day week in Alki Beach.

week in Alki Beach.

The Open Circle Theater Youth Program will create a unique dialogue for street youth and neighborhood residents in Columbia City. The project will use theater arts and conversation to bring the young people and their neighbors together. The project outcomes will also include the creation of neighborhood performances, an educational video, and a children's book.

15000

This project will improve the Othello streetscape corridor, creating a pedestrian friendly approach to the future Othello Light Rail Station. Landscaping improvements will include a corner gathering place with kiosk and flower boxes, as well as relocation of neighborhood banners embroidered with the neighborhood name.

9460

This project will construct a fence that will enclose the P-Patch with a sign welcoming visitors, install a community notice board on the side of the garden shed and construct and plant a grape arbor.

1332

Community Building Elements: P-Patchers and community volunteers will get to know each other through building a bamboo fence, trellis, and sign. Outcomes: Fence, trellis, sign, better plot definition, reduced vandalism, beautification.

Phinney Neighborhood Center Site  
Improvements/Gathering Spaces

# Neighborhood Matching Funds

This project seeks to gather neighborhood residents to design esthetically-pleasing spaces, resulting in an inviting walking neighborhood and closer-knit community.

4000

This project will return Pelly Place Ravine to its natural state by removing invasive vegetation and restoring the original creek banks. This revitalization would provide a unique natural area for the community and be a key step in providing a series of interconnecting trails between adjacent green spaces in the Morgan Junction neighborhood.

15000

CMTY BLDG: Youth from 4 age groups and adults from many ethnic backgrounds will participate together to revitalize the ravine and production of the living history documentary will build intergenerational respect and stronger bonds. OUTCOMES: Removal of invasives and trash, restoration of native plants, signage, creation of multimedia presentation with photos, audio tapes, slides, video tapes, and promotional materials to be viewed at 2 schools.

This project will improve the safety, appearance and usefulness of the lower Phinney Neighborhood Center site open spaces. This will be done by refreshing the asphalt surface, re-striping the parking lot, installing a green safety barrier with seating, a green shed for the farmer's market and art elements representing the

farmer's market and art elements representing the activities that make this a key gathering space for community activities.

A group of neighbors, acting as Phinney/Greenwood Climate Change Action Now (PGCCAN) is pledging to do their part in reducing greenhouse gas emissions. They are sponsoring a campaign to educate their neighbors on ways they can fight global warming in their own community. The objective of this project is to help people understand the nature of climate change, its effects on our quality of life and steps that can be taken to mitigate those effects. A comprehensive outreach campaign is planned, including face-to-face, telephone and e-mail solicitation. A website will be created to offer information and resources. Participants will be given specific steps they can take to reduce greenhouse emissions. They will be encouraged to sign a pledge committing to specific actions. Monthly events are planned for the community where people can exchange ideas and information and report on their progress. The goal is to create meaningful connections among neighbors and at the same time empower the community to collectively make a difference. Outcomes include monthly community meetings and information sharing, a website offering resources and community connections and

development of an e-mail list of participating neighborhood groups.

This project consists of the restoration of the First Avenue median strips with the goal of making them more attractive, colorful, welcoming to visitors and a place which can be cherished by the neighborhood.

15000

Rainier Beach Community Empowerment Coalition (RBCEC) is partnering with SEED to offer neighborhood youth training in graphic design, resulting in the creation of 25 unique pole banners to be hung in the Rainier Beach Business District along Rainier Ave S and S Henderson St. This is a skills training project and a neighborhood beautification project, which will provide area youth with much needed job skills and increase community pride and identity in the Rainier Beach neighborhood.

10865

CMTY BLDG: youth provide artwork, community comment phase, dedication event. OUTCOMES: stronger RB business district identification, artistic banners.

Five pairs of short-range re-chargeable radios will be purchased for the neighborhood response teams in the 2800 block of 26th Avenue West in Magnolia. These radios will be kept at a designated Command Center for use in any emergency or disaster situation. When needed, they will be given to team members as

When needed, they will be given to team members as they canvass the neighborhood. They are designed for quick communication with the Command Center to expedite requests for first aid, search and rescue, shelter or reports of utility failures. A community event is planned to provide training in the use of the radios, enroll new Block Watch members and exchange information and ideas. This project will build on the existing efforts of this community to connect and organize around the issue of emergency preparedness.

The Roanoke Beautification Council will refurbish the Roanoke Park furniture by adding 7 benches to the park. The bench project is being done in conjunction with the community's history project. Each bench will have a history plaque describing an historical event which took place in or around Roanoke Park or the surrounding neighborhood.

8500

This project will construct a fitness course at Schmitz Park Elementary School.

13127

Crown Hill residents along NW 96th from 9th NW to 12th NW will gather, get acquainted, share resources, and develop a sense of trust among those who live on this one long block. Food, family entertainment, sharing of contact information, and distribution of information about city and community services will highlight this event. This event is envisioned as an

# Neighborhood Matching Funds

highlight this event. This event is envisioned as an outdoor block party on August 1, National Night Out.

River City Skate Park will be a 10, 000 square foot concrete skate park located in South Park. The park, free to the public, will offer places for people to gather and watch all levels of skateboarding while reinvigorating a derelict property. Civil and geotechnical engineering and storm drainage infrastructure will be completed in the site

15000

Outcomes include:

Completed the storm drainage system for the skatepark that will connect to drain inlets at two or three low points in the park (bottom of bowls and in the plaza), allowing for rainwater to run off the site into the municipal syatem. The system is made up of PVC pipe buried under the concrete skatepark, sloped to drain toward the municipal drain lines in the adjacent right-of-way or other permitted rainwater conveyance method.

The Southeast District Advocates will facilitate a process to develop more diverse community leadership in exisiting and new SE Seattle grassroots organizations including the SE District Council. They will employ a Leadership Development and Outreach

Chicas Hermosas Pilot

# Neighborhood Matching Funds

will employ a Leadership Development and Outreach Coordinator who will cultivate opportunities for diverse leadership in the issues of the day such as: gentrification, light-rail construction, and school closures. The outcomes and deliverables will include: identifying and connecting no less than six SE community leaders in to the Action Agenda process; bringing the Action Agenda to no less than ten disenfranchised SE Seattle groups to facilitate their involvement; planning and hosting key forums and workshops to focus on key issues like education, gentrification, leadership development and the state of the district; and the creation and distribution of useful information in a variety of useful formats.

Chicas Hermosas will work with high school-age Spanish speaking Latino women to increase their self-sufficiency and sense of self-efficacy and strengthen connections between family and community members through a series of workshops. The workshops will include a self-esteem curriculum and training in basic carpentry and home repair, car maintenance, the arts, cosmetics and manicure and pedicure skills.

15000

Community Building Elements: The young women, family members, and volunteers will build relationships through the workshops and service activities, the broader community will view the art

show. Outcomes: Bonding opportunities for 31 youth and families participating in the program. 19 young Latinas will each complete 60 hours of volunteer activities: 20 hours as beauty salon volunteer providing manicure and pedicure services for elderly and youth; 20 hours in Habitat for Humanity volunteer activities, 20 hours organizing the art gallery and organizing a community art show  
Supervised activities will be carried out in 4 nursing homes and will serve 190 elderly clients (2 hours per client) during the six months of the project.

The Squire Park P-Patch will install a new fence surrounding the plots that will feature the neighborhood's local jazz history. The design will include a creative display of that history and make the garden more attractive to the gardeners and visitors. The project will create both a cultural legacy and enhance a popular neighborhood destination.

14182

The 31st Avenue South community will work with the city to implement significant traffic calming interventions on the 31st Ave S roadway between Yesler St and Mount Baker Blvd. A consultant will be hired to help develop a traffic calming plan that not only slows traffic and improves the aesthetic appearance of the street, but bridges the east and west sides of the community.

15000

such as craft fairs, art shows, farmers markets, holiday celebrations and concerts.

This project will create a "3rd Place" park on Queen Anne on 1/4 acre of land on the northeast corner of Queen Anne Ave N and Roy St. The Park will be programmed by the community to support events such as craft fairs, art shows, farmers markets, holiday celebrations and concerts.

100000

The community group will select drought-tolerant plants and develop a planting design to replant a steep slope median that was cleared in 2006. Volunteer work parties will amend soil and replant the flat, western edge of the steep-slope critical-areas median. The community group will contract with Earthcorps to replant the steep slope and to provide project consultation. The group will meet SDOT maintenance agreement requirements to provide water and plant care for three years.

10000

The University Neighborhood Beekeepers Association Apiary Refurbishment project will install educational signage and an interactive exhibit, rebuild a storage shed for supplies, fence-in and landscape the Apiary, which is located in the Washington Park Arboretum.

located on a plaza at the SW corner of Wallingford and N 34th. A curb bulb with a raised plinth has been constructed to hold the sculpture.

West Edge Sculpture Invitational is a sculpture exhibit running from July to September 2006 on Harbor Steps and in and around Benaroya Hall. The sculptors are emerging and established artists, presenting original outdoor sculpture. During the exhibit, there will be events staffed with volunteers: First Thursdays (Seattle's open-gallery evening), an artist lecture, a family hands-on event and walking tours of the exhibit hosted by sculptors and volunteers. Maps of the exhibit will be distributed and will provide visitors with information on the artists, the volunteers, the sponsors and events.

Create and distribute posters and a tri-fold brochure to publicize GAIN the Highland organization.

Create and distribute posters and a tri-fold brochure to publicize GAIN the Highland organization.

The Family Game Nights will provide resident groups from three SHA facilities (Hilltop Senior Housing, Jefferson Terrace and Yesler Terrace), an opportunity to organize, develop strong resident organizations to better represent their communities in negotiating with SHA and to integrate with other East Sector neighborhoods. Terrace, volunteers from Jefferson Terrace will work together with the neighborhoods' at-risk youth and develop future ideas for possible Neighborhood Matching Fund Small & Simple projects or other means of civic engagement.

A traffic circle will be installed in an effort to slow speeding traffic that is rerouting from 25th Ave NE. The population of children under five years of age has increased dramatically over the past several years, making traffic safety a priority for the neighborhood. Outcomes: Motorists will be forced to reduce their speed; Neighborhood children as well as other residents will participate in planting and maintaining the traffic circle; A spirit of cooperation and empowerment will be fostered.

5657

Amy Carlson and neighbors will do outreach and hold spring work parties to clean up an existing traffic circle on Warren Avenue North and Raye Street in Queen Anne. In the fall, they will purchase plants, prepare the soil, and hold work parties to plant shrubs and groundcover. They will hold a celebration in early November 2007. Ms. Carlson and her neighbors will work with SDOT to get plant list approval, planting design approval, and a free permit. The outcomes will be a revitalized traffic circle and a small group of 3 – 5 volunteers who will sign an agreement with SDOT to maintain the plantings.

agreement with SDOT to maintain the plantings.

Arts in Motion (AIM) will continue the building search for an Art & Music Center in Rainier Valley through an expanded Steering Committee, and conduct community meetings and focus groups for a Building Feasibility Study and Strategic Plan for the Center with AIM staff and Board.

10010

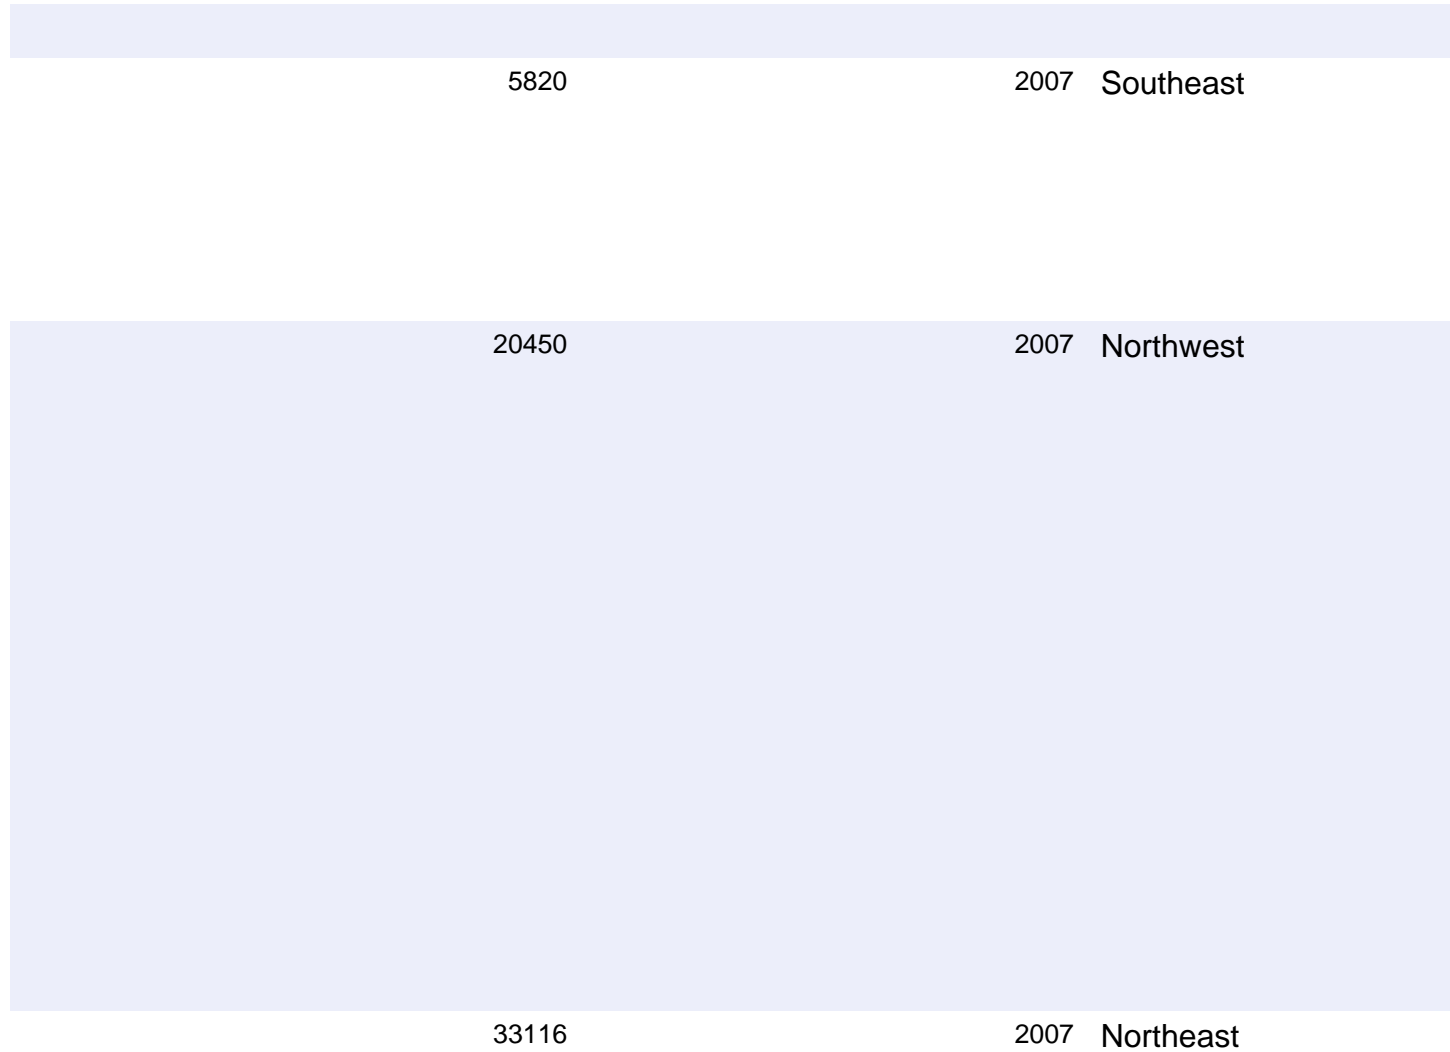

Bagley Elementary parents and community members will beautify and improve the function of the front entry of the school by holding 3 design charettes, raising community cash match, conducting a competitive selection process and hiring a contractor. The contractor will remove and dump old concrete, grade and prepare the site, and pour a new concrete entry plaza. Community members will donate professional services for construction oversight and landscape design. Community volunteers will hold a work party to prep the site and conduct additional fundraising activities as necessary. Because the project scope was revised to accommodate greatly increased costs for concrete work, purchase of plants and benches and volunteer activities to install landscaping and benches have been deferred to a future time.

15000

Bailadores de Bronce is a Mexican Folkloric dance group that was established in 1972. Its mission is to share Mexican traditions, music, and dance with the communities of the Pacific NW. Bailadores de Bronce

communities of the Pacific NW. Bailadores de Bronce is composed of volunteers. The folk dance group will use this project to enhance their mission and programs, restructure their Board of Directors, obtain leadership training, achieve a 501-C-3 status, increase their youth membership and secure practice space for the group.

Outcomes: increase youth membership by 25%, achieve a 501-C-3 status; acquire practice equipment and secure practice space for the group.

Seattle's Banda Gozona will be paid to perform and teach recent secondary school immigrant youth at the Bilingual Orientation Center to learn to play the traditional music of Oaxaca, Mexico in a 12-week afterschool program. Volunteer music students from Seattle Pacific University will provide additional individual music instruction. The BOC youth will perform with Banda Gozona at a BOC school assembly and on Youth Focus Day at Folklife Festival.

3750

The Beacon Hill Elementary PTSA will install benches, garbage disposal units, landscaping and bike racks to increase efficient use of space and improve aesthetic appeal to exterior space at the entryway of the school. A mural project that speaks to the diverse student population at the school and

to the diverse student population at the school and throughout the community will be installed in the interior of the school and will invite students and their families to collaborate on the project.

The Beacon Hill Elementary Summer Spanish Literacy Camp is for Pre-K through 2nd grade ELL and SLL (Spanish and English language) learners. The 5-week session will enhance school-year learning of basic grammar skills through individual learning goals and will highlight a multi-modal learning curriculum, parent and caregiver participation, and community connections component.

27942

This project proposes to augment the SDOT budget for the creation of a pedestrian plaza in the block of Lander St between 16th and 17th Ave S.

28875

Outcomes:

4 Facilitated public forums to design the plaza.

Development, printing and distribution of outreach material to the community.

Written Report with recommendations for the design to be distributed to the community.

Surface and lightening of Lander St.

The Beacon Ridge Improvement Community (BRIC) will begin implementation of the plan developed through an NMF planning grant in 2006. This first phase will focus on invasive plant removal, slope

# Neighborhood Matching Funds

phase will focus on invasive plant removal, slope stabilization and re-vegetation with appropriate native plants on a section of the Hill Street stairway.

Community participation and building momentum for this long-term project will be an equal priority.

Outcomes:

Invasive plant removal in the staircase area; slope stabilization and planting of native plants on a section of the Hill Street stairway. Three work parties.

Outreach plan to include community members from the neighborhood. Development of on-going maintenance plan for the staircase.

Broadview Elementary School recently increased from 500 to 700 students. It is growing into a K-8 School. Many parents drop off and pick up their kids as they believe this is the only safe thing to do. There are many other pedestrian generators - the Broadview Library, the Broadview Community Center, retirement homes and churches. We would like to reduce the number of car trips to the school and increase the number of pedestrians, bicyclists and transit users to the school and nearby pedestrian generators.

Outcomes: Consultant, will analyze results of survey distributed to multiple community institutions, make recommendations and designs for solutions to barriers to walking, biking, public transit, etc in preparation for future work to construct/implement the

Volunteers and hired professionals will implement several design elements selected in the SAS design phase through 3 community charettes led by a landscape architect. The construction drawings will be completed. At the main entrance on 34th Avenue West, seating and pavers will be installed. The dumpsters will be relocated and enclosed and the farmers market shed will be moved. At the main entry plaza, mature trees damaging the school building will be removed and enhanced lighting will be installed. Several work parties will amend soil, plant perennials and nativeshrubs and trees, and install soaker hoses. Other installations at the main entry include new benches, bike racks, trash and recycling receptacles, and solar powered bollards. The new elements for the playground on the east side of the school includes benches; renovated playground asphalt to accept new Wolfe Creek play area and educational map play area designed and painted by volunteers; art tiles designed by students; additions to playground equipment; and demolition of old fence and installation of new taller chain link fence. Volunteers will also conduct outreach activities, special fundraising events, and regular project oversight meetings. They will also plan and implement a grand opening event. Donated professional services include design and printing for outreach materials and Wolfe Creek and map play

# Neighborhood Matching Funds

The Center for Well-being of Africans in America will connect with 20 East African refugee families with young school-aged children that creates effective tools and guides them through a process that creates better communication between parents, their children and the schools they attend.

15000

Outcomes:

1. Parents participating develop tool sets for raising their children in a new culture.
2. Parents awareness increased regarding children's emotional needs in and outside the home.
3. Parents more involved their children's education.
4. Improved school performance by children.
5. Reduced number of youth from East African families in juvenile court system.
6. Reduction in inter-cultural and inter-generational stress felt by immigrant parents.

This project will enhance access to Lake Union for small craft. We will design and publish a free map for paddlers and rowers that highlights Lake Union's historic, natural and cultural resources. We will also add 18 transient kayak moorage spots at South Lake Union Park and The Center for Wooden Boats.

9720

Central Area Senior Center is mounting an exhibit of archival photos October 14 - December 31, 2007, depicting the history of jazz in the Central Area of Seattle. The exhibit opens on October 14, when the

Seattle. The exhibit opens on October 14, when the community will be invited to hear Paul DeBarros speak about his book on jazz history and Garfield High School students will perform. Students throughout Seattle will be invited to come and view the photos during the run of the exhibit.

Central House will work with Rainier Beach teens in the Lake Washington Apartments on issues of climate protection and emergency preparedness. The youth will conduct research and learn how to help the community become more aware of these important issues.

15000

The Colman P-Patch will install a new irrigation system which will stabilize the site and increase productivity.

Outcomes includes:

Develop a reliable water supply that will save the City money in water lost to leaks.

Increase a sense of community among the Colman Park P-Patch community.

Develop new leaders from the community who will take a more active role in improving and maintaining the P-Patch and Colman Park.

1788

Organized teams of community members will harvest fruit from neighborhood trees that would otherwise go to waste. This fresh, locally grown fruit will be shared with low-income residents in the community. New and lasting relationships will be forged across racial,

and lasting relationships will be forged across racial, age and socio-economic lines; A valuable resource that would otherwise go to waste will be captured and shared and nutrition will be improved among limited income community members. This will also help foster the concept of stewardship of one's local natural environment.

The families would like to slow speeding traffic on their streets, which house two daycares and a school. The intersection of these streets is extremely dangerous and the scene of many narrowly averted accidents.

6000

This project will host community dinners, each having a specific educational theme, presented and supported by various community agencies in collaboration with Concord Elementary School. Connecting our families, school and agencies will help increase our students' academic achievement.

30000

Neighbors will have a work party to remove ivy and plant trees in Lewis Park.

250

The Crown Hill project will engage the community in producing the architectural conceptual drawings for the old Crown Hill Elementary school site. These drawings will be used as a component of the communication about the development of this project.

15000

This project will create a highly visible gathering place

for community members on the front slopes of the Danny Woo Garden. By replacing the overgrowth, fixing the walls, and adding landscape we will encourage more visitors. The project will add seating, play structures, a watering station, and a community mural.

This project is a one-day event designed to continue the West Edge community's efforts to identify the West Edge as an artistic neighborhood, bring increased pedestrian traffic and build community involvement. The event features elaborate professional and amateur sidewalk chalk art and includes other interactive art activities like live music and artist demonstrations.

10000

The Duwamish industrial area is experiencing an increasing mix of pedestrian, vehicle and freight traffic - sometimes resulting in injuries. Other city streets do not share the special relationship with freight traffic (truck/train) that the Duwamish does. A coalition of multi-modal experts, along with neighborhood and businesses, is greatly needed.

15000

Outcomes include:

Report on the visioning and recommendations to SDOT and the larger community and provide input into project mitigation planning for each project affecting the Duwamish corridors.

Three Public meetings that will include participation

Three Public meetings that will include participation by mode specialists (freight, bike/pedestrian), to develop a vision and planning of the Duwamish corridor.

This project will train a core group of trainers throughout the East African community to engage in outreach efforts to prepare the community for earthquakes and other disasters that might occur.

7500

Neighbors will be organizing the first annual Beacon Hill Garden Tour, a grand tour of 20 Beacon Hill gardens.

250

Capitol Hill community members will produce three days of multi-cultural, inter-generational poetry workshops, readings, panels, and performances in April 2007. Organizers include neighborhood residents, businesses, arts organizations, and social service organizations. Through proactive education and engagement, neighbors from different racial, religious, ethnic and social backgrounds will gain mutual respect and understanding.

15000

This project will provide a nutritious, well-balanced breakfast and after-school snack in conjunction with an educational component featuring inspirational speakers, tutoring and a radio show.

43100

This will be a celebration to recognize the re-opening of the Fremont Bridge. The intent is to have an event

that joins the two communities that have been impacted most by the bridge construction.

This project will construct a multi-purpose neighborhood park on the two adjacent lots between NW 62nd and 63rd St on the west side of 17th Ave NW. Project is also supported by the Pro-Parks Levy.

75000

This project proposes installation of six 25-ft flagpoles to display the US flag and the flags of the five Nordic countries and a natural stone marker on which to engrave the park name. These design elements will clearly identify the origins of Bergen Place Park and honor the community's heritage.

4375

This project will complete the entire mountain bike trails project at the Colonnade Mountain Bike Park. The outcome will be a new facility to be constructed and used by neighbors and bicycle enthusiasts from the surrounding area. Youth will be involved in the design and construction process.

74996

The Day Street Viewpoint Project will become a new public viewpoint in the Mt. Baker Ridge neighborhood. Neighbors will create a gathering space that features native plants, and ornamental rocks as informal seating areas. There will be outstanding views of the Olympic Mountains, Downtown Seattle, and Elliott Bay.

with Free Coalition for Kids and Allstate Insurance will install a new play structure in the school. Recently the schools merge with Whitworth Elementary and this project will offer an opportunity to organize activities that build community among parents and students from both schools by improving the school playground as well as forging friendships and bonds which could last for years to come.

Outcomes: infrastructure and site preparation for a new playground, preparation includes: excavation, drainage, curb border, fencing and ADA ramp for the site.

This project will move the Denny Park revitalization project forward into a new phase of design development and the implementation of the vision to revitalize the park as a neighborhood gathering place. Outcomes include: Landscape Architect will produce design development drawings and community will continue with fundraising and outreach.

75000

Friends of Ercolini Park will add to the current park development by enhancing the play areas and plaza with play equipment, seating and other amenities.

90000

Outcomes include:

A park will be developed.

A playground area and seating area will be added to the new park.

the new park.

The Friends of FAME Head Start Policy and Parent Committees will create a series of culturally responsive transition "fairs" with Head Start families at FAME, T.T. Minor and Emerson that will encourage participation and diversity in the PTA's and advocate for culturally relevant services.

11590

Bringing the Children back into International Children's Park is a collaborative effort between multiple community stakeholders (named the Friends of International Children's Park) to design improvements to International Children's Park. The outcome of the park improvements will help engage community members to improve park usage and dispel suspicious activities.

15000

The Friends of the Langston Hughes African American Film Festival is sponsoring a nine-day festival of dynamic cinema that is by, for and about people of the African and African American Diaspora. Most of the films will offer inspiration, contemplation and rich community dialogue. Each film will offer the perspective of the filmmaker via interview and dialogue with the audience. The festival outcomes will include: more general exposure to the black experience, face-to-face interaction with the image-maker, and deepening the exposure and purpose of the Langston Hughes facility.

the Langston Hughes facility.

As part of the Madrona Park Creek Daylighting Project, finish the creek connection portion between the Grand/Spring storm drain and the Lake Washington Blvd culvert. This involves excavation work and purchasing and planting about 2,000 native plants and trees. Outcomes include:

- 1) Improved fish habitat.
- 2) Safer and more inviting recreation space.
- 3) Creation of a model restoration project to inspire others to enact similar projects in the City of Seattle and elsewhere.
- 4) An example of multi-jurisdictional and agency cooperation on a project involving several City departments, as well as county and federal agencies.
- 5) Increased community participation in community projects.

15000

Friends of Northeast Queen Anne Parks will participate in design workshops with a landscape architect to create a plan and concept design for passive public use of the 17-acre Northeast Queen Anne Greenbelt and a plan for use of the newly acquired property on the north side of MacLean Park. The participants will examine the potential for pedestrian trails, wetland walkway, invasives removal and native plant restoration, and road demolition and terracing for the MacLean Park addition. terracing for the MacLean Park addition. Volunteers will conduct a selection process for a Landscape Architect, implement an outreach strategy to local groups and schools to recruit new participants, hold 3 design meetings and 2 tours of the site, produce and distribute 3 newsletters to 3,300 households, and coordinate with the LA production of a plan, concept design, and 50% construction drawings.

The friends of Orchard Street Ravine will restore an overgrown ravine area to its natural habitat and will provide a green space for neighborhood enjoyment and education. Upon completion of the project, neighbors will be able to move between their local neighborhoods and enjoy the natural green space and gain a greater understanding of the importance of habitat restoration.

Outcomes:

General weeds removal, planting native species, controlling noxious weeds and watering new plants  
6 work parties will be organized during the length of the project.

This project will launch an after-school mariachi program at Denny Middle School as part of a larger effort to strengthen and expand mariachi education opportunities in West Seattle. The program will lead to increased parental involvement, higher academic success for students, and positive connections

success for students, and positive connections between schools and community organizations.

The Mariachi Suit Project will outfit the Chief Sealth Mariachi with traditional suits for performances. The suits are a key component to a larger effort in West Seattle to create a K-12 mariachi education pathway, empowering students to make good decisions about their education and future roles in their community.

15000

This project will implement the South Park Action Agenda (SPAA) through developing future community leaders, conducting a multi-lingual communications campaign and conducting a community-based survey.

50000

Outcomes:

Hiring a Community Organizer and 4 SPAA Ambassadors.

Organize and develop a Board of Directors for the organization.

Develop cultural competent leadership training for the SPAA Ambassadors.

SPAA Ambassadors will conduct outreach in the South Park community to invite community members to participate in the different community committees and events to develop the South Park Agenda.

Design and publish language and culturally appropriate outreach materials to help standardize and brand the SPAA (especially using the winning SPAA logo designed by a South Park youth).

This project will implement the completed Master Plan for the area. The site will be revegetated with native plants to provide a wildlife habitat and promote education and recreation opportunities. Depending upon final costs, improvements may include boulder and log seating areas in several locations, bald eagle snags, an improved kayak launch with connecting path to parking lot, interpretive signage, park kiosks, a berm and planting beds to buffer the natural area from the parking lot of an adjacent apartment building, meandering trail improvements at existing loop trail, a new log and wood chip trail through a portion of the wetland with a log and rock connection over the beaver channels, planting beds along paths, native planting for several areas and art elements. All improvements are subject to the design review process of the Seattle Parks Department and other appropriate regulatory agencies. Outcomes: 1) Improvements will provide a walking trail that connects two neighborhoods; 2) Completion of this project will help Mayor Nickels and Green Seattle Partnership meet their goal of improving quality of life in Seattle by restoring and maintaining 2,500 acres of forested parklands by 2025; 3) Enhance the natural area habitat to be enjoyed by man and wildlife.

A landscape architect will be hired to work with the neighborhood to design an open public green space on a newly created and purchased lot of 4,000 sf. The landscape architect will facilitate community meetings to ensure everyone has input for design of this native plant garden. Outcomes: This project will ensure public participation in the design process; neighbors from both sides of Laurelhurst will be united; a piece of nature will be recaptured; and a community gathering space will be developed.	15000
This project will install a traffic circle at the intersection of Sunnyside Ave N and N 39th St.	5755
A buffer of native plants and trees will be added along the Burke-Gilman Trail to mitigate extensive development recently undertaken by the abutting property owner. This development has resulted in the loss of more than thirty 50 foot trees along a 400 foot stretch of the trail. The goal is to clear and restore as soon as possible, native plant and bird habitat to the approximately 30 x 133 ft. site. The plots are located on public parkland, have few or no trees, and are currently overgrown with blackberries. Outcomes: Restoration of native plants and habitat along the trail; Rehabilitation of the micro-ecosystem for area birds and plants; Opportunity for residents to work collaboratively and forge relationships with other non-residential interests in the neighborhood; Groups that	11479

outcomes: 1) "build community" with Columbia City schools/organizations; 2) maintain our relationship with Rainier Beach; 3) enhance the learning experience of students and adults; and 4) better serve our underserved/underrepresented community.

An outdoor Family Play Plaza and Performing Arts Garden will be built, with a gardening theme that will be accessible to children of all abilities. Outcomes include an area that will provide a place for children to play freely or to participate in program performances, and for neighbors to gather to socialize. There will be year-round opportunities for tending the garden, providing neighbors with a sense of ownership in an attractive neighborhood feature. Through the programs at the Play Plaza, the PlayGarden will bring together area residents.

76500

This project will develop a new play structure for school and community use. Community building elements: the project will involve students, parents and the community to plan, and build the playground and develop a stewardship of the project. Product: new playground structure. Complete drainage and border ramp for playground.

will be developed with input from neighbors, an advisory review panel, expert consultants and appropriate city departments. This three-phase project seeks to reduce our ecological footprint while building neighborhood connections, both literally and figuratively. Outcomes: (1) Better environmental stewardship of public and private property. (2) Improved Neighborhood organization with a goal to establish the Arboretum Heights Community Association. (3) Identification of Neighborhood priorities. (4) Support for City of Seattle priorities such as the Urban Forest Plan.

This project will construct the first phase of improvements at the Salmon Bay Natural Area, building on the acquisition and early vegetation management of the area funded in part through previous Neighborhood Matching Fund awards.

56250

The purpose of this project is to increase the membership of the New High Point Khmer Association, an association of Cambodian residents living in the High Point housing development in West Seattle. The goal of the group is to provide community input and contribute to the betterment of the High Point neighborhood in terms of policy, decision making and other activities. They want to be a group that other organizations contact if there is something they want disseminated within the

# Neighborhood Matching Funds

something they want disseminated within the Cambodian community in High Point. They also want to engage Cambodian youth and teach them about the Khmer culture, values, and language. The Outreach Fund will be used to: design and print flyers, membership cards, a banner; advertise on Cambodian radio and newspapers; rent a karaoke machine to attract residents; hold community gatherings to engage other community residents in the plans and activities of the New High Point Khmer Association; and apply for tax-exempt, nonprofit organization status. They hope to recruit 30 new members throughout the year.

30000

Highland Park families and staff propose to initiate a program which will enhance our community's cultural experiences as they relate to preserving and learning about natural resources. Over two years, ten educational opportunities will be presented to the community by culturally relevant educators and environmentalists.

The recently formed Hillman City Business Association (HCBA) is seeking new leadership. Since it's inception in March of 2006 it has grown to over 30 members and has sponsored several successful events. However, it has been difficult to organize, develop and coordinate all operations of the organization and still find time to develop new

750

# Neighborhood Matching Funds

Hillman City

# Neighborhood Matching Funds

Homeless Place of Remembrance Committee

S07011

Homeless Place of Remembrance

# Neighborhood Matching Funds

organization and still find time to develop new leaders. The continued success and growth of the organization depends on being able to grow leadership among those who have become involved.

To encourage new leadership, HCBA is planning three events for 2008; a Time Capsule Project Party in cooperation with the Rainier Valley Historical Society in January; the Second Annual Town Hall Meeting in February; and Spring Clean in April. Specific materials will be developed asking individuals to become officers or take other key leadership roles. Membership packets will be created and distributed prior to and at each event. Outreach for these events will include a mailing to over 200 members, residents, business owners, property owners and other community contacts and distributing flyers door-to-door. The focus of the 2008 Town Hall Meeting will be growing leadership. These activities will provide a great opportunity to showcase the achievements of the HCBA and are a great buildup to the elections planned for May of 2008.

The Homeless Place of Remembrance will be a gathering place, located in Victor Steinbrueck Park, intended to remember and honor homeless people who have died in King County. NMF Small and Simple funds will be used for the conceptual design

process.

The International District Housing Alliance will implement a resident-initiated leadership and life skills development trainings. This program will serve to build confidence and strengthen the choices of low-income immigrants and increase access to information. Residents will engage with broader communities resulting in cross-cultural communication.

Outcomes include:

Creating and conducting a tailored computer literacy program and increasing access to technology to a minimum of 20 residents of Yesler Terrace and 15 residents from Rainier Vista will have skills needed to use word processing software and web browsers.

Project will develop English language speaking skills to a basic conversation level for 20 residents of Yesler Terrace and 15 residents from Rainier Vista.

Twelve community volunteers will gain skills to Teach English as a Second Language during the program.

Dike Community Activists will sponsor a community dance to follow the Seattle Dyke March, an event that occurs annually on a Saturday preceding the Gay Pride Parade. This year's Dyke March will be on Saturday, June 23, 2007 and the dance will follow from 8-10 PM. The location is the Seattle Central Community College Plaza at the northwest corner of

neighborhood organization will be developed to address the issues of concern identified from the surveys. A community-wide event will be held at the Miller Community Center to discuss the findings and priorities of the neighborhood. Volunteers will be recruited to serve on the executive board and the committees.

## Outcomes:

- Community needs assessment.
- Core group of committed volunteers to accomplish outreach and initial planning.
- Community-wide event to address neighborhood priorities.
- Launching of a new neighborhood organization.

John Muir Elementary is in a residential neighborhood. The school's large backyard is the immediate neighborhood's largest piece of open public space. The current primary users are the school's 300+ students during school times, the 40+ children in the before/after school and vacation program operated by Camp Fire, students in enrichment physical activity programs, and neighborhood families after school, weekends and vacations. This project would develop a plan for this large open space that upgrades the space for all of its primary users and creates opportunities to expand the

users and uses of the space.

The Dunlap community will celebrate reading and literacy for all ages by holding a neighborhood book exchange. Community members will be asked to donate books and magazines. The literacy program at Dunlap School will also be approached for a contribution. The family friendly event will be free and open to the entire community. To encourage the broadest range of participation, information about the event will be translated into five languages.

250

For decades, the High Point community has been home to hundreds of Cambodian refugees. The newly formed Khmer Association of New High Point requests support for the planning phase of the Khmer Cultural and Language School. This school will rejuvenate interest in Cambodian culture and language, building community across generations.

15000

The Kimball After School Program will serve 120 students per semester, offering arts, foreign language, sports, music, and environmental education. This will provide enriched, focused learning opportunities for students, increased involvement for parents, and multiple opportunities for students to engage in community partnerships and increased participation by community members in the life of the school.

Invite children, accompanied by an adult guardian to visit Fremont businesses on the afternoon of Halloween to receive treats provided by area businesses.

200

Over the past year, the community has been working with Barker Landscape Architects to finalize a master plan to renovate the school play spaces. They have identified the south playground, on NE 45th Street, as the area of focus for the first phase of the renovations. The improvements will update key elements of the existing play site. They include: resurfacing portions of the playground, purchasing and installing a play structure, creating court lines for favorite games like 4-square, tetherball, kickball and basketball, installing curbs, seating, and an outdoor stage, and developing a more welcoming brick entryway off of 47th Ave NE. The expected outcome will be the development of a community gathering and play space that is creative, safe, enriching, and welcoming for all the children and their families in the neighborhood who use it.

90000

The project organizers will be working with youth from PSKS as well as other homeless youth from Broadway, Cal Anderson Park, etc, in an effort to get training and to channel their talent into literary workshops by encouraging their poetry used in their everyday life and link the experience through a magazine as well as public forums. With the

Preparedness

# Neighborhood Matching Funds

magazine as well as public forums. With the endorsement of the residential and business community, the project will bridge the gap of misunderstandings and stereotypes associated with homelessness and youth.

## Outcomes:

- o Outcome to bring together the homeless youth community with business and residents.
- o The magazine will be the legacy of the homeless poetry to the community.

This is a community organizing effort to encourage emergency preparedness and neighbor-to-neighbor responsibility among 25-30 households in the 100 and 200 blocks of 30th and 31st Avenue East in Madison Valley. This area has seen significant urban flooding in the past several years. The goal is for neighbors to take steps toward personal preparedness and to also develop a plan to respond to and communicate with each other before, during and after a flood or other emergency. The award will be used to purchase key emergency kit items such as crank radios and to develop a resource directory for the residents. The directory will list essential phone numbers for reporting public safety issues, City Light and Seattle Public Utility emergencies, or drainage issues, health, active flooding, sewage back ups and other community concerns. It will be printed so that it can

be posted in an easy to find household location such as the refrigerator. The campaign also includes door-to-door outreach with Crime Prevention and Office of Emergency Management staff who will distribute an emergency preparedness DVD and other essential information.

The Neighbors would like to expand attendance for their Night Out Block Party on August 7 to include residents from 23rd to 27th Avenue S, from Yesler Street to Jefferson Street.

250

This project will provide community meetings for parents and caregivers to provide training and instruction in using tools to support middle school student's academic success: transition to middle school meetings, and home language meetings for non-English speakers.

29780

West Seattle neighborhoods have worked together for three years to identify and map a series of walking trails using street sidewalks, streets with low traffic and no sidewalks, wooded area trails and pathways and rights-of-way and staircases. The map has not been printed yet. Feet First will use ArcView to prepare the map for printing. They have published many walking maps and have map-making expertise. We seek funds to print the map. Outcomes: Printing and distribution of a free map of walking routes throughout West Seattle.

throughout West Seattle.

The New Holly Neighborhood Council is requesting funds for translation and interpretation services in six languages (Somali, Amharic, Tigrinya, Cantonese, Vietnamese, Khmer, Spanish) for the Othello Town Center Neighborhood Information Night scheduled for September 27, 2007, 7:00-8:30 PM. Prospective Othello Town Center (intersection of Othello and Martin Luther King Way) developers around the future Othello light rail station will be invited to share their plans, hopes, and dreams with interested neighbors. The Neighborhood Council represents over 1,200 families of more than 20 different cultures and languages; renters, home owners and those in assisted living. This event is a wonderful opportunity for potential developers to understand and appreciate the diversity of southeast Seattle.

750

Organizing Committee: The organizing committee consists of Daphne Schneider, (New Holly Neighborhood Council), Leslie Miller and Katie Pencke, (Rainier Othello Safety Assn.), and Mona Lee (Othello Neighborhood Assn.)

This project would create multi-lingual and cross-cultural safety signs and workshops to help build community around a common area of interest, as well as improve the safety of our neighborhood.

Mini-Forum and Community Event

# Neighborhood Matching Funds

this effort has evolved as an extension of the broad-based community support established by Friends of Dahl Playfield. The enhancements to this field will complete the renovation of all 4 fields at Dahl.

Outcomes: 1) Increased opportunities for healthy recreational activities for children of all ages; 2) A well used community resource will be updated and made safer, and 3) Bonds between families and neighbors will be strengthened.

A community gathering space will be developed at Northgate Elementary. Improvements include: a new play structure, border, ADA ramp and resilient surfacing; new plants and landscaping; benches; bright paintings on retaining walls, fencing, doors and trim; resurfacing and striping parking and play areas; and new playground gamelines. These improvements, especially the new landscaping and benches, will be an enhancement to the neighborhood. Outcomes: Creation of a great community gathering space; participation of children and young adults in the design and implementation of the project; renewed community interest and support for a school that serves a diverse student population; great partnership between public and private entities.

15000

in the neighborhood and city-wide. The forum showcases the education and involvement of students, residents, and businesses in transitioning to biodiesel. Participants learn to incorporate climate protection, specifically biodiesel, into their daily lives. Outcomes include: community members will be trained to process vegetable oil into biodiesel; learn the arguments for and against the use of biofuels; a Mini-Forum showcasing the work of students and others involved in April 2008.

An evening of film, live music, and a community potluck centered on the bicycle including booths about bicycle safety, state bike trails, advocacy for transportation alternatives, and opportunities to donate bikes to a good cause.

5817

Volunteers of Northwest SHARE, with participation from the West Seattle community, will host a unique "Dance For Peace" event at Alki Beach on Aug 5, 2007. The event will bring together Seattle's diverse ethnic dance and drumming groups for the purpose of promoting peace and social harmony. Alternate dance techniques from different world cultures will be presented to an expected audience of about 600; the event is free to the public. Outcomes: A multicultural event that can be enjoyed by the entire family; increased understanding of diverse world cultures; bringing together people of different backgrounds to

Expanding the Circle

# Neighborhood Matching Funds

bringing together people of different backgrounds to work collectively for peace; reduction of racial intolerance; promotion of brotherhood and good will among neighborhood residents.

Phase 2 of the community playground revitalization at Olympic View Elementary School includes, the expansion of the play area footprint, replacement of outdated play equipment that no longer meets current safety standards, and the installation of a seating area. The changes will result in a community gathering space that will actively engage children of all ages. Outcomes: 1) Enhancement of the playground as a community gathering space. 2) Opportunity for more children to safely engage in active play at one time. 3) Involvement of older children in creative play opportunities.

15000

Expanding the Circle is a series of two community gatherings with racial justice goals organized by People of Color in Philanthropy Network to strengthen and unite marginalized communities by understanding the unique cultures of giving and expanding the representation of people of color in philanthropy.

Outcomes:

Two community gatherings and two panel presentations to:

1) Strengthen and unite marginalized communities by understanding the unique cultures of giving.

understanding the unique cultures of giving.

2) Expand POC leadership and representation in philanthropy.

3) Influence grant-makers to expand investment in race and social justice philanthropy.

The Educational Resource Street Fair provides a venue to bring an ethnically diverse community together to connect, collaborate, and raise awareness to local needs while educating and equipping children, teens and low-wage families with tools needed to build healthy neighborhoods and community. We propose to introduce climate protection information, methodologies, technologies, and implement a small test of change within the community to educate and encourage energy conservation. Outcomes: a) network created of community of advocates for global warming solutions, b) promotion to reduce emissions with Bike Ride, c) education: the ERSF annual report will summarize the process and outcomes.

15000

A year-round composting toilet will be installed at the Picardo P-Patch. Beyond its obvious purpose, it will serve as a demonstration of a waterless composting facility and be an educational tool for schools and organizations in community agriculture, conservation and ecology.

neighborhood projects. Outcomes: Secure additional volunteers to carry out the identified neighborhood projects, add 50 people to the e-mail and postal mailing list, recognize and thank the community for their efforts so far. All who attend will receive regular updates, at least quarterly on the status of the projects as well as notices of meetings and community gatherings

A four day winter festival will be held in Pioneer Square during the month of December. A variety of fun family-friendly activities are planned including ice carving, interactive arts and crafts, food and music. Decorative lighted wreaths will be placed along First Avenue to create a festive atmosphere and light the way to Pioneer Square Park, the site of most of the activities. The additional lighting will help from a public safety standpoint and will encourage the community to attend the event. Outcomes: 1) Pioneer Square will be seen as a safe family-friendly location; 2) The increased lighting and festive atmosphere will encourage positive nighttime activities in the area and 3) This event will foster a connection between the patrons and residents of Pioneer Square.

2456

Improvements at the Ravenna Eckstein Community Center include replacing the existing playground equipment and enhancements to the surrounding playground/court yard areas. The goal is to meet

playground/court yard areas. The goal is to meet safety standards and make the playspace ADA compliant. A community gathering space will be created for the neighborhood complete with benches and picnic tables. Other significant improvements will be accomplished at this site using Pro Parks funding. Outcomes: 1) An attractive community gathering space will be developed. 2) Play areas will be safer and more accessible to all ages and abilities. 3) Partnership with Seattle Parks resulted in the development of a comprehensive improvement plan for the larger community center park areas.

This project will allow the Puget Ridge Neighborhood Council (PRNC) to increase the number of people who care for Vivian McLean Park and other public open green spaces along the Puget Creek, and inspire residents to live more locally by relying on each other more for recreation, friendship, products, and services. (This would not only create more community, it would mean less driving—important for stopping global warming.) Outreach funds will be used to expand the neighborhood e-mail list, a key means of neighborhood communication, and the general membership list of addresses, and phone numbers. The council members will establish a Thanksgiving weekend tradition that includes planting native plants in local green spaces, organizing food

# Neighborhood Matching Funds

# Neighborhood Matching Funds

gatherings, sharing each others cultures and talents, and promoting local goods and services.

On the Saturday after Thanksgiving, residents will plant native plants in Vivian McLean Park and then have a gathering in the Duwamish Co-housing Common House. Dinner will be provided. Local grocery stores will be asked to donate bread, salad makings, pies, and non-alcoholic beverages, and several neighbors will make pots of soup.

Participants may bring a dish to share from their cultural background. Neighborhood musicians will perform followed by a talent show/cultural sharing (open to anyone in the neighborhood, with sign-ups in advance). There will be displays of neighbors' arts and crafts. A bulletin board will be available on which people can post information about Puget-Ridge-based businesses (babysitting, home repair, music instruction, gardening, computer consulting, etc). The PRNC will ask everyone to sign in with their contact information and, if they wish, any interests or needs they have that they'd like to share with other neighbors, i.e., exercising or playing music together, car-pooling to the store. There will be door prizes and other prizes solicited from nearby establishments (Bubbles Cafe on Delridge Way and the bookstore and nursery at South Seattle Community College) — to help draw attention to other local resources.

sponsor the "Rainier Beach Summer Hummer" during Summer 2007 that will attract residents and visitors into the business district for a very special day of connection and fun. Featured will be live entertainment, a fun area for kids, a community flea market. an event guide and free transportation.

The Rainier Valley Historical Society will engage neighbors, businesses, and students to work with them to create a time capsule to celebrate the centennial of Hillman City's annexation to Seattle in 1907. The capsule will include photographs, artifacts, documents, and stories that reflect Hillman City's past and present and future. It will be installed in the neighborhood, with instructions for opening it in 2057.

4500

A public neighborhood centennial celebration for the Rolland Denny mansion, "Lochkelden" is planned in recognition of Denny's life and times. Activities include displays and presentations from the Duwamish Tribe; historical information on the original 24 pioneers who landed at Alki Beach; a display of the work of mansion architects, Bebb & Mendel by the American Institute of Architects; period costumes provided by the Ballard Historical Society; tours of the mansion and on stage entertainment. In addition, the community will have an opportunity to comment on plans to rebuild the carriage house and to open the property more regularly for community events.

the surrounding Queen Anne community the opportunity to learn and perform Cuban dance and percussion music. Members of Rueda Dance Group will be paid to teach BOC students after school twice per week for 10 weeks. Percussion instruments; dance costumes and supplies; movable stage wall and communication equipment will be purchased. The BOC will provide studio space and storage space for the instruments, stage wall, and communication equipment. The youth and Dance Group members will perform on Youth Focus Day at the Folklife Festival in May.

Seattle Tilth seeks support to embark on a community planning process to improve and enhance the teaching function of the 1978 Urban Agriculture Center and the 1988 Children's Garden. The outcome of the project is that each year, thousands of children and adults will learn about garden ecology and growing food in these valued neighborhood settings.

15000

In response to the enormous changes that have taken place recently in the South Lake Union neighborhood, the newly formed Chamber of Commerce is launching a membership drive. With the recent influx of residents and new businesses, the opportunity exists to develop a thriving and diverse economic core that enhances the vitality and quality of life of the South

enhances the vitality and quality of life of the South Lake Union area. Businesses of all sizes as well as nonprofit organizations will be encouraged to join. The outreach campaign includes the creation and printing of new brochures, the development of a logo, letterhead and membership stickers, and a spring membership event. Outcomes: Development of a brand logo and sense of identity; solicitation of at least 50 new members; and the planning and implementation of a membership kick-off event in the spring.

The Squire Park P-Patch will use juried entries from the community, including school-age youth for the design artwork portion of the fence. The award will pay for artist services for design ideas and supplies. The proposed design will reflect a brief glimpse of the history of the Squire Park neighborhood.

3300

The Starkey's Orchard Neighborhood Group will design improvements to the attractiveness of the Handford Steps area, the improvements will include increasing stairway lighting, drainage and leaf overflow onto stairs, to increase pedestrian and creating a welcoming, safe and attractive pass-through the neighborhood.

local businesses, schools, nonprofit organizations, neighborhoods who normally do not participate in community activities to attend public meetings, work parties to participate in planning process.

Outcomes: Establish a steering committee; produce construction documents for physical improvement and maintenance plan for the stairs.

The Students Conservation Association group will organize three work parties to refurbish a part of a bend in the Lower Loop Trail of Camp Long that was damaged after the last winter storm and that has created a dangerous hole next to the trail.

Outcomes:

A steering committee to oversee the project will be organized.

Three work parties will be organized to work on the trail.

A stump will be removed, fill in the hole, widen the trail, and gravel along a 75 foot-long stretch of the trail.

A 75 foot section of the Lower Loop Trail will be leveled and completely graveled. There will be three water bars strategically in place to protect the trail from future damage.

Middle School and the Secondary Bilingual Orientation Center will be matched with ten or more neighborhood businesses and organizations to participate as work study students or interns. Students will gain real world experience through collaborative school and community partnerships. Youth participants will be surveyed at the start and end of this pilot project to measure gain in real life work skills.

The third week of May 2007 will be designated as Taiwanese American Heritage Week in Seattle. To celebrate the uniqueness and to recognize the contributions of the Taiwanese American community in Seattle, a series of cultural events are planned that include cultural exhibitions folk music, folk dance and historical film presentations. This project will be accomplished through the combined efforts of an intergenerational team of volunteers representing elders, youth, University of Washington Students and the Seattle Taiwanese Community Center.

Outcomes: Community awareness of Taiwanese American Heritage will be greatly enhanced; Elders will be able to share familiar cultural activities with a new generation; The contributions of the Taiwanese American community in Seattle will be recognized and celebrated; The spirit of volunteering will be encouraged and supported.

ISAFF 2007 is a five-day festival of South Asian independent films, workshops, and forums. The objective is to encourage cross-cultural solidarity, respect and understanding through an exploration of cinematic representation of the cultural, social, political and global issues concerning South Asia. Outcomes: Promote cross cultural solidarity, respect and understanding of South Asian issues; Increase dialogue on issues of race, ethnicity and social justice; Improve community awareness of social, political and economic injustice.	15000
To preserve the Center's accessibility to its ethnically and socio-economically diverse community, the project will construct two new outdoor courts, a 10' high chainlink fence surrounding the courts, concrete retaining wall, stairs and walkways to the tennis courts, storm-water drainage and irrigation improvement. The new courts will enable the Center to increase the number of free youth clinics that it currently offers, thereby, enhancing their outreach to low-income youth and youth of color; and will support tennis programs offered at local high schools.	75000
The Afican Conexion, a consortium of black and latino organizations and individuals, will produce and present "The African Callejon" a bilingual staged musical reading that explores issues of race and class using the setting of a Callejon - or neighborhood	15000

using the setting of a Callejon - or neighborhood gathering place in the African and Peruvian cultures.

The African Conexion, a consortium of black and latino organizations and individuals, will produce and present "The African Callejon" a bilingual staged musical reading that explores issues of race and class using the setting of a Callejon - or neighborhood gathering place in the African and Peruvian cultures.

15000

This project includes physical improvements to the interior and exterior of the shelter house on Pinehurst Playfield. The enhancements include mechanical and electrical upgrades, painting, new exterior/interior doors and windows, appliances and masonry work. This will allow the facility to be used year round as a community gathering space.

39600

The Somali Women's Organization will provide a unique chance for East African/Muslim women and girls to maintain their religious beliefs and cultural customs and gain access to customized fitness classes and water safety instruction in public pools in SE and SW Seattle. The outcomes will include helping to prevent injury and drowning around bodies of water; building the self-esteem of the participants; and inspiring other females within the culture to also seek alternatives to traditional swim instruction and water safety.

The Somali Women's Organization will provide a unique chance for East African/Muslim women and girls to maintain their religious beliefs and cultural customs and gain access to customized fitness classes and water safety instruction in public pools in SE and SW Seattle. The outcomes will include helping to prevent injury and drowning around bodies of water; building the self-esteem of the participants; and inspiring other females within the culture to also seek alternatives to traditional swim instruction and water safety.

5742

The Transgender community is characterized at this time by a sense of personal and community isolation. We want to create a week-long series of events with accompanying banners to build a higher profile for our community and to enhance the quality of life for transgender people in Seattle.  
Outcomes: Increase visibility and presence of Transgender community. Increase opportunities to learn about Transgender community. Improve the awareness and support for the Transgender community

15000

This project is the first step of a comprehensive program to make flower and vegetable gardening safer, easier, and more available to Tri-Court residents and to create an attractive gathering space for the community. Activities include a community

Museum without Walls

# Neighborhood Matching Funds

for the community. Activities include a community clean up, purchase and instillation of a tool shed, new lattice, planters, hose system, top soil and plants. Outcomes include: beautifying the property, fostering neighborhood ties, bringing together residents of Tri-Court, and establishing good working relationships between residents and Seattle Housing Authority management.

The University District has a rich and diverse legacy. This project will identify those who shaped the community and bring their stories to life through art, in the form of a walking "Museum without Walls." The "museum" will appear in various locations throughout the University District. The art work will be a diverse representation of exhibits, performances, perhaps even sculptures. The locations will be identified after the community process has been completed and the exhibits have been chosen. This effort will reach out to and involve seniors, homeless youth, UW students, residents and businesses. A project manager, working with the community, will select the first exhibit, and develop a working plan to complete the project.

Outcomes: Identification and celebration of the rich and diverse legacy of the University District; Increased respect for the buildings, landmarks and significant events that are part of University district

history; Stronger links between the campus community, homeless youth and other residents.

A diverse coalition, led by the University Heights Center for the Community, will develop a plan for the acquisition, redevelopment and long-term sustainability of the entire University Heights site. The collaborative efforts will ensure that this key location in the heart of the University Urban Center will become an outstanding community amenity for the surrounding neighborhood and the city.

59438

The Vietnamese Community Activity Center will organize and host a special "high visibility" festival in Southeast Seattle that highlights the diverse local area businesses and communities who were impacted by the construction of the Sound Transit Light Rail project on Martin Luther King Jr. Way. Outcomes include: To bring together a broad base of support of businesses, government agencies and community-based organizations.

15000

The Vietnamese Friendship Association, in partnership with Chief Sealth High School, the Office of Family and Community Partnerships, and South Seattle Community College, will actively engage Vietnamese parents through workshops, discussions and events to increase parental involvement and increase student's academic achievement.

Voces Latinas will develop and implement a Mentoring Program designated for 20 bilingual migrant students from the West Seattle High School. The project will involve community members from different sectors like school, district and the community at large to train eight mentors that in turn will help students to achieve their goals in education.

7700

Outcomes:

20 bilingual students grade 9th will be matched with mentors to work on a planned curriculum to prepare their student portfolio. At the end of the project the students will have a portfolio with the following information:

Students goals and their accomplishments

Resource list from the school, including attendance, teacher's contact information, health clinic, teens counseling, career center, WASL help and student support.

Plans for the second semester of the four-year plan.

Resources to complete the 60 community hours

diverse community, as well as the wider population.

To create safe and engaging play areas, the Whittier PTA wants to connect two woodchip areas to install an additional play feature. In order to do this, the footprint of the play structure area has to be realigned, the new area excavated and leveled to match the existing play area, a cement retaining wall must be built and matched with the asphalt playground, and a piece of the Sea Serpent art sculpture must be moved.

15000

This project is an indigenous climatic solutions summit offering free public gathering intensives in October, November and January of 2008. The summit will offer teachings through stories, songs, chants, drumming and ceremonies facilitated by Native American healer elders Angaangag, Eskimo-Kalaalit, Whitebear, Apache, and Joseph Tajalle, Cherokee-Okinawan. Diverse communities and neighborhoods involved in the summit will be brought together into healing circles to collaboratively focus upon environmental healing solutions. An opening gathering event at the Daybreak Star Cultural Center in Discovery Park will welcome indigenous elders, healers, Native and non-Native community individuals of Seattle to the Summit. Outcomes:a) stronger bonds between Native American Communities, organizations and agencies,

b) new bonds between non-Native communities,  
c) stronger collaborative communities involved in  
future environmental projects,  
d) increased knowledge of climate protection issues  
and solutions,  
e) mentoring of youth

The 2030 Vision group will develop a brochure and visual presentation. This will help to convey our vision and goals within our planning dense and text-heavy documents to community members, City Council and other City officials who are unaware of our group's planning efforts.

3600

The 33rd Ave NE Vision Group is spearheading a community process that will transform the streetscape of one long city block in the heart of the Lake City Urban Village area from a "back alley" street into a vibrant green and safe walking street in the midst of significant urban growth. Matching Fund support will provide for professional design assistance, coordination among relevant City agencies, a public involvement process and the development of a funding plan.

15000

The project will organize the neighbors to clean up litter with an 8 block radius clean up around 12th Avenue & East Jefferson Street. The area is known as Little Ethiopia and will involve the diverse

Adams Elementary Playground  
Enhancement

# Neighborhood Matching Funds

as Little Ethiopia and will involve the diverse community via bilingual information flyers, Seattle University students, the 12th Avenue Planning Committee members, apartment dwellers and condo owners.

The area is in need of litter clean up and will instill neighborhood pride. The community will have a greater sense of unity and accomplishment having successfully organized and executed this event. This is a great opportunity for the neighborhood to come together and work cooperatively at this highly visible location. This project will beautify the neighborhood by fortifying and sustaining the traffic circles. It will bring the community together by promoting unity and civic pride. This is an excellent opportunity for community members to get acquainted and interact on a positive note.

Adams Elementary PTA members and other community volunteers will conduct a major fundraising campaign to finance improvements to the school outdoor play area. The Neighborhood Organization will develop a design for a new play area, extend the playground creating a new play area, upgrade the existing play structure to comply with safety codes and install new play equipment, create an outdoor-themed wall mural and related sculptures, and add

age-appropriate basketball hoops and a wall ball court. Volunteers will also plan and implement a groundbreaking event and a grand opening celebration event.

Album de Familia (Family Album) is a photo and interview project that will collect images and voices from the LGBT Latino community in Seattle, WA during the month of June 2008. The goal is to provide disposable cameras to 5-8 volunteers to document moments of their lives in Seattle. Individuals will use the photos as an opportunity to talk about their coming out stories, their migration from countries in Latin America and to document moments of their lives in the Emerald City. The photos will be compiled in photo albums that will be used to create dialogues among participants and their immediate friends and family. The group will organize an evening celebration to share and celebrate their stories and photos with the Latino LGBT community.

250

Arbor Heights Elementary PTSA will replace four basketball hoops and backboards that were removed by the District because of lead paint contamination. Outcomes include:  
Four replacement basketball hoops will be installed:  
Two will be used to replace existing hoops in their former location, and two will create a new basketball court.

court.

A work party will be organized to excavate post holes, pour and settle the concrete, set anchor system.

Load dirt and dispose, erect basketball posts.

Resurface asphalt for court and repaint.

Arts in Motion (AIM) will organize a capacity-building project that will help expand services to Rainier Valley youth. Infrastructure development, outreach, and volunteer growth will provide the means to realize the ultimate goal of the project: sustaining the future of their children's art/cultural education.

98650

The Ashia Circle group will organize a one-day conference for African American girls that will focus on activities to strengthen self-esteem and racial pride, as well as community building to promote racial and social justice. The conference will be based on a Kenyan tradition of community self-help events called Harambee. The theme of the conference will be to honor differences and unique qualities of one another. Outcomes include:

14289

One-day conference in April, 2009.

The conference will host 100 girls ranging in age from 10-14 from Seattle Public Schools.

Provide an opportunity for girls to develop a network and create a circle of friends and possible mentors.

Five different workshops on mind, body and spirit will be offered at the conference.

Gang Intervention/Crime Prevention  
Youth Cultural Education Project

# Neighborhood Matching Funds

During the 1st annual Crank it Up music, bike, and art, festival located at Cesar Chavez Park, bike organizers and artists will assist kids and adults in this diverse community to decorate bikes. This will encourage community members to create and infuse their own cultural and ethnic look to their bike. This will give South Park's diverse community members an opportunity to experience and learn from one another and increase awareness of an environmentally friendly mode of transportation. Great music, innovative art and fun activities are planned. This is another opportunity to utilize Cesar Chavez Park, a great community asset.

250

This project is designed to outreach and recruit two separate groups of African American boys (12-15 & 16-18) who are gang-involved. Each group will attend a one-week, intensive cultural education/values reorientation program. This week-long process will include AA history overview, presentations, field trips, film/media processing, individual and group sessions, and community service project. The younger group will receive a \$200 stipend at the end of the session, the older group \$300. Each participant will choose a mentor for consistent, long-term follow-up. Youth will be part of the development of the project, and will spearhead ongoing outreach, training, and re-education of their peers through school projects and

other endeavors. Hoped for outcomes include a reduction in gang participation and youth violence as well as attitudinal changes in perceptions of gang activity.

The group Block Watch Census Track 98 and SNAP Program are being trained in disaster response to that effect they will purchase one large weatherproof container and stock it with emergency equipment and place it in a central location where it could be accessed by the 30 block "SNAP" volunteers.

1000

Outcomes:

Purchase of one large weatherproof container and stock it with emergency equipment.

Preparation of an inventory for the container.

One work party to organize volunteers to prepare the site for the container and at the same time to get familiar with the site and the items in the container.

Organization of a Block Watch Night out Potluck.

Three members of the group will attend SNAP classes.

To provide information and encourage individuals to get involved in the neighborhood planning update process at link light rail stations with an outreach event Saturday, October 25 @ NewHolly Gathering Hall, 7054 32nd Ave South.

# Neighborhood Matching Funds

Phinney neighbors are organizing in an effort to beautify two traffic circles located on North 73rd Street at Dayton Avenue North and Fremont Avenue North. Following a general clean-up, the plan is to refurbish the circle with new plants and bulbs. Neighbors are providing additional plants, tools and food for the work parties. They are working with the Seattle Department of Transportation to establish a maintenance plan to ensure long-term care.

This project will create a cultural and language exchange program with English-speakers and Latino immigrants. The program would have Spanish and English classes followed by a "talk time" where they will be able to interact and use language they just learned, while building relationships across ethnic and language groups.

8300

The Cascade Children's Cultural Arts Co-Op is launching a membership drive to increase volunteer participation in developing artistic outlets for children and to bring the community together through performing arts. The campaign will kick off with an arts camp where volunteers will share foreign language, drama, dance, drumming, music, writing, chorus, sewing, martial arts, visual arts and culinary skills. A community BBQ will follow the arts camp. This is an excellent opportunity for community members to see the positive influence that arts can

members to see the positive influence that arts can have on youth. Co-op members will follow up with participants to secure their participation in developing the work plan and setting priorities for the coming year.

This project will provide technical assistance to micro-businesses through three seminars that will increase the participant's knowledge and understanding of business plans, marketing plans, and tax and business law and provide mentorship and networking opportunities. A part-time program manager who will plan, organize and recruit participants to the program will be hired. In addition, we will recruit speakers, secure facilities, develop and distribute market materials. They will follow up with businesses to connect businesses to resources.

13000

The Central Area Senior Center will develop an intergenerational workshop series using interviews as a method to facilitate discussions about how past policies, decisions and practices have impacted the quality of the seniors' lives and lessons learned that can be shared with future generations.

Outcomes include: A report will be compiled of the results or feedback from the twelve 1.5 hour workshops.

1250

designed to expose, explain, instruct and document the process, techniques, and skills required to assess the history, plan, and design their neighborhood. The primary focus is the development of a documentary of the history, leadership training, and technical skills needed to address urban redevelopment, city planning and community development issues they are facing today.

The proposed project will be to hire 10 youth from the Rainier Beach Community to help develop and inform the community about the campaign to build the Rainier Valley Youth and Family Empowerment Center, which will be a multi-service program for the youth and families of the Rainier Beach Community. Outcomes include empowering the youth, helping youth focus on career goals and developing an awareness of their leadership capabilities.

14110

We propose developing a green and sustainability student project by hiring 7-8 youth from Central House's Youth Leadership Project to develop a plan to move Franklin High School toward becoming a green school. Students will research green and sustainable options in their high school, as well as in their homes. They will educate the student body, high school staff, and families about their findings.

15000

Following the successful Night Markets of 2007, it was clear the community would rally around the

# Neighborhood Matching Funds

was clear the community would rally around the continuation of this culturally rich experience. Community stakeholders have come together and developed a business plan that provides the organizational structure, community roles and objectives for the continued growth and development of the Chinatown International District Night Market. We seek funding to ensure the Night Market becomes a sustainable and celebrated community event.

The newly formed Columbia City Community Council is planning a community brunch during the month of March. The intent is to produce a family friendly community event that will raise awareness of the group's activities, make contact with a broader cross-section of the neighborhood and double the average attendance at the monthly meetings. Outreach efforts include translating the invitation flyer into three languages commonly spoken in the neighborhood and door to door solicitation. The goal is to have their membership reflect the full diversity of the neighborhood by bringing people together to build a shared vision.

750

Community partners on Capitol Hill will organize a Teach-in about Food Politics. By educating students and the broader public about the roots of the current food crisis, we aim to increase participation in the local and global food justice movements to build a just

cars and onto the streets to discover the many ways to enjoy Columbia and Hillman City neighborhoods without a car. Community members are planning a neighborhood dance as a way to get folks to mix and mingle.

This project will produce a free concert at the Seattle First Baptist Church on May 30, 2008. The performers are members of the Diverse Harmony Youth Chorus, a straight and gay alliance youth chorus group. The group currently has 15 members and is recruiting members for the chorus at several high schools in the Seattle area. Their goal is to contribute to the performance arts on Capitol Hill and First Hill neighborhoods, as well as to provide a venue for youth to express themselves through singing and being a part of a chorus. The board of directors of Diverse Harmony has been meeting for the past months to plan the event and expect the number of volunteers will increase as a result of the concert to support the Diverse Harmony Youth Chorus.

250

Our Youth Outreach and Development Program helps East African at-risk youth in south Seattle build positive futures. The neighborhood-based program will provide age appropriate services, leverage existing community-based resources, develop life and leadership skills, build new support systems and support young people's desire to improve quality of

support young people's desire to improve quality of life. Youth participants will develop cross-generational relationships and connections with community partners.

Organizers will conduct a design process and develop permitting for the Eritrean Community Center Expansion. This Center development will replace a structurally unsafe house with a 4,800 square foot addition to accommodate community-building, educational and cultural activities. The requested funds will be used to develop architectural/engineering drawings needed for a building permit.

100000

East African immigrant communities strongly adhere to their traditions and cultures. As they struggle to adapt to western cultural norms, this has become more difficult. This project is an opportunity for them to share the beauty and vitality of their culture and keep to traditions alive with their youth. Several months of organizing, outreach, training, and preparation will culminate in a daylong celebration of Ethiopian culture and traditions. The final event will include ethnic food, art and artifacts from East Africa, workshops and a fashion show. Youth will showcase their computer skills with a multimedia presentation that they have researched and produced. They will also read poems and other literary works in their

also read poems and other literary works in their native language. Seniors and youth of all backgrounds will learn traditional dances in order to perform during the event. There will be opportunities for the larger community to participate in all elements of the project. Through this celebration they hope to build closer connections between themselves and their neighbors.

The goal is to form a group of neighbors interested in designing a play area in an under-utilized park in our neighborhood. We will prepare an attractive petition to the Parks Department to obtain their support and also will provide information about our petition to the neighbors by inviting them to participate in a BBQ at the site of the future playground.

250

Organizers, having been trained in emergency preparedness, plan to share this knowledge with neighbors in their Rainier Valley neighborhood at a gathering in a home.

Fauntleroy neighborhood, profile what it is today, and explore the challenges of retaining and nurturing community in an increasingly urbanized city.

Outcomes:

Story research, script writing, and conduct interviews of community members.

Photo scanning, cataloguing of existing and new footage of historic events in the Fauntleroy neighborhood.

Production and distribution of DVD

Screening of DVD and celebration

750

The Fauntleroy Community Association's goal is to increase the membership of the organization and provide information about issues relevant to the neighborhood as well as the organization to new and long-term residents that may not be aware of the organization. The project is to produce, print and mail the newsletter with a calendar of activities that will be distributed to the community in 2008. The group will hold a community meeting in March 2008 and expects that the attendance will increase as a result of the interest created by the newsletter.

First Hill Community Council (FHCC) will reclaim View Park as a historic viewpoint and precious open space for the First Hill community. In conjunction with efforts to name it the Edward S. Curtis Lookout Point, FHCC will work with Coyote Central to engage community

will work with Coyote Central to engage community youth in creating 24 viewfinders for the western wall.

The proposed project is a historical survey of the Fremont neighborhood. It would implement Fremont Neighborhood Plan recommendations. The survey will include buildings at least 50 years old. The focus will be residential buildings, mostly single-family houses. A subsequent phase of the survey would address commercial and industrial buildings.

14950

The Friends and Neighbors of North Admiral Committee (FANNA) are working to build support within the community for the development of a playground in California Place Park (California Ave and SW Hill). As part of the initial phase, they are seeking funds to hire a landscape architect to assist with the design of the project.

Outcomes include:

- Organizing the steering Committee.
- Develop a RFP and conduct a hiring process for a landscape architect.
- Conduct three facilitated public forums to design the playground.
- Development of outreach materials to be distributed to the community during the length of the project.
- Develop written report with recommendations for design to be distributed to the community.

# Neighborhood Matching Funds

the Neighborhood Organization will restore and beautify a steep slope planting strip with low maintenance, erosion and drought tolerant vegetation and also improve parking safety and address a potential health hazard by eliminating a habitat for rats. The group will contract with a goat vendor for removal of ivy and invasives. Volunteers will conduct at least 6 work parties to hoe and grub roots, amend soil, lay matting for further weed control, and install new landscaping. A food team will prepare work party lunches and volunteers will film and edit a videotape of the project. Volunteers will enter into a 3-year agreement with SDOT to maintain the landscaping. The use of goats for removing vegetation from a planting strip is a pilot.

15000

The Friends of Colman Park project will construct a new 660 linear foot trail to provide access for forest restoration, ongoing maintenance and recreational opportunities for the adjacent community. Community volunteers will remove invasive plants, construct a crushed rock trail and plant native trees, understory shrubs and ground covers.

14374

Outcomes include: Increased pedestrian access into the park.

Provide forested links to Lake Washington and nearby parks.

A long-neglected urban forest will be restored creating

Strong community building ties increased among the community and neighbors.

Access into Colman Park at Dose Steps.

The Friends of Denise Louie group's goal is to increase the membership of the organization and build a coalition of supporters and volunteers to provide information about issues relevant to the community by using a communications strategy that includes an E-Newsletter, a message board/blog and quarterly meetings. The project is to produce an outreach community event in May 2008. The group expects that the attendance at the Children and Families Festival on Saturday, May 17, 2008 will increase as a result of the interest created by the communications strategy. A small group of 10 volunteers has been meeting for the past months to plan the event and expect that the number of volunteers will increase to approximately 100 by the end of the summer to support the Denise Louie Education Center and the neighborhood that it serves.

750

The Heritage Literacy Club is an after-school literacy program that serves Latino students in grades K-12. Middle and high school students serve as tutors for elementary-age children and work with them on literacy skills in Spanish. Tutors receive a scholarship, encouraging them to complete high

summer community school for hard to serve middle school aged youth who live or go to school in the Central Area. The project focuses on empowerment and connecting the youth and their families with services in their neighborhood. Youth, their parents, and the surrounding community will participate in 12 monthly, intergenerational forums and establish a structure that can keep this kind of communication happening into the future.

Bringing the Children back into International Children's Park is a collaborative effort between multiple community stakeholders to make physical improvements to the park. Such changes will increase park usage and dispel suspicious activities. Phase II will finalize a design based on ideas gathered through extensive community outreach during Phase I.

15000

The overall project daylights and reconnects approximately 1480 lineal feet of natural spring-fed Madrona Park Creek to Lake Washington, located along a threatened juvenile Chinook migration route from the Cedar River to Puget Sound. Specifically, this grant request would help fund creek daylighting and restoration of approximately 460 lineal feet of Madrona Park Creek upper reaches, reconnect 2/3rds of the total creek flow to Lake Washington, and build two ADA-accessible pedestrian bridges over the

two ADA-accessible pedestrian bridges over the restored creek in Madrona Park.

This project will engage the community to develop and implement phase one of an improvement plan for the McDonald School play areas. Proposed improvements include adding a younger child play structure, repainting ball courts, additional benches and picnic tables, and enhancing play area landscaping.

15000

The Friends of NewHolly Coordinating Council will lay the groundwork to formally establish the NewHolly Coordinating Council. This Council will create a strong partnership of New Holly residents, non-profit and public agencies to support leadership development, community building, and organizational capacity for those who live or work in the New Holly neighborhood.

15000

## Outcomes:

Hiring a consultant, 2 UW students and 5 community facilitators to develop surveys and facilitate the public process.

Conduct 3 focus groups with residents of NewHolly.

Conduct a basic background research/documentation of the NewHolly Neighborhood Campus goals, programs and services.

Prepare recommendations for next steps in

Prepare recommendations for next steps in formalizing NewHolly Community Council, developing needs assessments; present and discuss with coordinating council.

Both the direct neighbors and the community at large who visit Salmon Bay Park have come together to put in a traffic circle at the intersection of 70th and 19th Ave NW. Cars come flying down 19th making the park dangerous to both children and dogs. SDOT will install an ADA ramp and Seattle Conservation Corps will construct a traffic circle and curb bulb. Community volunteers raised cash match for the construction and will also create children's handprint art tiles and install landscaping plants. The community will sign a maintenance agreement with SDOT for future maintenance of the landscaping.

8550

The Seward Park Playground Improvement Foundation will develop a concept plan and cost estimate for a new, unique and interesting play space at the entrance to Seward Park that appeals to diverse children of all ages. The project will revitalize the area as a safe and fun exploratory place for children. The safety and usability of the playground will be greatly improved.

Outcomes include: This project will ensure public participation in the design process; neighbors will be united; park improvements will be ADA accessible;

of Seattle's arts and recreational heritage. The signage will keep the history alive and pay tribute to those who had a hand in its growth and development.

Community members surrounding West Seattle Elementary will create a new playground suitable for preschool-aged school and neighborhood children and their families. It will be an opportunity to engage families from the merged High Point Elementary and Fairmount Park Elementary schools.

14265

The Friends of Yoruba In Diaspora invites the city of Seattle to "Experience a Day in Yorubaland". This family friendly community event will feature authentic cuisine from West Africa, story telling, a youth fashion show, Yoruba mask making and tie-dyeing, and a traditional Yoruba wedding ceremony. This project will foster race relations and social justice through interactive and enjoyable activities that inform, share and experience the vibrant Yoruba culture in Seattle.

15000

Our proposed project is to have a dance school for youth in the Central District community led by the youth. Our idea is for the girls to create several routines that they would then, over the course of the summer, teach to children and perform for the community. Our girls are interested in setting up and running all aspects of the program from the design of the uniforms to marketing and running the final show. The youth will act as the leaders making most of the

The youth will act as the leaders making most of the decisions of teaching methods, schedule and class size. The adult leaders will act as support staff for transportation, handling payments and reserving and renting facility space.

This project will remove invasive vegetation and plant native trees & shrubs in the Genesee ravine, adjacent to Cooper Elementary School. This revitalization will aid in the improvement of the West Duwamish Greenbelt, providing enhancement to adjacent interconnecting trails, while providing environmental education opportunities for the community members and local students.

15000

This project will teach tile design at Georgetown's Summer Artopia Event, scheduled for Saturday, June 28, 2008.

250

During Georgetown's Artopia event a local artist will be organizing a community art project by using recovered bricks from a recent demolition of a landmark Rainier Cold Storage building. The print making project will use the surface of the bricks to ink and hand print on a large tarp creating a new "art wall" that will be displayed in the community.

250

The Georgetown Merchants Association will create a Georgetown website that serves a multitude of needs and represents as many community groups as

possible. The site will be an all inclusive neighborhood web site that provides portals/information about everything from arts to advocacy, history to current events.

Outcomes include:

Create and design the layout of a site that will consist of a walking virtual map of Georgetown, a community calendar for the residential and neighborhood events, business and links to other websites of interest that will serve as a central resource for the business and community of the Georgetown neighborhood.

Organize committees to work on the different components of the website.

Hire a consultant to develop the website.

Gay, Lesbian & Straight Education Network  
Washington State (GLSEN) wants to spread the word about its work to end school-based bullying and harassment and to recruit new volunteers. GLSEN is an all-volunteer organization and the support of the Seattle community is critical to its success. In order to spread our message and reach out to a sympathetic volunteer pool, we would like to build a float for the 2008 Pride Parade. Volunteers will work on constructing the float. The group will hold a meeting to organize volunteers and brainstorm ideas for a theme for the float a week before the parade.

# Neighborhood Matching Funds

The recently formed Golden Gardens Community Association is planning a membership campaign that includes an expanded website, community survey, a flier to introduce the association to neighborhood residents and a community potluck picnic at Golden Gardnes in September. The goal is to add to the 40 enthusiastic participants who attended the first association meeting and indicated an interest in community building, environmental stewardship and safety. The survey will assess the needs and interests of other potential members and will help set the agenda for the rest of the year. Volunteers have already committed to developing the fliers, maintaining and updating the website and delivering invitations to the picnic door to door. Outreach will also extend to other community organizations like Sustainable Ballard and the Cascade Bicycle Club whose members might also be interested in joining the association.

100000

The purpose of this project is to make it easier for people to work together to get sidewalks in Greenwood. The project includes an easy-to-understand how-to guide to neighborhood organizing, planning, designing, engineering, funding, building, and maintaining both traditional and attractive alternative basic street improvements related to sidewalks in Greenwood. This project also includes

the identification of pilot blocks that would become the next steps in concretizing the fruits of this planning project.

The Henderson and Trenton Block Watch Group is comprised of three blocks of diverse families who are committed to making the South Park community safer for all who live, work or visit there. They organized in response to increased gang activity, graffiti and violence. These occurrences challenged them to create more meaningful connections among neighbors. To increase their chances for success, they will send a representative to the “Multiple Victories Training” sponsored by the Pomegranate Center. This series of five Saturday workshops will strengthen community leaders in areas such as creating community cohesion, building momentum and organizing and leading dynamic meetings. The information from the training will be shared at the monthly block watch meetings and will help them to work more cooperatively as a neighborhood.

450

Heron Habitat Helpers, a nonprofit dedicated to the restoration and preservation of Kiwanis Ravine Park, community volunteers, and Earthcorps will prepare and plant a half-acre called the Stevens Addition, restoring it to a forest-edge habitat. Included in the community match is \$35,000 of mitigation funds from Sound Transit that will be used to restore the

Sound Transit that will be used to restore the wetlands adjacent to the project site. Native plant restoration of this former residential tract will create a sustainable area of carbon sequestration and add critical habitat linkage between Discovery Park, Kiwanis Ravine, Salmon Bay, and Shilshole Bay. An outreach strategy will be developed and implemented to better publicize the existence of Kiwanis Ravine to the Magnolia community.

The Hillman City Business Association (HCBA) would like to obtain funding to hold three public events to build and celebrate community; to build on the current momentum, which is strong, and continue to offer events that bring people out, provide for fun, and supply the opportunity to learn about each other and what's happening in the neighborhood.

15000

In honor of Hip Hop History month in November, Seattle independent Hip Hop Film Festival, spotlights the power of Hip Hop culture and community as a positive social change force from a local to global perspective. This will be done through a three-day, interactive, multimedia showcase of grassroots urban arts culture at the Egyptian Theater on Capitol Hill.

attending, we will conduct a public event to celebrate their contribution to the Greate Northwest community at-large as well as unveiling the "Late for the Interurban" statue memorializing their work.

Plan, design, outreach, and build the expansion of a Children's Garden in the Chinatown/International District that will teach children and youth about sustainable gardening practices, and which will serve to promote a sense of cross-generational community among residents of and visitors to the International District's Danny Woo Community Garden.

15000

This project will promote the real-life practice of sustainability and help educate Seattle residents on steps they can take to reduce greenhouse gas emmisions through 1) diverting materials from the waste stream and extending their use, 2) sourcing garden materials locally, and 3) informed food production and shipping choices.

11550

The Community Connection Camp is a one-week summer training session for youth and families of the Rainier Beach area. The primary goal is to engage underprivileged youth in creative and expressive art forms (Capeira Angola, samba, percussion, and African dance) in order to strengthen community bonds and increase future participation in community cultural events.

Community mobilization project that provides support, education, information, and resources to African-American women of childbearing age, including helping them access health care and improving the community's capacity for providing support to women and families helping to buffer the effects of chronic stress caused by racism, and ultimately improving birth outcomes.

50070

The Jackson Place Community Council is seeking to expand its membership and to secure broad-based community support to carry out neighborhood initiatives. In an effort to increase attendance, they will publish a newsletter in advance of their quarterly neighborhood meeting planned for March 10, 2008. Participants at this meeting will help set the Council agenda for the coming year. The publication will be sent to all residents and businesses in the community. It will be written and edited by community members and will stress the need for more neighborhood representation on the board and standing committees. The goal is to establish a neighborhood identity, increase awareness of community resources and encourage more involvement in neighborhood issues and events.

475

Green My Ride is a free alternative transportation fair at the Phinney Neighborhood Center, 6532 Phinney Ave. N., Seattle, on Saturday, April 26 from 9:30-3:30.

who are victims of domestic violence.

John Muir Elementary's playground is the neighborhood's largest piece of open public space and is used by students, children in the Camp Fire before/after school and vacation programs, and neighborhood families after school and on weekends and vacations. With Small and Simple funding, a master plan was recently developed with community input to plan an upgrade to the school's yard to make it more inviting to the public and to make it more functional and attractive. This request is for funding for the detailed landscape design based on that master plan. The project steering committee will continue to conduct outreach to invite input on detailed design, notify broader community of planned construction, and encourage participation in next steps including fundraising and volunteer work parties.

15000

Funds will be used to hire a landscape architect to develop a site plan and playground renovation design at John Stanford International School. The landscape architect will facilitate a public input and design process through a series of public meetings.

15000

Organizers, having been trained in emergency preparedness, plan to share this knowledge with neighbors at a gathering in a home.

together with our newer residents. This will include renters, first-time buyers and others who are new to Seattle and/or Pigeon Point. A celebration will be organized to include live entertainment with music, spoken word and visual artistry; a table to register voters and other information sharing booths for interests of gardening, computers, home remodeling and cooking. The event will also include a neighborhood-wide potluck.

Pinehurst neighborhood social event to build community and raise awareness of environmental and climate issues and what Pinehurst neighbors can do to make a difference in reducing their impact to global warming.

2820

The Laurelhurst community has organized in order to purchase new equipment to be installed in the Laurelhurst Park Playground, adjacent to the newly renovated community center. The existing equipment is in the bottom 12 of playgrounds around the city in terms of safety and age. The new equipment will be specifically designed for children ages 2-5, and will enhance the limited recreational opportunities currently available for this age group.

15000

This project will create a plan for, and one pilot of, a series of small gardens for a 'pollinator pathway' for native pollinators. The Pollinator Pathway would connect existing parcels of land - starting with Nora's

connect existing parcels of land - starting with Nora's Woods, and ending at Seattle University, utilizing City-owned planting strips in the 17-block stretch along Columbia St from 29th Ave to 12th Ave.

We are a coalition of Latino organizations working on the plan to produce several Spanish-English events in the Seattle area emphasizing the fact that we are a society that needs to think itself beyond one or two languages. We are seeking funds to organize and implement two literary events that include writing workshops, book presentations, entertainment and a book exchange, as well as promotion of native languages, multilingualism, and cultural understanding.

Outcomes include:

Organize a Steering Committee.

Volunteer recruitment.

Development of two bilingual literary events that will include writing workshops, book presentations and entertainment in South Seattle.

15000

This south Seattle youth filmmaking initiative is a pilot project aimed at empowering youth age 9-18 by giving them the opportunity to learn and assume responsibility for all aspects of filmmaking by working together to create a motion picture of their own. They will be guided by adult volunteers with experience in each phase of the project.

The Emerald City Classic is a multi-event celebration intended to build community awareness about environmental and social issues among youth (150) residing in Rainier Beach and Central Area neighborhoods. Events include a HipHop and dance competition that will cover the environment and social peace, community forums about the environment and trips (two) to an organic farm in Duvall where youth will experience personal growth and self discovery. Youth will gain leadership skills, acquire knowledge on environmental and social issues, and build networks with local business.

culture and customs of India. The event will be held at the Puget Ridge Co-Housing common room on Saturday, February 23 from 4 to 8 p.m.

Phase I of the King Street Commercial Revitalization Initiative is an organizing project to engage community in the development of a plan for building a vibrant, economically healthy King St from 5th Ave S to Rainier Ave S in the International District. 15000

The Dyke March is a grassroots, political expression of solidarity among queer women, and is marked by chanting and signs. It includes both a two-hour rally at the Seattle Central Community College plaza at E Pine St and Broadway Ave E and a 1.6-mile march around the Capitol Hill neighborhood, ending back at the plaza. There will also be speakers and performers from Seattle's dyke community, including activists and representatives of many identity groups. 5000

The Seattle Hip-Hop Youth Council proposes phase two of the Youth Stakeholders Project to employ youth in positive community building activities to increase youth sense of ownership, responsibility and involvement in neighborhood development. 100000

Southeast Seattle Crime Prevention Council, one of the oldest organizations of its kind in the nation is seeking to expand its membership. Typically 25-35 people attend each monthly meeting. The council would like to see more representation from ethnic groups including immigrant and refugee populations and youth. The goal is to develop a brochure that highlights the work of the Crime Prevention Council with meeting dates and times, including information on block watch, how to contact the Seattle Police Department and a Community Police Team Map with the officers' contact information. This information will be distributed to a list of approximately 50

be distributed to a list of approximately 50 neighborhood organizations that do not regularly attend the monthly meetings. It will also be strategically placed in high traffic locations such as the public library, Community Centers, Little City Hall and other locations that have space for community notices. Working with local realtors, the brochure will also be given to new property owners in Southeast Seattle. Following the outreach campaign, a special membership meeting is planned for the fall.

This neighborhood driven design process will result in plans for a much needed fitness room at the Southwest Community Center. Community residents will come together to assess their fitness needs, and working with a design professional, develop a schematic design and project plan for the 20' by 40' area. This project will eventually support the health and well-being of residents - teens to senior adults - through a community initiated fitness program.

14472

Delridge-area residents will work together to harvest surplus produce from residential trees and gardens and distribute this fresh local, organic produce to food banks, senior centers, and schools in the neighborhood. Southwest Community Harvest will also offer community workshops on preserving produce and fruit tree care.

# Neighborhood Matching Funds

Spring Street P-Patch will design and build a beautiful, organic, community P-Patch at Spring Street and 25th Avenue. The P-Patch is located in the center of the Central District where the different cultures can work together to learn and teach organic gardening to each other and show their children how to produce their own healthy food.

15000

Outcomes include: Neighbors will have a unique opportunity to grow organic gardens together and to teach their children. A space will be created that values and respects diversity and is welcoming to all the diverse communities of the Central District.

The Squire Park Community Council is launching an outreach campaign to encourage more participation from the neighbors and employees of the businesses in Squire Park. This is especially important given the recent changes in the area. In conjunction with their quarterly meeting, a community barbeque is planned. Quarterly meetings are an opportunity to provide information to the community and to learn about community issues and concerns. This family-friendly neighborhood event will be an opportunity for neighbors to come together in a relaxed atmosphere to network, learn more about the work of the Community Council and to help establish the Council's priorities for the remainder of the year. The Squire Park Community Council will provide funding

for burgers and hot dogs, Seattle University and Swedish Hospital will furnish an assortment of salads and neighbors are invited to bring their “signature dish” to the potluck event. In addition to the great food, there will be entertainment and activities for children. The goal is to attract at least 300 participants and sign up 30 new members.

Starkey's Orchard Neighborhood Group (SONG) will foster community within and around the SONG neighborhood while implementing improvements to the safety and attractiveness of the Hanford Steps.

15000

## Outcomes:

Hiring landscape architect

Three work parties to install kiosk, clearing and grubbing and removal of invasive blackberry bushes.

Construction of plaza at the base of stairs; installation of gravel, construction forms and curbs.

Planting trees and nurse logs, grade soil and plant native plants and trees.

We propose holding a Ballard-wide bike rack design contest, open to the general public. Five winners will have their designs built by metal-artists/fabricators in ballard, and then installed by SDOT in visible locations in Ballard. This project will strengthen community and empower individuals to bring about positive change within Ballard.

positive change within Ballard.

"Imagine Capitol Hill" will debut this summer as a one-day street fair designed to unite Capitol Hill around local sustainability and environmental issues. It will spotlight local businesses, musicians, artists, and educators, enabling residents and the larger Seattle community to engage in interactive, educational activities.

15000

Sustainable Magnolia, a community group whose mission is to educate and actively engage citizens to help mitigate the climate crisis and to promote a sustainable quality of life, is launching a membership drive. The campaign includes staffing a table at the Farmers Market, development of a website and appearing at other neighborhood events. They are also planning a series of community conversations on such topics as Green Spaces/Urban Design, Eating/Buying Local Food, Energy Efficiency and Waste Management.

750

Sustainable NE Seattle community is committed to learning more about effective ways to organize our community in response to the issues of global climate change and dwindling supplies of petroleum. Their goal is to engage the community in creating solutions, and to create new relationships among neighbors. To increase their chances for success, 4 members will attend the "Multiple Victories Training" sponsored by

NE 90th and NE 95th Street. This neighborhood includes people who: 1) use this road to access the Burke Gilman Trail and Matthews Beach, 2) contribute to the sustainability of the nature conservancy in which this road exists, and 3) wish to improve the use of mass transit by making it easier to walk to nearby bus stops. The road is part of the North East Seattle Trails System, and once these improvements are made, it can be safely used.

This project will build community and improve the cityscape by constructing a lasting mural to brighten this underpass, used by thousands of cars and many pedestrians every day. It will create a neighborhood identification linking upper Fremont and Wallingford and deter crime and graffiti by partnering with community members and organizations to sponsor and participate in constructing the mural.

14951

follow-up. Will publish website, newsletter and brochures to develop a formal "Friends of Adefua" group to outreach, facilitate and develop a new cohesive image reaching out to potential refugee immigrant populations.

The Admiral Neighborhood Association is sponsoring two concerts in Hiawatha Park this summer. The goal is to create events where Admiral neighbors can come together and celebrate their community and at the same time learn more about the organization. This family friendly event will showcase the park and encourage people to take a leadership role in community activities.

750

Five north end neighborhoods are working collaboratively to sponsor a candidates forum and debate on October 13th. This will be an informative event to help neighbors assess their electoral choices and engage people to have even more of an impact on the future direction for this city. It will be an opportunity to see the candidates up close and personal and to hear how their priorities will impact our neighborhoods. Community members can also make their concerns known.

250

Friends of the 9th Ave NW Park would like to organize an Ice Cream Social to expand a network of supporters, meet new park enthusiasts, trade stories and converse on plans for the future. A flier will be

and converse on plans for the future. A flier will be designed to alert the community to the event and to good community contacts.

Organizers will put on an outdoor showing of a family friendly movies at Little Brook Park on August 1, 2009. Presenting a movie in the park provides a (and in the future possibly more) conspicuous activity for which neighbors and sponsors can directly point to and say that something has happened, ... community building with a direct result and an end that is achievable. Large group activities in the park build connections between people who were strangers to each other. Our contact lists for blockwatch and community events has grown from previous gatherings and organizers hope to expand the social network even further with Summer Night Flicks.

250

The Webster Street Blockwatch group officially began last month. To celebrate the formation of the group, the installation of block watch signs will also take place during the "Fall Harvest Party" on October 31st. The second purpose of the event is to engage and encourage residents who are not currently participating in the Blockwatch group.

250

The goal of our project is intervention, engagement and the transformation of children and youth, their families and ultimately the community of Southeast Seattle by offering after-school programs in dance

Seattle by offering after-school programs in dance and instrumental music that will help dilute issues of racial and social inequity, build bridges across cultural communities, narrow the academic achievement gap, offer alternatives to violence and gang activities and encourage new partnerships between families, schools, community organizations and businesses.

Ashia Circle proposes a leadership and mentorship training program for diverse African-descended teenagers (15-18) as part of our group mentoring programs to build familiarity and understanding among teenage girls, decrease gang and neighborhood violence and increase sisterhood and connection.

15000

The Belltown Citizens on Patrol recently formed with the primary purpose of addressing public safety issues by building community. The citizen's patrol will be a significant outreach and engagement tool for Belltown residents and businesses. It will provide a great opportunity for the community to work together in a proactive manner. Interested participants will patrol the neighborhood on a regular basis identifying public safety needs and priorities.

750

The project will create a sense of neighborhood pride by restoring a traffic circle at 31st Avenue and East Spring Street with evergreens, drought tolerant plants and flowers. The project will beautify the intersection

and flowers. The project will beautify the intersection and more importantly, develop a working relationship between neighbors in the Madrona Community.

Organizers will enlist youth to help with a neighborhood clean up (coinciding with the Bridge-to-Beach Clean Up on April 25th) and help them learn about the green efforts in their community. They will work with the Horn of Africa Services to teach social responsibility and accountability to youth in the neighborhood. This project will help the youth feel engaged and committed to the neighborhood they live in.

250

This project will build a traffic calming circle at said intersection in order to increase pedestrian and vehicular safety. Due to the steep hill adjacent to the intersection and the close proximity to 35th Ave NE, a main arterial, vehicles often approach the intersection at an unsafe rate of speed.

6802

Recruit and hire 8 homeless youth to work the 40th Annual University District Street Fair. Youth that apply, are interviewed and, if selected, attend training.

250

The project will engage the neighbors from Lower Capitol Hill in collaboration with the National Night Out event.

250

The project will improve neighborhood networking

communications. The Capitol Hill Community Council members will create a greater sense of unity by successfully organizing this event. It is a wonderful opportunity for the neighbors to convene and work cooperatively. There will be great food, entertainment and the chance to exchange information in a relaxed and informal atmosphere. This is an excellent opportunity for the neighbors to get acquainted and interact on a positive note.

This project will create a temporary outdoor art exhibition at Carkeek Park with ten installations of nature-oriented sculptural work. Artwork is to be constructed of only natural materials and be designed to decompose organically, leaving "no trace" and no impact to public property. Originated by Carkeek Park Advisory Council, the project will partner with community arts organizations (Center on Contemporary Art) Parks Department, and Senior Retirement Communities to expand arts-related opportunities and educational resources in the City's north end.

9650

This project will install plant identification markers in new wildlife demonstration garden and will print a new educational brochure.

1200

In collaboration with the Rainier Heritage Parade, Celebrate Summer Streets (CSS) will take place August 8th from 11 a.m. until 3 p.m. on Rainier

August 8th from 11 a.m. until 3 p.m. on Rainier Avenue S from S Orcas to Alaska Street (streets will be blocked off for foot traffic). The idea is to get people out of their cars and onto the streets and supporting/discovering the businesses in their neighborhoods. Trash Masters' project will provide responsible trash management by collecting the event's waste, sorting recycling from compostable foodstuffs and placing them in the appropriate bins for the event. As well, Trash Masters will be engaging attendees as they roam the event disseminating information on composting and recycling tips and techniques in the hope that this will encourage others to incorporate these practices into their daily lives back in their own homes. There will be activities for all ages, food, entertainment and a parade as well. The event is open to everyone and is an all inclusive celebration of Rainier Valley's diversity and heritage.

Sustainable South Seattle, a volunteer run organization is working to promote sustainability in Seattle's south-end communities. Currently the membership isn't reflective of the racial or socio-economic character or the neighborhood. The objective of this initiative is to build more broad-based and diverse participation by identifying issues at the intersection of race and social economic justice. A focus group with community leaders is planned as

# Neighborhood Matching Funds

well as a community forum to develop an action agenda and a viable outreach campaign. The goal is to add 15 new members with at least 5 coming from under-represented communities.

Community members will be invited to apply for an “Undrivers License” at the Rainier Valley Heritage Festival. By increasing awareness of personal transportation choices and eliciting individual car-trip-reduction pledges, participants will be playfully engaged to make more informed and empowered transportation choices. Neighbors will be encouraged to choose from a set of fun hats and props for their photos and to select their own “undorsements” for their licenses, such as walking, biking, carpooling, telecommuting, or skipping the trip altogether. They will then be issued an id card with their photo and their trip reduction pledge. This will be a constant reminder of their commitment to reducing driving time. With their permission they will be added to the mailing list of Sustainable South Seattle and will be encouraged to participate in future activities.

250

This project will create a farmers market that provides a waste free, socially conscious gathering place that: generates sales opportunities for local farmers; forges relationships between farmers and customers; facilitates social connection, and raises the awareness of wellness, all of which create healthier

awareness of wellness, all of which create healthier people and communities.

In an effort to draw more families with children into Hiawatha Park this summer, a number of community concerts are being held. To ensure that children will actually attend, the "Face the Music" project was born. A face painter/ balloon artist will be hired to inspire and entertain the youngsters. Children can dress up like their favorite artist and express themselves through dance. At the same time, their parents can enjoy the music and also learn more about the community organizations in the neighborhood where they can volunteer their time and talents.

250

Emergency preparedness and community open house event at Olmsted Manor (SHA Senior Housing) including entertainment, refreshments, and beautifying the patio with new plantings.

250

Sustainable Wallingford is sponsoring an Earth Day Happening as a means of increasing its membership. This family friendly one day event brings the neighborhood together to give and receive free services from each other. It will be held in the parking lot of a local business and will include music, face painting, tire pressure checks, plant starts and free lightbulbs. The goal is to educate neighbors about sustainability and to attract new members who are

sustainability and to attract new members who are willing to take leadership on new community initiated endeavors. They hope to sign up 15 new members.

The East Lake Union Watchdogs will be hosting a community building event in support of the Nation Night Out Against Crime. This will be an opportunity for neighbors to bond over great food, entertainment, and casual conversation. This is also the perfect forum to mobilize and inform the community about emergency preparedness. Resource tables will be available with information from the Seattle Police Department, Emergency Management and the Seattle Department of Transportation.

250

This project is focused on sustainability. We will continue our Green Project from last year, working with Franklin students to help their school and community toward making their homes more climate and environment friendly.

15000

Lake City neighbors are organizing volunteers and soliciting donations in order to paint a historical mural on the west wall of the Lake City Community Center. Visitors to Davis Park can enjoy the new artwork and the entire community will learn more about the history of the area.

250

Neighbors are planning a three-hour design/build workshop at the Hiawatha Lofts community center.

Groups of 2-3 people will build ready-made lamps with existing materials and purchases from second-hand stores. The lamps will then be showcased at the center and will serve as a “Bright Lite” even in these dark economic times.

The project will make the neighborhood safer by raising motorists’ awareness of the crosswalk located at the intersection of 29th Avenue and East Madison Street. The intersection section is close to several restaurants, shops and a daycare. The neighbors and pedestrians want cars to slow down and stop for pedestrians.

250

The project will improve safety of the Greater Madison Valley neighborhood by buying crosswalk flags for the dangerous intersection. Currently motorists tend to speed through this intersection. There is support from neighbors, parents of toddlers and the Greater Madison Valley Community Council.

The project is an opportunity to create a good working relationship among neighbors to interact on a positive note. Neighbors received support from SDOT on their project.

The Madison Valley neighborhood is coming together to create a vibrant community center at the former Martin Luther King Jr Elementary School. The multi-use facility will serve people of all ages and backgrounds through a variety of programs and

enhanced urban buffer areas reducing concrete massing (trees and native planting).

In order to set direction for the organization and to expand their membership base, the Crown Hill Neighborhood Association will hire a consultant to develop an organizational training module. The training will be based on the concept of inclusive community engagement and will also cover asset mapping and mobilization, tools for collective action, organizational visioning and planning among other topics.

750

The March For Youth, march and rally planned for Saturday, June 20, 2009 is a youth-centered event. At the rally following the march, there will be free food, speakers, and entertainment. Presentations will be positive and focus on the trauma done to families and communities by violence/gun violence among our youth. Individuals from families, specifically young people, moms, and dads will share results of current violence on their lives -- productions from Who's Next, MAD, MOMs and Youth 180 as well as local youth rap and hip/hop artists. These presentations will help to promote and support the youth involved in area programs and stimulate interest from prospective new members. In addition, just as we did last year, we'll provide resource tables that supply youth with information on services, programs, and job

participants for the 3 design workshops and for 6 work parties to remove invasives and install native landscaping. A youth group from Refugee Women's Alliance will present their priorities for this 10-acre passive use site to the first design workshop. The sponsoring group will coordinate with the Seattle Parks Department and Seattle Department of Transportation, property owners of the site to ensure proposed enhancements to the site meet standards and requirements.

The Seattle mountain biking community and Eastlake neighbors have joined together and volunteers are ready to build a drainage and erosion control solution for the I-5 Colonnade Mountain Bike Skills Park. As a result of the project, the park will be cleaner, safer, more easily sustainable and more enjoyable for visitors.

15000

This project will be an innovative new youth mentoring program that brings together various community groups for the purpose of preventing youth violence by providing youth with the space and opportunities to create a neighborhood with a bright future.

13500

Improving International Children's Park is a collaborative effort to make physical improvements to the park, helping to increase usage and dispel suspicious activity. This phase would build upon the previous Small and Simple grants, allowing FICP to

previous Small and Simple grants, allowing FICP to purchase play equipment, commission a public arts installation and continue ongoing community building activities.

Friends of Jackson Park Trail seeks to work collaboratively with Seattle Department of Parks and Recreation and the greater Jackson Park community (including the golfing community) and a professional design firm to develop a more refined design and plan for the implementation of a loop trail at Jackson Park.

15000

This award will be used to create a comprehensive communications plan that enables the newly formed Friends of Lower Kinnear (FOLKPark) to inform, engage and involve a broad range of community members in efforts to initiate much needed improvements at the City of Seattle's oldest park. A component of the plan is the development of a website to communicate with neighbors, the greater community and other park supporters. It is anticipated that the website will be operated for the next five years to solicit community input, design and implement improvements that will enhance Lower Kinnear Park. The website will not be used for fundraising or advertising.

750

Funds will be used to hire a landscape architect, hold public meetings and develop a conceptual improvement plan for Seattle's historic first park. The

improvement plan for Seattle's historic first park. The Lower Kinnear Enhancement Park Plan will support the community's voice for stronger trail connections, sustained natural setting, increased usage and gain consensus for a preferred plan.

Phase 2 of our project will build on our successful Phase I effort to improve the grounds of an interim elementary school, adding an ADA-accessible ramp, and depending on community preferences, more play structures, game table, and/or landscaping and possibly painting a rusty wall beneath a fence and making minor asphalt repairs.

14999

The Duwamish Diaries brings together neighborhoods and schools, with current and past residents, to create a living history documentary on the Duwamish River and Tribe. The project includes a 60-minute video, multi media presentation, photographic and historical exhibits that will be presented at three public presentations in the Delridge & Greater Duwamish communities.

15000

This project will create an accessible garden that engages all of the senses to be experienced by everyone. Color, texture, patterns, scents and sounds - swaying grasses and water sounds will be part of a garden that welcomes people with hearing and vision impairments and visitors with limited mobility.

mobility.

This is the first step in our larger vision for this space. We would like to plant trees along the Aurora Bridge as a buffer from noise and pollution and to mulch the areas that recently had blackberries mowed to prevent them from returning.

6000

The West Woodland Playground project will enhance neighborhood open space by installing a green sustainable track around a restored grass field, other enhancements include a rain garden and substantial upgrades provided by the School District, such as improved ADA access, a new play structure and asphalt. The improvements will be used by the school population during the day and open and accessible to the public during non-school hours.

63750

The community surrounding Van Asselt @ the African American Academy is working to build a new playground in the south end field that can be a neighborhood gathering space. The new playground will not only be used by the 600 students on site, but it will be a valuable resource for the community and the many youth sports organizations in the adjacent neighborhood.

14975

Friends of Waterway 18 is creating a new community gathering place on Lake Union by restoring the shoreline, planting native habitat, and installing

natural seating areas for the rapidly growing Lake Union neighborhoods and for residents throughout Seattle.

Our group seeks to provide garden space for residents interested in tending their own plot, as well as provide a location that presents the opportunity to share knowledge and culture through cooperation and community team work. The P-Patch will also help to reclaim clean community yard waste and serve as compost.

15000

The Friends of Westlake Park, is an organization of downtown residents and business owners whose mission is to partner with area stakeholders to make Westlake Park a safe, clean and vibrant public space that is welcoming to everyone. Critical to the success of that mission is the active participation of all of the diverse interests in the neighborhood. Over the next several months the organization will launch a membership campaign designed to raise awareness and to solicit community involvement in both time and dollars from other stakeholders. The award will be used to print and distribute new membership brochures and publicity materials. A membership recruitment event is also planned. The new members will help to set the action agenda for the coming year.

year of Greenwood Elementary School. It celebrates the centennial through Greenwood history, writing and art projects, an open house and a "Green Greenwood" environmental education fair. We will build capacity for community volunteerism in the school, with an emphasis on bridging between children-seniors.

The Hazelwood Neighborhood Association is launching a membership drive. Their plan is to build membership and awareness through community mailings, email communications and door-to-door visits. A website will be developed to keep neighbors informed on key community issues. A special neighborhood gathering is planned for later this year.

750

This project will initiate the development of a master plan for future improvements to the Hillman City P-Patch. The goal is to revise the garden layout and structures, improve fencing, and enhance the community open space. First steps will require a landscape architect to prepare base drawing of existing site features to be used during planning exercises. We will also require an experienced facilitator and translator to encourage input/involvement from the diverse community as plans for remodel develop.

9300

The Homeless Place of Remembrance will be a public place of beauty designed to remember and honor

place of beauty designed to remember and honor homeless people who have died in King County.

The project will engage the neighbors from Lower Capitol Hill in collaboration with the National Night Out event.

250

The project will improve neighborhood networking communications. The Capitol Hill Community Council members will create a greater sense of unity by successfully organizing this event. It is a wonderful opportunity for the neighbors to convene and work cooperatively. There will be great food, entertainment and the chance to exchange information in a relaxed and informal atmosphere. This is an excellent opportunity for the neighbors to get acquainted and interact on a positive note.

The Versatility project will provide 15 East African youth involved with the court system with the following youth development opportunities: opportunities to engage with their communities through service, leadership and life skills training, and digital media training.

11800

The Howell Collective Garden project is a collective gardening endeavor that will be administered by the Department of Neighborhoods P-Patch program, but maintained by members. The project is open to the entire community around 16th & East Howell Street

entire community around 16th & East Howell Street and will invite people to plan, plant, maintain, and harvest the 30 by 100 foot garden installation. Thus far the project has brought together architects, community organizers, contractors, gardeners, and gardeners-to-be in efforts for this proposal. Free gardening classes will be provided by Seattle Tilth, and a plan will be developed for sharing the produce. There will also be several community celebrations to enhance interest in the garden.

Alley Art uses neighborhood ideas and talent to create a green sustainable alley. Seattle steelmakers will craft panels that: hold garbage bags neatly for pickup, display green plants and exhibit artwork, including \$25,000 of glass produced locally for the project. A clean, green and art-filled space will make the alley a pedestrian magnet and increase Pioneer Square's walkability and sustainability.

15000

Volunteers from the Lakewood Seward Park community will make luminaries and light the pathway to the Christmas Ships along Lake Washington Boulevard South. It is a Seattle tradition for the community to gather in strategic locations to watch the ships pass as they enjoy each other's company, warm beverages and light refreshments.

250

Will create a Lion Dance "Welcome Wagon" to greet light rail passengers whenever the train arrives at the

light rail passengers whenever the train arrives at the Othello Station on July 18th from 10 a.m. to 8 p.m.

At the 1st Annual Vietnamese Resource Fair on July 17th, I would like to provide kids activities such as face painting, educational games, kids entertainment, and arts and crafts for the children while their parents talked with service providers and local government agencies.

250

We will participate in the district wide clean up called the Bridge to Beach Day of Service on April 25th. We are planning to clean up the neighborhood by picking up litter and pruning and planting new flowers in the traffic circle on 47th Ave S and S Kenyon St. We will use this event to kick off the new block watch program in the neighborhood.

250

Organize a picnic at the Rainier Community Center on July 18 to engage and to brighten the spirit of community of the most diverse neighborhood in the world. Over 100 languages are spoken in the Rainier Valley. Another way to look at this is to say that this community is the BEST place in the world to live; why else would so many cultural groups converge in a single neighborhood? Why not show the world our Community Spirit by coming together and sharing a meal. The picnic will celebrate the richness of the diverse neighborhood by sharing food and entertainment, and enjoying the parks and playfields.

entertainment, and enjoying the parks and playfields, and most of all each other.

The University community will create an “info bike” with information about the programs of the Department of Neighborhoods and other valuable neighborhood resources. The bike will be parked outside the Neighborhood Service Center on Election Day, to help advertise the site as a “ballot drop site” and attract passers-by into the Center. After Election Day, the bike will be used as an “instant resource center” at places like the Neighborhood Farmer’s Market, Street Fair and other small venues that could accommodate a “catchy” and quick “stand” to capture public attention.

250

An unused parcel of property between the South Shore tennis courts and baseball fields will become a community learning garden. The community has a vision to develop a learning garden for students and the neighborhood. The project will create a sense of unity between the students and the community, and will help to foster a cooperative working relationship within the neighborhood. The project will engage the neighbors from the Rainier Beach community, parents and students from South Shore Elementary School, Kids Co Day Care, 4 H, and teens at the Rainier Beach Community Center.

Native American Women in Dialog on Infant Mortality Outreach

# Neighborhood Matching Funds

college libraries, and other public locations.

This project will expand the Genealogy Center at the Northwest African American Museum (NAAM) so that it becomes a true community-run neighborhood resource, relevant not only to the African American community, but to members of all ethnicities, both young and old. This will be accomplished under the guidance of a committed, multi-cultural steering committee.

14849

Native American Women's Dialog on Infant Mortality (NAWDIM) was founded in 2000 and has been working as a grassroots coalition dedicated to community building and educating urban American Indian and Alaskan Native women and their allies about healthcare issues including infant mortality. NAWDIM will hire a project assistant to conduct outreach for class participants and group membership. NAWDIM volunteers, the program assistant, and instructors will conduct 4 cradleboard classes (2 paid for by NMF award funds) for 40 women to share in cultural traditions, build intergenerational relationships, and provide safe sleep and infant health education for pregnant and new mothers to reduce the extremely high rate of urban American Indian infant deaths and build a stronger, healthier community.

One Day Festival @ High Point

# Neighborhood Matching Funds

Neighbors on 57th Street NE are mobilizing the community around disaster preparedness. They have organized into a SNAP (Seattle Neighbors Actively Prepare) group and are gathering resources and obtaining training so that they will be able to provide assistance when needed. This award will be used to purchase emergency supplies that will be kept in several secure locations by volunteers who have been trained to use them. A community meeting will be scheduled to advise the community on the location and availability of the resources.

599

Organize a community event for the current and new High Point residents as a welcome to the neighborhood festival. The festival will be free and open to all.

750

The festival has two goals. The first one is to attract new members and to offer them the opportunity to learn more about the organization at the event and be contacted later with information about the Candidates Forum and the Volunteer Recognition among other important information. The hope is to attract about 100 new members, particularly renters and families that moved recently to the area.

The second goal is to invite all neighbors to meet and learn about each other's cultures, enjoy ethnic food and socialize. Youth will be invited to be part of the event and help with the entertainment.

This project engages African American, East African and Latino/a youth of African descent and their parents in dialogues and activities to confront violence caused in part by the lack of understanding of issues based around identity and culture. Youth leaders (7-8) will be paid stipends to plan and implement a Youth Summit for 36 youth and parent/guardians. The young people will showcase their diverse cultures and identities. An East African consultant will coordinate a media project which will be presented at the Summit to address stereotypes, ways to rise beyond assumptions, and to capture the stories of the youth.

Highpoint neighborhood, a community event is being planned for this summer. There will be food, entertainment and an opportunity for neighbors to get to know each other in a relaxed and fun environment. The NW Somali Community Services at High Point will also have an opportunity to discuss their goals and to solicit members who will help to set the agenda for the coming months and carry out new initiatives.

Ocheami will conduct a 20-week afterschool music program at Washington Middle School. The group will hire 3 drumming teachers with the NMF award and one with a HOST grant from Education Levy money. The community match includes a project coordinator, a coordinator of volunteers, an outreach consultant for the East African community from Horn of Africa Services, Friends of Washington Music as fiscal sponsor, and a recording by Jack Straw Productions. Youth participants will perform once at the school and once at Folk Life Festival free of charge to the public.

15000

The Othello Neighborhood Association is launching a membership drive in connection with the opening of Sound Transit Light Rail service in southeast Seattle. A festival is planned for late July at the Citadel on the corner of Othello and Martin Luther King Junior Way. It will include food, entertainment and a variety of information booths. Community members will staff an

information booths. Community members will staff an outreach table and will share information about the neighborhood association and provide an opportunity for people to join. It is expected that over 100,000 people will ride light rail on that opening weekend. This is an exciting time to engage the community. The goal is to attract between 35-75 new members.

The purpose of the festival is to highlight the history and contributions of the African-Americans in the Central Area community. The Pacific Northwest Black Community Festival provides an opportunity for everyone from around the community to celebrate and experience the rich and long heritage of African-Americans.

15000

To excite low-income families about gardening and healthy eating, community members will be invited to a gathering for a meal, plant exchange as well as a gardening informational resource exchange, and help match people with other community gardeners. Participants will leave with better gardening networks and a bucket of compost with seeds as a starter-kit door prize.

250

Duwamish Alive, entering its 5th year, celebrates the community spirit to engage in restoration of the environmental health of the Duwamish River and tributaries during twice yearly habitat restoration and community-building festivities. Duwamish Alive

A community meeting will be scheduled to advise the community on the location and availability of the resources.

A group of neighbors, business owners, law enforcement agents, and other stakeholders came together to form the Rainier Othello Safety Association (ROSA) over 7 years ago in response to a marked increase in violence associated with drug sales and use. The National Night Out Against Crime in August is an opportunity to celebrate that partnership and its many successes. A community wide event is planned, with great food, casual conversation and bouncy toys for the kids. The ROSA community has been through a great deal and this community building celebration is well deserved.

This project will transform the lower playground into lively play spaces for children, and an educational resource for the community. Elements include site art, garden beds, sustainable systems, performance stage, outdoor classroom, walkways and play surfacing. An open space to be just a kid or act like

the community for a free event to celebrate connectedness and creativity in Georgetown. Music, art and culinary creations are the feature for this unique showcase that is designed to support a youth arts organization, while joining residents and business owners with local talent.

This project will galvanize the community to develop a design that will improve conditions at the University District P-Patch. By utilizing a landscape architect to facilitate the community-driven design process, we will develop an improvement plan and budget for future construction projects and ensure the broadest possible neighborhood support.

15000

This project will create a set of panel murals to hang in the common area at South Lake High School. The project will engage community youth in design and creation of the murals.

2170

This project will paint one large mural on three walls of the main entrance of the high school where students and community members enter daily. It will engage at-risk students from Youth 180 as artists, spending their after-school hours in a productive and creative environment. Students, staff and community will help envision and approve the design.

two-year community organizing and participatory research project. CARE will foster youth leadership, civic engagement/community building, and develop a model that other immigrant communities can use to address social and economic inequities.

The View Ridge Community Council is seeking to expand its membership by staging a neighborhood celebration entitled “A Day in the Park”. This family friendly event will feature a live band, photos, advice from Master Gardeners, a video of historic View Ridge, a pet parade, arts and crafts, and games and activities for all ages. A number of community organizations will also participate such as Seattle Audubon, View ridge PTA, Cascade Bicycle Club, the Seattle Police Department and the Public Library. A membership booth will be set up in a strategic location and volunteers will be available to answer questions and to sign up new members. They will also follow up to make sure that new members connect with the organization and are plugged into activities that match their skills, abilities and interests. The current membership is 248 households and the goal is to at least double that number. New members will be encouraged to take on the responsibilities of community leadership. An expanded membership base will allow for the creation of new standing committees, enable the Council to take on new

neighborhood will be celebrated.

Negative media stories give Southwest Seattle a bad name. Youth Media Institute will host a series of media workshops that engage teenagers and teach skills to communicate positive stories that get overlooked. In particular, young people will create multi-media pieces that celebrate the diversity of cultures and customs in their neighborhoods.

14700

This two-part project will commemorate the 125 years since Chinese were forcibly removed from Seattle in 1886 and illustrate how the issue of immigration remains unresolved today.

19867

Central Area neighbors are planning a block party in conjunction with the national Night Out Against Crime on Tuesday, August 3rd from 5-9 pm. This family friendly event, located on 27th Avenue between Spring and Marion, will have great food, music and games for kids of all ages. This will be the perfect opportunity for the community to spend time together in a fun and relaxed atmosphere. All Matching Fund events are alcohol free, funded on a one-time only basis and free to the public.

250

Community volunteers will pick up litter, clear out dead weed debris and tidy up the unimproved right-of-way at 42nd Avenue South and South Andover. Once the project is completed, the space will appear safer

for neighbors to access and will demonstrate community pride and commitment.

Community volunteers will enhance the unimproved right-of-way adjacent to Genesee Park. Trash and debris will be removed in order to reinforce a sense of neighborhood pride and commitment to the park.

1000

Neighbors on 51st Avenue South, in cooperation with other community partners are organizing the 2nd Annual Bridge to Beach all Valley Earth Day Makeover. The goal is to rehab a badly neglected 300 square foot street corner. Currently it is covered with blackberries and trash. Community members will clean, weed and replant the area with decorative and edible perennial plants. This project will demonstrate sustainable gardening, beautify the city and foster collaboration among neighbors.

350

University neighbors are organizing to bring new life to a neglected traffic circle at the intersection of 8th Avenue NE and NE 59th Streets. The plan is to remove the weeds and prepare the ground for new plants, shrubs and trees. The goal is to make the site more pleasing to the eye and also sustainable, through the use of drought-tolerant plants, drip irrigation and other environmentally friendly methods. This effort is a perfect opportunity for neighbors to work together on a project that benefits everyone. It's a way of saying "we care about our community." This

a way of saying “we care about our community.” This project has received SDOT approval.

The project sponsor will create a program to spread the word about the importance of the upcoming census. They will conduct extensive outreach to the community at-large to promote the benefits of participating in the Census 2010 for the well being of Seattle's immigrant and refugee communities. Afrique Service Center will hire 4 consultants and recruit 20 volunteers to conduct a promotional and educational campaign using ethnic TV and print media to encourage immigrant and refugee families to participate in Census 2010. Activities include: volunteer recruitment and training workshops, development of a marketing and outreach plan, door-to-door campaigns, 3 special events, development of volunteer database, development of client database, and development and distribution of educational and promotional materials. Primary focus will be East African communities in SE Seattle.

17000

A community block party is planned for July 31st. The goal is to welcome neighbors from diverse backgrounds, both homeowners and renters. A special effort will be made to include children, many family friendly games and activities will be available for all ages. In order to accommodate and respect cultural differences, specific items such as Halal meat

The Association of Sustainable Entertainment whose goal it is to promote multicultural heritages through music and dance while also stewarding our natural resources, is planning a demonstration event at the Seattle Summer Streets Festival on August 21st in Columbia City. Diverse musicians and cultural groups will be performing. The speaker system will be powered by a bicycle. As the artists perform, neighbors will be encouraged to peddle the pike to help generate electricity and activate the speaker. This will be a fun and exciting event that will bring community members of all ages and backgrounds together. It is also an innovative way to teach everyone about environmental sustainability. Matching Fund events are alcohol free, funded on a one-time only basis and free to the public.

1000

Community volunteers will conduct a competitive selection process to hire a planner to help the community design a safe family bike and pedestrian circulation system: bike boulevards, pedestrian improvements and sign and signal improvements to connect families to Jefferson Park, the Urban Village, and schools in one or more continuous loops. Volunteers will develop and carry out an outreach plan including translation and interpretation in several languages to ensure community participation. A brochure and website will be developed for outreach

an outreach plan for participants, and conduct a community planning project that examines the opportunities for neighborhood open space and green connectors on the lands currently occupied by Viaduct structures that are subject to demolition.

In fall 2010 Cleveland High School will open as a Science, Technology, Engineering, and Math specialty school. Campana Quetzal volunteers will provide parent training to bilingual Latino parent leaders. The trained parent leaders will conduct outreach and educational activities for Latino families in Seattle Public Schools. Overall, the project goal is to create a cultural expectation and pipeline to college and other formal post-high school education options for Latino families. As part of the community match Cleveland is providing use of their facility for afterschool computer literacy classes, ESL classes, and special educational events for families.

100000

The Seattle Central Area Chamber of Commerce will plan, market, and implement the Juneteenth Festival June 11-13, 2010 in Pratt Park. There will be vendor booths, a health expo, youth day, parade, music, and praise day. The public will learn about the historic June 19, 1865 reading of the Emancipation Proclamation by General Gordon Granger in Texas marking the end of slavery two years after it was put into effect by Abraham Lincoln and starting the annual

into effect by Abraham Lincoln and starting the annual observance of the day as African American Freedom Day.

The Central District Neighborhood Association, with the Seattle Department of Neighborhoods, Seattle City Light, SDOT, NW Insurance Council and many neighborhood volunteers, previously successfully completed a Union Street streetscape visual and safety improvement project. We have regularly done watering, weeding and litter pickups since. Now we'd like to plant new plants in the gaps where plants have died or been stolen. Neighborhood volunteers will do an extensive litter pickup, graffiti removal and install the plants. After, we'll celebrate with spouses and children at a Central Cinema pizza party, a locally owned member of the Union Street Business Group and past sponsor of community celebrations.

The Union Street corridor planting strip is in need of improved landscaping and beautification. The Central Neighborhood residents, block watches and businesses will engage in community building project. This is an opportunity for neighbors to partner up to enhance the quality of life.

This project will create public art throughout the Central District which will reflect the diversity, history, and pride of the Central District of Seattle. We will begin with the Squire Park geographic area.

The sponsoring group will hire consultants to produce construction plans for enhancements of Lower Kinnear Park which is a 10.8 acre urban forest. The community envisions improving entrances to the park, enhancing the park trails and connecting pedestrian pathways between neighborhoods and the waterfront.	100000
The Friends of Powell Brnett Park are planning an afternoon of music and enjoyment for the entire community on Saturday, September 11th from 1-4pm. Powell Barnett Park is located on Martin Luther King Jr. Way between Alder and Jefferson streets. Neighbors should bring their own picnic lunches. The beverages and entertainment will be provided. There will also be face painting, bubble making, dramatic reading and a juggler. The event will appeal to all ages and provide a great opportunity to meet old friends and make new ones. All Matching Fund events are alcohol free, funded on a one time only basis and free to the public.	1000
We hope to design a playground to better serve the developmental and social needs of children, particularly those within Seattle who are along the autism continuum.	0
The eminent closure of the South Park bridge is of great concern to the adjacent community. Many residents who are not native English speakers are still not aware of the fact and have no understanding of	1000

concrete block wall at the Beacon Bluff P-Patch to create a flat path and allow for gardening below. This will improve the appearance and usefulness of an unsightly and hard to access area of the garden. The P Patch is appreciated by many who live in the area, this former junkyard and garbage dump is now an attractive community gathering space. These improvements will further enhance the location.

University neighbors are organizing to bring new life to a neglected traffic circle at the intersection of 8th Avenue NE and NE 59th Streets. The plan is to remove the weeds and prepare the ground for new plants, shrubs and trees. The goal is to make the site more pleasing to the eye and also sustainable, through the use of drought-tolerant plants, drip irrigation and other environmentally friendly methods. This effort is a perfect opportunity for neighbors to work together on a project that benefits everyone. It's a way of saying "we care about our community." This project has received SDOT approval.

A parent committee at Lafayette Elementary School is raising funds and building community partnerships to replace the current play structure and update the play area. Goal is to make an updated, safe, and fun play area/public space for Lafayette students and local neighborhood residents.

speaking women in transition to be more connected with other women in similar circumstances. They will work together to develop a website that will connect them to valuable resources and will plan activities that will strengthen their bonds with each other and the larger community. The website will not be used for advertising, fundraising or political activity.

Wallingford neighbors are planning to paint the intersection of Interlake Ave N and N 41st street as a traffic calming devise. The project will be completed with the assistance of a volunteer artist. The work party is scheduled for Saturday, August 14th from 8am-5pm. To ensure public safety the streets will be blocked off and a permit will be issued by SDOT. This project will give the community a sense of place and provide the young people a change to work with their peers on an effort that benefits their community.

591

Beacon Hill neighbors are planning a community event at Rizal Park, located at 1008 – 12th Avenue South, on Sunday, August 15th from noon until 8:00 p.m. This family friendly event will bring awareness to the history of this park, which is one of the few in the nation that is named for a Filipino hero, Dr. Jose Rizal. There will be ethnic food, art displays, information booths from neighborhood nonprofit organizations and a variety of music, everything from Hawaiian to R&B. It will be a great opportunity to

An open house is being planned for the new South Park Information and Resource Center. This neighborhood event will bring together key community partners, business owners and the diverse community of South Park. The goal is to reconnect with existing users and to showcase to new community members, the many resources and programs the Center has to offer.	700
South Park neighbors are planning a family friendly community event in recognition of "Night Out", on Tuesday, August 3rd from 5-9 pm. The purpose of the event is to heighten crime and drug prevention awareness, generate support for and participation in anticrime programs and strengthen neighborhood spirit and police community partnerships. This is the time to meet old friends and make new ones. There will be great food and fun activities for all ages.	1000
The South Park community is planning a commemorative event on Wednesday June 30th to mark the closing of the South Park Bridge, the iconic symbol of the neighborhood. This event will acknowledge the historic nature of the bridge and its importance to the community. There will be entertainment, food, beverages and information booths. The location is 14th Avenue South between S. Cloverdale and S. Orr streets. Events are funded on a one time only basis and must be alcohol free.	1000

interests and age groups by the surrounding neighbors and beyond.

Community members will sew durable cloth bags with “return” patch to distribute to Queen Anne businesses, the Queen Anne Library, and farmer’s market. If a customer forgets their bag, they can borrow one and return it later. Funding will be used to purchase project supplies and outreach materials. Project will start small and continue to solicit more participants. In addition to monthly sewing bees, girl/boy scout troops and other local programs and groups will be invited to participate. The goals are to build community and reduce the use of disposable bags. Group will explore setting up outdoor racks where bags can be returned.

1000

Sustainable West Seattle will equip and manage a free of charge community tool library on the South Seattle Community College campus that will empower community users and partner organizations with access to a range of useful tools, literature, and related expertise.

20000

A combination of leadership and parent involvement, will offer a space to empower parents by creating community in the school and by learning from each other. Leaders will help to facilitate a transition into the cluster Roxhill-Denny-Chief Sealth-community college.

Parents, schools and community partners in Southeast Seattle will produce a Cultural Early Learning Fair. This event will provide resources and information to parents of preschool students entering Seattle Public Schools. The culturally responsive workshops sessions will give parents an opportunity to engage in discussions and activities in their home language. Materials will be available in 7 languages. It will provide a foundation for parents to acquire information on the importance of early learning, parent advocacy and relationship building between home, school and community. A number of follow up activities are planned to make sure that the parents are connected to their schools and each other. .

Establish The Whale Trail in West Seattle. Build community, educate and inspire stewardship through signage at viewing sites, an orca steward training program, and oral history podcasts.

The Thornton Creek Elementary School community will build a playground addition that addresses the needs of children with special needs. The project includes several structures that suit their developmental and cognitive abilities. The planned additions include a gizmo panel (with an echo chamber, maze wheel, click wheel, flat mirror, "answer" wheel), a rain wheel, GANZA, round mirror, bongo drums and ceramic-tiled pillars to beautify grounds.

Weekend at Seattle Center. This training will strengthen the organization and will provide an opportunity for them to engage in a conversation that will inform and assist local leaders and activists as they chart a path toward closing the opportunity gap that currently exists for Native American youth.

THREE WINGS seeks to open an inclusive and all-ages cultural arts venue and workspace in Seattle's Capitol Hill that fosters and supports Seattle's queer youth community.

99982

Georgetown Artist Cooperative is joining with United Artists of Georgetown and Georgetown Community Council to create a community Raku fire project. The project will begin with construction of a gas fired, portable Raku kiln built by members of the participating groups. Several free to the community/all age classes in creating traditional tea bowls with a Year of the Tiger theme will be held during the month of June 2010 prior to the community Artopia event. On the evening of Artopia, June 26, participants will gather to glaze and fire their tea bowls. The intention is to make this an annual event in conjunction with Artopia, Georgetown artists and the Georgetown community.

1000

Prior to classes being held and before June 26, applicant will provide a copy of the necessary permit

applicant will provide a copy of the necessary permit as well as a copy of the certificate of insurance adding the City of Seattle as an additional insured. Kiln must remain publicly available and not be used for fee-based classes.

The Jackson Place neighborhood is developing a community garden that will include 80 square feet of raised beds. Volunteers and neighbors will teach children the basics of gardening as well as the value of producing your own food. The benefits to the community are huge. Planning and organizing this project has already brought people together. Neighbors will come together to harvest the bounty and to host community meals, sharing what has been grown. The garden which is located in the cul-de-sac at 20th and S. Main (adjacent to Lavizzo Park), will be open and accessible to the public. This project requires SDOT approval.

1000

The Uptown Alliance will use a variety of outreach strategies to promote free public events presented in cooperation with the Seattle Police Department, Transit Police city officials and staff. The events are designed to educate the public to report crime and other public safety issues. The goal is to promote the event to a younger demographic segment of stakeholders in Uptown and South Lake Union. To achieve this goal, the Alliance will make full use of the
